SUMMARY OF COURSE

This course provides aspiring and/or practising EAL/ESL/EFL teachers with the opportunity to undertake advanced classroom practice in this specialist field. The course offers two options for advanced professional practice, including high-level teaching, observation, and critical reflection in an intensive TESOL setting. This professional practice course is usually undertaken in conjunction with the completion of the co-requisite courses EDST5440 Advanced TESOL Methodology.

Stream A

For candidates seeking accreditation to teach or wanting to upgrade their professional knowledge and skills as a specialist ESL/EAL teacher in Australia: 25 days placement in a relevant TESOL institution: 1/3 teacher fronted; 1/3 structured observation; 1/3 participation in other program activities. The course coordinator will visit everyone doing Stream A to see a lesson and undertake a pre and post lesson conference. To qualify for Stream A, candidates need to have a 7.5 IELTS score, no less than 7.0 in R & W with 8.0 for Speaking and Listening and relevant preservice teaching qualifications for the sector in which they are specialising. If candidates are currently teaching in an appropriate TESOL setting, and have a minimum of one year EFT TESOL experience, they may be permitted to undertake an unsupervised placement provided they can still observe more experienced TESOL teachers (see TESOL Professional Experience handbook), but all placements, supervised and unsupervised, must be formalised through the Faculty Work Integrated Learning (WIL) unit.

Stream B

For candidates on international study visas who will never be eligible to teach in Australia but who wish to undertake structured observation of EAL/ESL teaching and participate in TESOL programs: 25 days relevant activity, including a 10-day placement in a relevant TESOL institution and a 15-day placement an Intensive language school/ high school (1/3 classroom assistance; 1/3 structured observation; 1/3 participation in other program activities). The placement must be formalised through the Faculty Work Integrated Learning (WIL) unit.

THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:

Be more flexible with the practicum; and more online activities.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

School-based work is a critical component of effective EAL/ESL/EFL teacher education, not only providing an essential forum for generating concrete problems and issues and applying new knowledge and skills, but also enabling the development of an integral link between theory and practice. This course provides EAL/ESL/EFL teachers with the opportunity to gain additional classroom practice in this specialist field at proficiency level.

5. TEACHING STRATEGIES

Students learn best when they are engaged and given an appropriate level of challenge; when their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers. Thus, teaching strategies used during the course will include:

- Online contact sessions
- Small group cooperative learning to demonstrate the use of group structures to address teaching and learning goals
- Structured occasions for students to reflect critically on and improve teaching practice
- Plenary discussions around core methodological issues and debates
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content
- · Online learning from readings and other useful web links.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Assessment Details

Assessment 1: Observing professional practice and using lenses for observation

You are required to observe five lessons of at least 2 qualified and experienced TESOL teachers in a TESOL setting. The aim of this exercise is for you to observe what happens in the classroom with the goal of self-improvement, i.e. What does this teacher do that makes them an advanced practitioner? What can you learn or adapt from his/her approaches to teaching and learning in the TESOL classroom?

You will be required to record the practices and processes in a form that can be retrieved and studied to assist in your own self-improvement. You can use any of the observational methods discussed on the course and in the course readings. Be sure to include data from at least two of these methods in your report. After collecting your data, describe how your observations and reflections can help to shape your own practice.

Consider:

- 1. What is influencing the quality and nature of events in the classrooms that you are observing?
- 2. What new instructional strategies, practices, approaches, educational ideas, solutions can help you to become an even more effective language teacher?
- 3. What are your personal strengths and challenges as an EAL/ESL/EFL teacher?
- 4. What areas of teacher effectiveness do you plan to work on?
- 5. Other ideas?

Assessment 2: Reflective journal

You are required to write a reflective journal linked with evidence of practice. It consists of two parts.

Part A

A narrative reflective journal outlining your developing practice as an EAL/ESL/EFL teacher. Include links to the literature.

Part B

Include an original unit of work consisting of 4/5 lesson plans, student task sheets, teaching resources and samples of student work as evidence to support your development as an EAL/ESL/EFL teacher, referred to in your journal. The evidence should "showcase" how you are working towards achieving the assessment standards of this course.

Appendix

Include a professional practice log summarizing teaching, observation and other duties completed over the semester, showing that you are working towards the 25 days. Please attach as an appendix.
