Zhixi Chen	zhixic@unsw.edu.au	Office hours	Office 211, Level 2, TETB	+61 2 9385 5182

### School Contact Information

School of Minerals and Energy Resources  
Old Main Building, Level 1, 159 (K15)  
UNSW SYDNEY NSW 2052 AUSTRALIA

T: +61 (2) 9385 5006

E: [mere.teaching@unsw.edu.au](mailto:mere.teaching@unsw.edu.au)

W: [www.engineering.unsw.edu.au/minerals-energy-resources](http://www.engineering.unsw.edu.au/minerals-energy-resources)

## **Course Details**

**Credit Points 6**

### **Summary of the Course**

The course covers the following aspects: The fundamental principles, composition and additives of drilling fluids. Clay chemistry. Polymer and applications in drilling fluids. Mud weight determination and calculations. Mud filtration and mud caking process. API mud properties. Chemical analysis including pH, alkalinity, chloride concentration, water hardness, sand content, mud retort and methylene blue titrations. Mud system design for control of formation damage and wellbore stability.

As part of the course, students will study additional topics through a project: Design mud program for an extended reach development well. In the project, students are required to carry out literature survey, perform wellbore stability analysis, and design mud program through a case study. Final project report and presentation is required.

### **Course Aims**

This course will enable students to acquire fundamental knowledge of drilling fluids and to apply the theory to the design, evaluation and optimization of drilling fluid program.

### **Course Learning Outcomes**

1. Design and evaluate drilling fluid program under specific well conditions.
2. Prepare and test drilling fluids according to API standards.
3. Optimize drilling fluids to control formation damage and wellbore stability.

### **Teaching Strategies**

Please refer to the information in Moodle

# Assessment

## Assessment Tasks

Assessment task	Weight	Due Date	Student Learning Outcomes Assessed
Assignment 1	10%	Week 4	1, 2
Assignment 2	10%	Week 7	1, 2
Assignment 3	10%	Week 9	1, 2, 3
Online Quiz	10%	Week 7	1, 2
Project	10%	Week 10	1, 2, 3
Final Exam	50%	Within the exam period	1, 2, 3

## Assessment Details

### Assessment 1: Assignment 1

**Details:**Clay and polymer properties and application in drilling fluids

**Submission notes:**Moodle Online Submission

**Turnitin setting:** This is not a Turnitin assignment

### Assessment 2: Assignment 2

**Details:**Mud weight and API properties

**Submission notes:**Moodle Online Submission

**Turnitin setting:** This is not a Turnitin assignment

### Assessment 3: Assignment 3

**Details:**Chemical analysis

**Submission notes:**Moodle Online Submission

**Turnitin setting:** This is not a Turnitin assignment

### Assessment 4: Online Quiz

**Details:**Content up to Week 5. Guidelines for helping the preparation for the online quiz will be released prior to the quiz.

**Submission notes:**Moodle Quiz

**Turnitin setting:** This is not a Turnitin assignment

### **Assessment 5: Project**

**Details:** Design mud program for an extended reach development well. The specification of the project will be released on Week 5.

**Submission notes:** Moodle Online Submission

**Turnitin setting:** This is not a Turnitin assignment

### **Assessment 6: Final Exam**

**Details:**

A two hours online quiz will be hold within the exam period. Guidelines for helping the preparation for the final exam will be released prior to the exam.

**Submission notes:** Moodle quiz

**Turnitin setting:** This is not a Turnitin assignment

## Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

## Course Schedule

[View class timetable](#)

### Timetable

Date	Type	Content
Week 1: 14 September - 18 September	Topic	<b>Ch-1 Introduction; Ch-2 Clay Chemistry</b>
Week 2: 21 September - 25 September	Topic	<b>Ch-2 Clay Chemistry; Ch-3 Polymer Chemistry</b>
Week 3: 28 September - 2 October	Topic	Ch-3 Polymer Chemistry
Week 4: 5 October - 9 October	Topic	<b>Ch-4 Mud Program</b>
Week 5: 12 October - 16 October	Topic	<b>Ch-4 Drilling Fluid Filtration</b>
Week 6: 19 October - 23 October	Topic	<b>Ch-5 API Mud Properties</b>
Week 7: 26 October - 30 October	Topic	<b>Ch-5 API Mud Properties</b>
Week 8: 2 November - 6 November	Topic	<b>Ch-6 Mud Systems &amp; Treatments for Specific Hole Conditions.</b>
Week 9: 9 November - 13 November	Topic	<b>Ch-7 Oil Based Mud</b>
Week 10: 16 November - 20 November	Topic	<b>Ch-8 Oil Based Mud</b>

### **Recommended Resources**

Not available

## **Course Evaluation and Development**

At the end of each course, all students will have the opportunity to complete a course evaluation form. These anonymous surveys help us understand your views of the course, your lecturers and the course materials. We are continuously improving our courses based on student feedback, and your perspective is valuable.

Feedback is given via <https://student.unsw.edu.au/myexperience> and you will be notified when this is available for you to complete.

We also encourage all students to share any feedback they have any time during the course – if you have a concern, please contact us immediately.

## Submission of Assessment Tasks

The School has developed a guideline to help you when submitting a course assignment.

We encourage you to retain a copy of every assignment submitted for assessment for your own record either in hardcopy or electronic form.

All assessments must have an assessment cover sheet attached.

## Late Submission of an Assignment

Full marks for an assignment are only possible when an assignment is received by the due date.

We understand that at times you may not be able to submit an assignment on time, and the School will accommodate any fair and reasonable extension. We would recommend you review the UNSW Special Consideration guidelines – see section below.

Late submission will not be accepted and will be considered as no submission.

## Special Consideration

You can apply for special consideration through [The Nucleus Student Hub](#) when illness or other circumstances interfere with your assessment performance. Sickness, misadventure or other circumstances beyond your control may:

- Prevent you from completing a course requirement
- Keep you from attending an assessable activity
- Stop you submitting assessable work for a course
- Significantly affect your performance in assessable work, be it a formal end-of-semester examination, a class test, a laboratory test, a seminar presentation or any other form of assessment

We ask that you please contact the Course Convenor immediately once you have completed the special consideration application, no later than one week from submission.

More details on special consideration can be found at: [www.student.unsw.edu.au/special-consideration](http://www.student.unsw.edu.au/special-consideration)

## Student Support

The University and the Faculty provide a wide range of support services for students, including:

- Library training and support services - [www.library.unsw.edu.au](http://www.library.unsw.edu.au)
- UNSW Learning Centre - [www.lc.unsw.edu.au](http://www.lc.unsw.edu.au)
- Counselling support - [www.counselling.unsw.edu.au](http://www.counselling.unsw.edu.au)

**Equitable Learning Services** aims to provide all students with a free and confidential service that provides practical support to ensure that your health condition doesn't adversely affect your studies. <https://student.unsw.edu.au/els>

## Academic Honesty and Plagiarism

Your lecturer and the University will expect your submitted assignments are truly your own work. UNSW has very clear guidelines on what plagiarism is and how to avoid it. Plagiarism is using the words or ideas of others and presenting them as your own. Plagiarism is a type of intellectual theft. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement. The University has adopted an educative approach to plagiarism and has developed a range of resources to support students. All the details on plagiarism, including some useful resources, can be found at [www.student.unsw.edu.au/plagiarism](http://www.student.unsw.edu.au/plagiarism).

All Mining Engineering students are required to complete a student declaration for academic integrity which is outlined in the assignment cover sheets. By signing this declaration, you agree that your work is your own original work.

If you need some additional support with your writing skills, please contact the Learning Centre or view some of the resources on their website: [www.lc.unsw.edu.au](http://www.lc.unsw.edu.au). The Learning Centre is designed to help you improve your academic writing and communication skills. Some students use the Centre services because they are finding their assignments a challenge, others because they want to improve an already successful academic performance.

## Academic Information

### Course Results

For details on UNSW assessment policy, please visit: [www.student.unsw.edu.au/assessment](http://www.student.unsw.edu.au/assessment)

In some instances your final course result may be withheld and not released on the UNSW planned date. This is indicated by a course grade result of either:

- LE – indicates you have not completed one or more items of assessment; or
- WD – indicates there is an issue with one or more assignment; or
- WC – which indicates you have applied for Special Consideration due to illness or misadventure and the course results have not been finalised.

In either event it would be your responsibility to contact the Course Convener as soon as practicable but no later than five (5) days after release of the course result. If you don't contact the convener on time, you may be required to re-submit an assignment or re-sit the final exam and may result in you failing the course. You would also have a NC (course not completed) mark on your transcript and would need to re-enroll in the course.

## Studying a course in the School of Minerals and Energy Resources Engineering at UNSW

### Report writing guide

The School has a [Report Writing Guide \(RWG\)](#) available. A copy of this is available on the course Moodle site.

### Computing Resources and Internet Access Requirements

UNSW Minerals and Energy Resources Engineering provides blended learning using the on-line Moodle LMS (Learning Management System). Also see - Transitioning to Online Learning: [www.covid19studyonline.unsw.edu.au](http://www.covid19studyonline.unsw.edu.au)

It is essential that you have access to a PC or notebook computer. Mobile devices such as smart phones and tablets may compliment learning, but access to a PC or notebook computer is also required. Note that some specialist engineering software is not available for Mac computers.

- Mining Engineering Students: OMB G48
- Petroleum Engineering Students: TETB LG34 & LG 35

It is recommended that you have regular internet access to participate in forum discussion and group work. To run Moodle most effectively, you should have:

- broadband connection (256 kbit/sec or faster)
- ability to view streaming video (high or low definition UNSW TV options)

More information about system requirements is available at [www.student.unsw.edu.au/moodle-system-requirements](http://www.student.unsw.edu.au/moodle-system-requirements)

## Accessing Course Materials Through Moodle

Course outlines, support materials are uploaded to Moodle, the university standard Learning Management System (LMS). In addition, on-line assignment submissions are made using the assignment dropbox facility provided in Moodle. All enrolled students are automatically included in Moodle for each course. To access these documents and other course resources, please visit: [www.moodle.telt.unsw.edu.au](http://www.moodle.telt.unsw.edu.au)

## How We Contact You

At times, the School or your course convenors may need to contact you about your course or your enrolment. Your course convenors will use the email function within Moodle or we will contact you on your @student.unsw.edu.au email address.

We understand that you may have an existing email account and would prefer for your UNSW emails to be redirected to your preferred account. Please see instructions on how to redirect your UNSW emails: "[How can I forward my emails to another account?](#)"

## How You Can Contact Us

We are always ready to assist you with your inquiries. To ensure your question is directed to the correct person, please use the email address below for:

- Enrolment or other admin questions regarding your program: <https://unswinsight.microsoftcrmportals.com/web-forms/>
- Course inquiries should be directed to the Course Convenor

## ACADEMIC REQUIREMENTS

Before submitting this assignment, the student is advised to review:

- the assessment requirements contained in the briefing document for the assignment;
- the various matters related to assessment in the relevant Course Outline; and
- the *Plagiarism and Academic Integrity* website at < <http://www.lc.unsw.edu.au/plagiarism/pintro.html> > to ensure they are familiar with the requirements to provide appropriate acknowledgement of source materials.

If after reviewing this material there is any doubt about assessment requirements, then in the first instance the student should consult with the Course Convenor and then if necessary with the Director – Undergraduate Studies.

While students are generally encouraged to work with other students to enhance learning, all assignments submitted for assessment must be their entire own work and duly acknowledge the use of other person's work or material. The student may be required to explain any or all parts of the assignment to the Course Convenor or other authorised persons. *Plagiarism* is using the work of others in whole or part without appropriate acknowledgement within the assignment in the required form. *Collusion* is where another person(s) assists in the preparation of a student's assignment without the consent or knowledge of the Course Convenor.

*Plagiarism* and *Collusion* are considered as Academic Misconduct and will be dealt with according to University Policy.

## STUDENT DECLARATION OF ACADEMIC INTEGRITY

I declare that:

- This assessment item is entirely my own original work, except where I have acknowledged use of source material [such as books, journal articles, other published material, the Internet, and the work of other student/s or any other person/s].
- This assessment item has not been submitted for assessment for academic credit in this, or any other course, at UNSW or elsewhere.

I understand that:

- The assessor of this assessment item may, for the purpose of assessing this item, reproduce this assessment item and provide a copy to another member of the University.
- The assessor may communicate a copy of this assessment item to a plagiarism checking service (which may then retain a copy of the assessment item on its database for the purpose of future plagiarism checking).

Student Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**Students are advised to retain a copy of this assessment for their records and submission should be made in accordance to the assessment details available on the course Moodle site.**
