Summary of the Course

This is an introductory course in Modern Standard Chinese language (Mandarin) for non-background speakers. The course will start with basic components of Chinese language: the *pinyin*, and characters. It will teach you how the Chinese language works both grammatically and in socio-cultural contexts so that you start to develop your linguistic and communicative competences. The four language skills - Listening, Speaking, Reading, and Writing - are integrated throughout the course. A cultural awareness is also built into the course. Through language study you will develop an informed understanding of Chinese linguistic behaviour, society and culture.

This course is a beginners-level language course. All students who have had some experience with the language, either as a heritage language or through previous instruction, must fill in the placement questionnaire available at <https://hal.arts.unsw.edu.au/students/courses/language-placements>. You will not be permitted to enrol in a language course that is too easy for you. If this occurs, you will be requested to change your enrolment.

Course Learning Outcomes

1. Recognise, pronounce and write pinyin and characters at introductory level
2. Use full skills of Chinese language (listening, reading, speaking and writing) at introductory level within topics related to everyday practical situations
3. Identify a basic critical understanding of aspects of Chinese linguistic behaviour, society and culture.

Teaching Strategies

Language is best acquired through a holistic and interactive fashion, so all four language skills - listening, speaking, reading, and writing - as well as a cultural component are integrated throughout this course. The emphasis is on the transformation of linguistic skills into active communication. Specific instructions and practices pertinent to each skill development are woven into the learning activities, aligned with the assessments, taking into account that this course is for non-background beginners. To achieve the desired effect, effort and careful planning have been made to align our teaching strategies, methods and structure with the aims and learning outcomes of the course. The lecture serves as an overall introduction to both language and cultural aspects relevant to each chapter. The tutorials focus on the integrated language skills through a variety of exercises. All the assessments, including class activities and group interactive projects, are set to engage students in active learning and effective communication. A multi-media approach and on-line assessments are also adopted to complement the communicative and grammar-translation approach to enrich each student's learning experiences.

Assessment

All the detailed information about the assessments will be provided well in advance on the Course Moodle and in class.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au . Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
