

2026 MetLife Pricing Analytics Internship Position

Sydney, Australia

Are you passionate about using data analytics to make a difference in a growing life insurer? Our vision is to lead the market as a digital insurer by providing the fastest, easiest, and most caring life insurance experience for our customers. Join us to play an active role in helping people when they need it most and shape the life insurance industry for the better, while learning from market-leading actuaries and professionals.

Your career at MetLife

As a Pricing Analytics Intern, you will be working in the Pricing Analytics team support the Pricing function and other stakeholders in MetLife by contributing to the delivery of quality data, analytics, and advice. You'll be part of a talented, diverse, and dynamic team, where you'll be mentored by industry experts.

What You'll Do

- Build data analytical skills by working with large datasets to derive insights and drive pricing and product innovation
- Develop pricing models and algorithms using cutting-edge tools and software
- Apply state-of-the-art data analytics and machine learning techniques to provide unique insights
- Maintain data integrity and resolve discrepancies
- Create dashboards for claims experience analysis, product features development, and key financials presentation
- Deliver presentations to MetLife stakeholders on pricing and data science topics
- Build relationships with our client base and key reinsurance partners

You'll have the opportunity to work on diverse projects and experiment with various analytics approaches to develop solutions for the insurance and superannuation industries. You'll also build close relationships with data specialists, actuaries, and professionals throughout MetLife.

What We're Looking For?

Essential Qualifications:

- Currently in second or third year of study in Actuarial Science, Statistics, or a similar discipline
- Analytical mindset with problem-solving capabilities
- Keen attention to detail
- Excellent communication skills, both verbal and written
- Team player with an energetic and collaborative approach

Desirable Skills:

- Strong programming skills with experience in Python, and SQL
- Experience with BI tools (Tableau, Power BI, or Qlik)
- Understanding of insurance industry concepts
- Previous project or academic experience in data analysis

Why choose MetLife?

Join one of the largest group pricing teams in Australia, with a diverse experience and background. Our team is close-knit and friendly, with a positive and supportive culture. You'll have every opportunity to spread your wings and reach your full potential with the support, mentorship and guidance of actuaries across the team.
