## 3785 - Engineering (Honours) Aerospace Engineering /

Complete?

Computer Science

**Notes** 

## 3785 - Engineering (Honours) Aerospace Engineering / Computer Science - 240 UoC

With this dual degree program, students take the 168 units of credit core of the Bachelor of Engineering (Honours) 3707 and the 96 units of credit core of the Bachelor of Science (Computer Science) program 3778. Due to the overlap of 24 units of credit of Science courses in both core, the total units of credit required for completion is 240 UOC, rather than 264 UOC (see the UNSW Handboook for more details).

Some courses are double counted. Additionally the course overlaps require students to replace the usual course in one core or major with a more advanced course required in the other program. Specifically:

- 1. Students MUST take COMP1511 as their first year Engineering computing course, COMP1511 is then double counted towards both degrees
- 2. Students are required to complete one of MATH1131 or MATH1141, and one of MATH1231 or MATH1241. The two Maths course are double counted towards both degrees.

**UoC** 

3. MATH1081 is a core requirement Bachelor of Computer Science but is replaced by the 2nd Year Maths course taken in the BE(Hons) Major Note: Without following the substitutions above, students may end up needing to use free electives for core requirements or taking more than 240 UOC to complete the dual degree.

Core Courses - 24 UoC

	Core Courses - 2	24 UOC		
COMP1511	6			
MATH1131 or MATH1141	6
