

37**68** – Engineering (Honours) Mechanical Engineering /

Biomedical Engineering

3768 - Engineering (Honours) Mechanical Engineering / Biomedical Engineering 240 UoC

This dual degree program is designed for undergraduate students wishing to pursue a career in either Engineering or Biomedical Engineering. At the end of the program, successful candidates will graduate with a Bachelor in Engineering (Honours) and a Masters in Biomedical Engineering. Students are expected to perform at a credit average (65%) or better in their first three years to continue into the Masters part of the program. Students who do not satisfy this requirement can revert to the Bachelor of Engineering (Honours) program.

Double Degree Structure

- 1. Students must complete 240 UoC
- 2. Students must complete a minimum of 72 UoC of the Biomedical component (BIOMDS)
- 3. Students must complete 168 UoC from their chosen Engineering (Honours) stream
