

AGSM @ UNSW Business School

AGSM Progression Planner

Tools to help you plan your progression

1. Know the program structure and courses

[Know your structure & requirements](#) and you can find [course outlines here](#) by searching for the course code. Courses are reviewed for minor changes each time they are offered and are fully revised every few years.

2. Know what is happening & when

The [Timetables and Key Dates page](#) is your best friend! Useful documents include:

- Key Dates (Annual) – save these dates into your calendars, diaries, and schedules – never miss an important date again
- Annual Course Calendar – these display the courses we have to offer across each Term for the year. They do change every now and then, so **check it each Term** just in case you need to amend your plan.
- Term-by-Term Class Schedules – these are typically released around 2 weeks before enrolments open, so save the date to check specifically what classes are offered, where, when and in what formats

3. Know what to do when Class Registration time comes

You'll receive 3 reminder emails in the lead up to Class Registration, which includes links to instructions and advice – please read these emails carefully prior to Class registration and ask us if you need any clarification.

4. Contact us if you're not sure about something

Post your question in Microsoft Teams if you think the answer might help other students, or if it's personal you can email us at studentexperience@agsm.edu.au or give us a call on 02 9931 9400 during business hours.

Start Planning:

Year	Term 1	Term 2	Term 3
Example: 2020	MBAX9131 Leadership (Intensive)	MBAX9125 Managing People and Organisations (Online)	MNGT6321 Corporate Finance (Virtual Class)
