Summary of the Course

The course focuses on Japanese communication in upper beginners level through different topics that are related to daily life. It provides you with a general understanding of Japanese sentence structure, vocabulary including 95 kanji, pragmatics of Japanese communication together with familiarity with a number of sociocultural issues. The course aims to develop your informed understanding of Japanese experiences, culture, society and world views as well as further develop beginners' Japanese interactive skills achieved in Introductory level towards pre-intermediate level. It also aims to prepare you to become competent communicator in Japanese in various informal and formal contexts.

Course Learning Outcomes

1. Describe and narrate events out of one's experience, and express thoughts on the events using complex sentence structure in Japanese
2. Perform oral and written skills gained in the course
3. Identify and evaluate problems in own oral and written work
4. Apply knowledge of Japan and/or Japanese language and Japanese communication skills through participation in face-to-face and online activities and events
5. Select and use appropriate kanji (including 95 new kanji) and kana in reading and writing Japanese

Teaching Strategies

The three-hour lecture is divided into two parts. In the first lecture, students will learn social and cultural issues related to the topic of the week, followed by explanations/discussions and some interactive practices of new grammatical structures/expressions. In the second lecture, students will engage in reading and writing activities including learning new kanji and hands-on exercises that are essential to the topic of the week. The lecture is regularly visited by senior students whom students can interact with and gain support. The lecture is delivered mainly in English with Japanese /English slides in order for students to fully understand the content of the week. Tutorials provide students with explicit practice of interaction in Japanese where they put to use the knowledge gained from lectures into practice through a number of exercises, then apply what they have learnt to real communication with teacher and peers.

Tutorials are delivered in Japanese to develop students listening skills and encourage them to communicate in Japanese. While setting the above face-to-face classes, the course actively uses Learning Management System (LMS) to provide students with learning resources, assessments as well as a learning community with other students and teachers through the sharing of experiences and information regarding Japanese language, culture and society. Students are also encouraged to engage in Japanese language and Japan-related activities outside of class to further develop their skills, knowledge and experience of Japanese communication.

The course uses Genki 2 as a textbook. The first six chapters covers the following topics:

1. Part-time work
2. Gift (Chapter 2)

3. Travel (Chapter 3)
4. Lost property (Chapter 4)
5. Rumour and Moaning (Chapter 5)
6. University Life (Chapter 6)

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au . Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
