## **Course Details**

### **Credit Points 6**

### **Summary of the Course**

This course will help you to develop a range of higher-level research skills. It will cover such areas as research methodology, research questions, the literature review, presentation skills, and academic writing. It will help you to identify and develop your research proposal, articulate its point and purpose, and present it in oral and written form. It will thereby support you in the skills you need to produce a sustained research project such as the Honours thesis. The content is delivered through seminars and workshop.

### **Course Learning Outcomes**

1. Evaluate the key principles of high-quality quality research in a relevant discipline
2. Locate, analyse and evaluate research relevant to a specific topic
3. Construct and articulate a clear and coherent research proposal
4. Articulate the ethical obligations generated by research in the humanities

### **Teaching Strategies**

This course comprises a two-hour session from Week 1 to Week 9, followed by a six-hour Honours Symposium in Week 13. There is no class from Week 10 to Week 12, which are for self-study and individual consultations on assessments. The two-hour sessions are designed to enable students to learn the skills of conceiving and managing a research project, including locating their research within relevant academic literature, managing the research process, considering appropriate research methods, and communicating research effectively. The seminars will cover topics such as the literature review, online databases, research methodology, and authoring a thesis. At the workshops, students will work with peers from multiple disciplines on specific tasks such as sharpening research questions, brainstorming ideas, understanding their methodologies, fine tuning their timelines, and presenting a critique of completed theses.

## Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

**Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

**Inappropriate paraphrasing:** Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

**Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

**Inappropriate citation:** Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

**Duplication ("self-plagiarism"):** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
