Summary of the Course

This course provides you with a practical understanding of film language, narrative and pre-production processes. By exploring the construction and use of images and sounds through workshop exercises and case studies of specific film practices, you will gain an understanding of the technical, aesthetic and sensory workings of screen production. You will develop a basic understanding of how film language works and in so doing will develop an understanding of the creative potential of the medium. In this course you will explore ways of preparing narrative outlines and storyboards, learn how to capture and generate images and sounds, experiment with existing images and sounds and the editing process. The course will explore the creative potential of audio-visual media and deal with a range of practical and conceptual problems in developing group projects.

Course Learning Outcomes

1. Recognise and demonstrate some of the basic communication, organisational and conceptual skills required for creative collaborative work
2. Contextualise and adapt theoretical concepts regarding sound-image relations, editing, and shot structure to the analysis of particular film practices with practical applications
3. Reflect on and identify the development of the creative outcomes to advance skills in independent and collaborative learning
4. Conceive, research, prepare, edit and present audio-visual concepts, storyboards, photo-essays and scripts

Teaching Strategies

This course is structured as a creativity development course with high level expectations of professional conduct, robust group dynamics, technical proficiency, ongoing formative feedback and a supportive environment for creativity. Exercises are set to develop practical and technical skills that will garner peer feedback. My teaching philosophy is to provide all the necessary materials, environment and facilitation to allow students to solve problems in a creative and pragmatic manner. This course does have high time demands outside of class time and but with smart time management all students have the opportunity to gain valuable experiences from their projects and the group dynamics.

Assessment

Collaboration

All students will be asked to work in groups at various stages during the course. It is essential that you attend all the planning, discussion and pre-production meetings that you arrange as a group. The key thing is communication with your group. There is no excuse for disappearing or lack of communication. The pre-production process is collaborative and it is your responsibility to develop the necessary skills for effective teamwork, communication and conflict resolution. There are substantial penalties for not participating actively in group work.

Submitting Assignments

In order to pass this course you must seriously attempt and submit ALL the assessment tasks.

You should submit all your work via Moodle, but you should also present it on your individual portfolio sites.

When submitting your work, make sure it is clearly identified with your name, student number, tutor's name and project title. **Late submissions will attract penalties.**

Assessment Tasks

Assessment task	Weight	Due Date	Student Learning Outcomes Assessed
Photo Essay	30%	05/10/2020 11:00 PM	1,2,3,4
Adapting a classic	40%	23/11/2020 11:00 PM	1,2,3,4
Pre-Production Documentation	30%	23/11/2020 11:00 PM	1,2,4

Assessment Details

Assessment 1: Photo Essay

Start date: Not Applicable

Length: 2 to 3 minutes

Details:

3-minute short film composed of either original photographs or images from the family archive telling a personal story with a recorded voice-over narration. The personal narrative short film is to be accompanied by a 500-word exegesis. The focus is on a clear and moving narrative with efficient visual storytelling using available still images.

Individual task.

Feedback provided via LMS and iteratively during development through drafts.

Additional details:

Find additional information on Moodle.

Turnitin setting: This is not a Turnitin assignment

Assessment 2: Adapting a classic

Start date: Not Applicable

Length: 5 minutes

Details:

5-min video created as a group. The group will select, pre-produce, and remake a 'classic' scene from an existing film.

The adaptation will be a shot-for-shot remake. Students need to stick to the script, the shots, the mise en scene, but can adapt the meaning or the inflection. Students are encouraged to produce full pre-production documents (storyboards, mood book, bible, notes, schedules, shot lists, casting notes etc) to assist in the production. Verisimilitude to the original scene is an essential component of this assessment.

Each student must submit an individual 500-word exegesis, peer and self-review documentation. Students are evaluated on the performance of their assigned crew role and their exegesis. The group project is assessed as a whole. Students are evaluated on their effective group contribution.

Feedback is provided via LMS but also verbally through the pre-production and post-production process.

Additional details:

Find additional information on Moodle.

Turnitin setting: This is not a Turnitin assignment

Assessment 3: Pre-Production Documentation

Start date: Not Applicable

Details:

Ten pages of written or online documentation as pre-production for a short film that includes script synopsis, storyboard, prop lists, art direction, locations, costuming, casting decisions, budget, signed agreements, sound design, proof of concept images and marketing promotions.

This task requires working with a partner. Each student must submit an individual 500-word exegesis,

peer and self-review documentation. Students are evaluated on the overall quality of the documentation and submission. Students are evaluated on their effective group contributions.

Feedback is provided via LMS.

Additional details:

Find additional information on Moodle.

Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

SAFETY Student Safety - Occupational Health and Safety

In the event of an accident, please contact 9385 1980

Report any incidents to Course Convenor/s.

In managing risk there are three aspects to consider:

- Identifying physical hazards... i.e. risk assessment by reflecting on your working location and your work practices.
- Applying strategies for prevention and control of risk.
- Knowing workplace procedures for dealing with accidents and the prevention of accidents.

Identify possible sources of accidents when working. Plan to avoid accidents.

Consider how to prevent people from tripping over cables, tripods and lighting stands. Watch power points and cables near liquids.

Course Evaluation and Development

Student evaluations will be conducted towards the end of the course using the MyExperience Process. Student feedback is taken seriously and continual improvements are made to the course based in part on such feedback. Significant changes to the course will be communicated to subsequent cohorts of students taking the course. The Course Convenor/s welcome all suggestions – preferably in writing. MyExperience is administered electronically to enable a faster, more efficient more environmentally friendly process. However it does really put the onus on you to go to the site rather than waste class time. It's easy and it will benefit your future colleagues just as you have benefited from the feedback of students who have taken this course before you.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au . Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
