### **Summary of the Course**

What is Europe? How has it been conceived over the centuries and how have these conceptions changed? How have these concepts shaped ongoing controversies over Europe, its significance, its aspirations, its shortcomings? In this course you will learn about key concepts, institutions, and movements informing modern Europe's self-understanding. You will explore how classical culture, religious struggle, Enlightenment, revolutions and wars have shaped how Europe works and imagines itself today.

### **Course Learning Outcomes**

1. Identify and explain key periods, institutions, and processes that have shaped modern Europe.
2. Relate defining concepts and ideas of European political, cultural and intellectual history to contemporary debates about Europe.
3. Differentiate between and discuss different claims on and about Europe, controversies over its role and outlook both past and future.
4. Demonstrate familiarity with conventions of academic writing and research integrity.
5. Question received wisdom, including one's own, and appreciate differences in perspective and evaluation.

### **Teaching Strategies**

The learning and teaching strategy is designed to encourage student engagement with debates about the foundations and legacies of Europe, developing their critical skills through multiple modes of teaching and assessment. The course is organised as a blend of lectures and tutorials aimed to foster critical thinking and discussion with and among the participants. Weekly questions on the readings guide student understanding of the diverse texts under discussion. Student presentations and group discussions aim to foster student initiative and interaction.

## Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

**Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

**Inappropriate paraphrasing:** Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

**Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

**Inappropriate citation:** Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

**Duplication ("self-plagiarism"):** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
