Summary of the Course

Subject area: *Chinese Studies*

This introductory Chinese course is for Chinese background speakers who recognise fewer than 50 Chinese characters. Starting from Pinyin, the official phonetic system of Standard Chinese, the course helps you establish a systematic learning pattern and develops your four language skills (i.e. listening, speaking, reading and writing) in an integrated manner. It introduces you approximately 150 vocabulary words, along with the associated sociocultural and linguistic awareness in day-to-day topics, such as greetings, introducing oneself, making an appointment and talking about university life.

Course Learning Outcomes

1. Understand and use approximately 150 essential vocabulary items.
2. Apply the four language skills in Chinese (i.e. listening, speaking, reading and writing) at introductory level, taking into account students' heritage background.
3. Communicate effectively in Chinese on topics such as introducing oneself, making an appointment and talking about university life, in both oral and written forms, in a linguistically and socioculturally appropriate manner.
4. Apply independent learning strategies to increase Chinese proficiency beyond the classroom.

Teaching Strategies

This language course requires students to attend lectures and tutorials. The lectures cover new vocabulary, grammatical structure, lesson text and cultural and literary awareness. The tutorials focus on listening and speaking exercises as well as reading and writing tasks. Besides the classes, a minimum of 4 hours of weekly studying time outside the classroom is required in order to obtain a satisfactory learning result. Students are expected to review each lesson and finish all workbook exercises as soon after the weekly classes as possible. Given that each new lesson is based on all content covered previously, students should not postpone their studies.

As for practical teaching, both structural method and communicative method will be applied in the course. In each lesson students will begin with vocabulary and structural practice, followed by task-based activities. Considering that the students are background learners, a substantial amount of class will be conducted in Chinese. The teaching staff will adjust the amount of English and Chinese used according to students' feedback and needs.

Assessment

Submission of Assessment Tasks

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
