

# WHY WOULD I WANT THAT?

TEA &  
TECHNOLOGY  
CAFÉ

AI companions  
and creative  
technologies  
for older  
consumers

The Tea & Technology Café is a relaxed space where older consumers can try out Artificially Intelligent [AI] companions, virtual reality, robotics, immersive media and sound experiences, designed for older audiences.

We invite members of the public – especially those over 65 – along with service-providers and business leaders to discover how technology can transform our lives in ways that we want, keeping us stimulated, active and well for longer.

Includes personal demonstrations, panel discussion and refreshments.

DECEMBER 6  
10AM-3PM  
(panel talks, 12-1pm)

Leighton Hall,  
John Niland  
Scientia Building,  
UNSW Sydney  
(Kensington)
