Summary of the Course

Subject Area: *Music*

This core course extends the student's knowledge of the materials, structures, and processes of tonal music to an advanced level via the study and application of harmonic and melodic practices in both advanced counterpoint, focusing partly on the study of the music of J.S. Bach, as well as early 20th century Western art music composition, and including an examination of the implications for such musical practices on other styles such as popular music and jazz. Students will develop technical knowledge and skill in the analysis and application of appropriate melodic and harmonic elaboration, counterpoint and contrapuntal technique, voice-leading, and musical form. Exercises in advanced compositional craft provide the student with the opportunity to demonstrate their initiative and creativity within selected styles of music. The course develops core skills in musicianship and the ability to apply these in other areas of musical practice and research.

Course Learning Outcomes

1. master knowledge on the materials , structures, and processes of chromatic tonal music at an advanced level.
2. Analyse chromatic melody and harmony in both 18th century contrapuntal styles as well as early 20th century musical styles, including popular music and jazz.
3. apply knowledge and skill in the use of chromatic melody and harmony to the identification and contextualisation of key 20th century musical works.
4. apply their developing musical knowledge and skill to music making, whether it be performing or composing.
5. demonstrate core skills in musicianship, in particular, music literacy, score reading, aural discrimination, and the performance of advanced chromatic harmonic principles.

Teaching Strategies

Students attend a weekly one-hour lecture on music theory and harmony; a weekly one-hour tutorial on harmony and analysis; and a weekly one-hour workshop on aural skills.

Lectures involve class exercises in music theory and harmonic analysis and are augmented with sound recordings, powerpoint presentations, and class quizzes.

The harmony tutorial provides the students with the opportunity to complete in-depth analysis of selected musical examples in support of the lecture series.

Aural Workshops involve class activities, intensive drills, and exercises in the analysis of selected musical examples designed to develop advanced aural perception.

Assessment

All assessment items, aside from in-class tests, are to be submitted via Moodle.

It is UNSW Policy that all students must attempt ALL assessments items within a course.

Students must achieve a 'Pass' mark for the Harmony component to be awarded a 'Pass' mark for the course overall.

Assessment Details

Assessment 1: Music Literature

Start date: Not Applicable

Details: Self-directed study with a final exam.Feedback provided by result for exam.

Additional details:

The Music Literature exam is a written exam, which takes place during the normal Harmony Lecture times on Tuesday 06 August (Week 10) in Webster G17. Students should attend the exam held at the lecture time for which they are formally enrolled.

Although some of the works on the Literature List will be discussed in the Aural tutorials, it is each student's responsibility to make the time to study each of the works on the list.

Please see the Music Literature List, available on Moodle. This exam constitutes 15% of the overall mark for MUSC 2063.

Turnitin setting: This is not a Turnitin assignment

Assessment 2: Harmony (Lecture)

Start date: Not Applicable

Details: Portfolio of Harmony and Composition Exercises: two in-class tests and one composition exercise.Written feedback provided by lecturer.

Additional details:

The Harmony Portfolio component is based on three assessment items that are associated with the content of both the Harmony Lecture and the Harmony Studio:

Assessment 1. In-class test held in the normal lecture time on Tuesday 09 July (Week 6), in G17, this test is worth 15% of the total mark for the course.

Assessment 2. In-class test (or similar) held in the normal Studio time on Wednesday 07 August (Week 10), in Webster 306, this test is worth 15% of the total mark for the course.

Assessment 3. a Composition task to be submitted via Moodle by 4pm Monday 12 August (beginning of Week 11), this assignment is worth 30% of the total mark for the course.

Please Note: It is UNSW Policy that all students must attempt ALL assessments items within a course, and students need to attain a 'Pass' mark for the Harmony component to be awarded an overall 'Pass' mark for the course.

Turnitin setting: This is not a Turnitin assignment

Assessment 3: Aural Workshop (Tutorial)

Start date: Not Applicable

Details: Portfolio of Aural Exercises: one transcription exercise and one in-class aural test.Written feedback provided by tutor.

Additional details:

The Aural Tutorial component consists of the following asessment items:

· Auralia program (5%). It is a requirement that ALL students in MUSC 2603 must be working with the Auralia (Cloud Version) ear-training software. In 2019, this software has been provided for each student by the School of the Arts and Media. If you were not enrolled in a Materials and Structures of Music course in Term 1, 2019, and thus do not currently have acces to Auralia, please contact the Course Convenor as soon as possible to arrange access. Students are expected to work with the Auralia ear-training software throughout term. A minimum standard for each week is set out in the Aural schedule (see Moodle). Your progress will be monitored. Please Note:it is UNSW Policy that all students must complete ALL assessments items within a course, so if you do not complete the Auralia Assessment you will receive a 'Fail' Grade for the MUSC 2603 Course, even if you have completed all other assessment items.

· Aural Analysis (5%) is due on Thursday 11 July (Week 6). Please submit your assignment through the link that will be made available in the MUSC 2603 Moodle module.

· One in-class written test (10%) assessed on Thursday 25 July (Week 8). The material in this test is of a correct and incorrect nature. Preparation is best done through regular use of the Auralia program.

• Sight singing (5%) assessed in normal Aural tutorial times on Thursday 08 August (Week 10).

Course Evaluation and Development

Student feedback is on this course is gathered periodically and is always carefully considered with a view to acting on it constructively wherever possible. Feedback is gathered by various means including the occasional informal on-line questionnaire and via the more formal myExperience Process.

In light of previous feedback from students in this course more focus has been given to understanding harmony and harmonic concepts as they relate to jazz and other music styles. Similarly, a broader range of musical styles is referenced and examined, especially within the aural and music literature components, in order to further enhance and consolidate the student's understanding of those concepts.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au . Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
