Sydney Harbour, home to the Opera House and Harbour Bridge
Study at a global top 50 university

UNSW is a world-leading teaching and research powerhouse recognised by employers and organisations around the globe. We are dedicated to shaping a generation of forward-thinking, environmentally conscious, and socially engaged graduates who will positively impact the world.

You will be joining a university committed to improving lives globally through innovative education and research. Our educators teach at the highest standard, placing many of the subjects you will learn in the world’s top 20*. We are also leaders in research quality and impact in areas such as public health, climate science and human rights and are Australia’s premier university for entrepreneurship.

Located in Sydney, Australia’s business and technology capital, our students are connected with industry leaders in every sector through our career-focused education. We ensure you receive a truly hands-on learning experience from world-renowned academics in state-of-the-art facilities at our vibrant campuses. It is no wonder that our graduates are among the most employable in the world.

Scholarships, rewarding your ambition

UNSW is where ambitious and high-achieving students from around the world study and succeed. We offer scholarships for international students to empower them to realise their potential.

Our scholarships are not just based on your grades – UNSW values leadership skills, extracurricular interests and your passion to study with us. Our international scholarships and awards will help you to gain financial support, recognition of your academic excellence and they will help you stand out to future employers.

International Scientia Coursework Scholarship
Alongside academic merit, we want you to show us your passion to become a leader, how you have engaged in extracurricular interests, and share with us why UNSW is the university for you.

What you receive:
• a full scholarship on your tuition fees or,
• AUD$20,000 per annum for the minimum duration of your program.

You will also have access to networks and support including ‘fast-tracked’ applications for campus accommodation, awards and networking events and guaranteed entry into the UNSW Professional Development Program.

Australia’s Global University Award
If you have strong academic merit and are passionate about achieving your goals through your university study, you will be considered for Australia’s Global University Award.

What you receive:
• AUD$10,000 for one year

UNSW Global Academic Award
This Award is for students with strong academic records who complete the UNSW Global Foundation Studies program.

What you receive:
• AUD$10,000 for one year or,
• AUD$5,000 for one year

Australia’s Global University Award
If you have strong academic merit and are passionate about achieving your goals through your university study, you will be considered for Australia’s Global University Award.

What you receive:
• AUD$10,000 for one year

For all eligibility requirements, instructions on how to apply, or to explore all the scholarships available, visit scholarships.unsw.edu.au

“Australia was one of my dream destinations for pursuing a bachelor’s degree. A huge burden was lifted off my shoulders when I received the scholarship offer. I can focus better on my studies and my involvement in different student clubs at UNSW.”

– Md Aziz Al Mehedi, Bachelor of Science (Computer Science)
Welcome to Sydney

Sydney is one of the best student cities globally. It is ranked the 4th most desirable place to live and study in the world*. We are known as one of the most diverse and inclusive cities in the world – made up of global citizens. The differences you bring are appreciated and we look forward to welcoming you.

Sydney is more than just a pretty face. It offers countless business and career opportunities – it is Australia’s financial and economic powerhouse. There is always something to do in Sydney, and UNSW is right in the heart of it all.

Come join us.

---

Sydney on a budget

On a budget? No worries. There are lots of affordable indoor and outdoor activities to enjoy in Sydney. Pop into a free art gallery, catch a movie at the local cinema, try a coastal walk, snorkel or surf at the beach, or enjoy a budget-friendly lunch or dinner in one of our neighbouring suburbs. Feel confident to try new hobbies with lots of UNSW student social clubs to join.

Explore Sydney’s surroundings

Sydney is all about the outdoors. And it is more than just beaches. Head to one of our beautiful parks for an outdoor picnic with friends. If you want to go further afield, the Blue Mountains to the west of Sydney, the Royal National Park to the south or stunning Palm Beach in the north are great for a getaway. Do not forget our beautiful beaches minutes from the UNSW Sydney campus. Fall in love with Sydney when you study in the heart of it.

---

Take a break from the books

There is always something fun and exciting happening in Sydney – from concerts at the Opera House, to free events including Vivid light and musical festival, Chinese New Year celebrations and the multicultural Parramasala. Join an impromptu beach volleyball game on Coogee Beach or grab some friends for some photo-worthy moments in the Chinese Garden of Friendship.

Or if you are more into sport, we host world-class sporting events including cricket, soccer and rugby. For the more artistic visitors, there are theatre productions, concerts and festivals (many of them free) to keep you entertained and inspired all year round. Get among it and join the fun in Sydney.

---

Feel safe and welcome

G’day. Hello. Hi. How’s it going? Aussies are known for being friendly and you will find a smile wherever you go. Feel safe and welcome as you join our vibrant and multicultural communities all over Sydney that span social, religious and cultural collectives.

Sydney has been ranked one of safest cities in the world*. You can feel secure and safe about your choice to live here. It will feel like a home away from home, no matter where you are from. The best bit about our multicultural city? The food. Explore Chinatown, Spice Alley, Little Italy and an array of fresh food markets all within easy reach. Who knows what new treats you could discover?

---

Live in the heart of it all

UNSW has the best of Sydney right at its doorstep. The bubbling food and retail hub in the city centre is just a short trip on the light rail. For fresh ocean breezes, head to Bondi and Coogee, which are only a short bus trip from campus. Up for some sightseeing? The famous Sydney Opera House and Sydney Harbour Bridge are so close, you can visit them any time you want.

Take advantage of the public transport system. There is trains, buses, ferries and light rail options at all hours of the day. Getting to the main campus is easy with a new Light Rail network that will drop you at our doorstep. Or if you want to make the most of beautiful Sydney, jump on a bike or choose to walk. Take it all in at your own pace.

Make it your home
Join the student community living on or nearby campus. Not only will you have this easy access to Sydney city and beaches, you will be in walking distance to your lecture halls, meet people from around the world and make lifelong friends. For information on university accommodation, please see pages 20 – 21 or visit accommodation.unsw.edu.au
Get the full experience

University is about discovering the best version of yourself. At UNSW, there is so many opportunities for you to explore and grow, and with each new experience, you will discover new things about yourself and what motivates you to succeed. You will make friends in clubs and societies and enjoy fun events on and off campus.

Scan the QR code to watch a student tour of our campus and social activities.

Make your studies work for you

The innovative UNSW+ academic calendar gives you the flexibility to choose your own study path. There are three 10-week teaching terms, plus an optional five-week summer term. You can choose to schedule terms with a lighter study load or pick up an additional course to fast-track your graduation or make room for an extended internship. Plus, UNSW+ gives you the opportunity to join UNSW at one of the three intakes throughout the year (February, May or September), depending on your degree. For more information, visit student.unsw.edu.au/calendar.

Open doors with a double degree

Get more choice, more career options and more knowledge with a double degree. Despite the name, it doesn’t mean double the time or workload. Combine your passions to stand out when you graduate.

Explore the different combinations of programs in this guide or at unsw.to/degrees.

A place to make new friends

Students from all backgrounds are what makes our campus so rich and diverse. There is plenty of activities and opportunities to find your place in the community. With over 300 clubs and societies for everything from sport to religion, everyone is welcome. Arc, UNSW’s student-led organisation and home to many of our student clubs, hosts year-round parties and events (in person and online), sporting competitions and practice, volunteering opportunities, health and wellness sessions… the list goes on. Find your friends at arc.unsw.edu.au.

Discover your favourite places

UNSW’s campus has everything you could need all in one place. You will find dozens of cafes and restaurants, banks, ATMs, a post office, supermarket, medical facilities, libraries, sporting facilities and more! When it is time to hit the books, there are indoor computer labs and outdoor study areas, so you can find the right vibe to suit your study style – all with free and fast Wi-Fi.

Discover more international student life at unsw.edu.au/study/international-students.
We are known as one of the friendliest universities in Australia according to students and parents alike. We have a range of support and development services to guide you from your first day through to graduation.

Feel safe and welcome
The health and safety of our students is our number one priority. We have strict cleaning protocols in line with health authority guidelines. There is an on-campus health clinic, support for mental health, and wellbeing services designed specifically for students. We also provide 24/7 security services and have an app to help: StaySafe@UNSW.

Arriving in Sydney
With new-arrival workshops, campus tours, and even meeting you at the airport, our dedicated International Student Concierge will make you feel at home with UNSW.

Your student community is here to help
Moving to Australia is exciting but can be overwhelming. There are many students here at UNSW who have been in your position and are here to help you.

Our Peer Mentor Connect program connects you with a Student Mentor online, anytime. They will share personal experiences, answer your questions and guide you throughout your journey.

When you arrive in Australia, get help settling in by joining one of our Peer Support programs to connect to other students.

We have a team of Student Support Advisors available for personalised advice and information about university life, student visas, wellbeing support and coaching you in developing skills you need to navigate and succeed at University.

Explore more at student.unsw.edu.au/international

Study and academic language support
You can prepare yourself for success and develop academic and independent learning skills as soon as you start. Through workshops, online resources, and one-on-one appointments, you can build your academic writing, reading, notetaking, presentations, exam preparation, and more.

For more information, visit student.unsw.edu.au/skills and student.unsw.edu.au/english

If you are living with disabilities or health conditions, our Equitable Learning Service can work with you to make adjustments so that your learning will not be negatively impacted, visit student.unsw.edu.au/els

Receive the support you need

On-campus venue, The Roundhouse
Scan here to chat directly with an international student about life at UNSW.
Find your new home

Feel at home with a range of award-winning accommodation on and off campus at UNSW. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends.

Accommodation at UNSW
Living on campus is unlike any other accommodation option. Colleges have a stronger culture of socialising, while apartments have more opportunity for independence. Both are places to grow alongside fellow student, fulfilling your personal and academic potential - whichever option your choose, UNSW will become your home and community.

Colleges
Join a college and you’ll continue decades of university history. A strong community and highly social traditions are at the heart of college life, with the support of residential care and academic mentoring. Live among students from all over the world including domestic students. Accommodation options range from fully catered to private home plus breakfast and dinner. Single room-only homestays include a furnished room, use of facilities in a private home plus breakfast and dinner. Single room-only accommodation can include a furnished room, and gas and electricity expenses in the rent. You will need to arrange your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from AUD$250 – AUD$350 per student per week in a shared house or apartment.

Homestay
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in a private home plus breakfast and dinner. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will need to arrange your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from AUD$250 – AUD$350 per student per week. Search our database of local private properties at accommodation.unsw.edu.au

Private accommodation options
Rental property
Choose from numerous private rental properties located in the surrounding suburbs of UNSW. You can rent a furnished or unfurnished property. Be sure to consider additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from AUD$250 – AUD$350 per student per week in a shared house or apartment.

Apartments
Apartments are an opportunity to make your own home and household. They cater to students who want more independent living or need specific living arrangements, including families. All accommodation prices includes furniture, general cleaning, Wi-Fi, water, electricity and gas.

Private student housing assistance
UNSW’s International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation is not available when you apply. For more information, visit student.unsw.edu.au/housing-assistance

Temporary accommodation
We recommend having three to four weeks before classes begin to arrange private housing. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges or furnished apartments ranging from AUD$45 – AUD$300 per day.

Under 18s
Arrangements must be made for students under 18 years of age according to Australian Government regulations for the welfare of international students under 18. For more information, visit student.unsw.edu.au/visa18

Living on campus compared to living off campus
We have compiled indicative costs of living on campus compared to living independently factoring in everything you need to consider from food to transport, so you can make an informed choice about where you will live when you study with UNSW.

**Bachelor of Arts**

**Bachelor of Arts/Bachelor of Education (Secondary)**

Embrace a career in teaching and shape the way future generations participate in the world with a Bachelor of Education. You will develop excellent classroom skills and increase your employability upon graduation with up to 80 days in supervised teaching placements in at least two different secondary schools. The Bachelor of Education (Secondary) is always offered as a double degree, which means our graduates can pursue their passion for teaching and also benefit from further career opportunities in complementary professions.

NSW education students are required to pass the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) prior to commencing their first in-school placement. Visit unsw.edu.au for more information.

**Career opportunities**

Teaching is a stable and rewarding career choice with ongoing demand for skilled educators. Our Bachelor of Education is nationally accredited by the NSW Education Standards Authority (NESA), which allows you to teach both government and non-government secondary schools. Our graduates are widely accepted as exemplary teachers throughout Australia as well as internationally. Many of our graduates also pursue career opportunities outside secondary school teaching including working in community education, cultural institutions and tertiary education.

**Teaching specialisations**

- Business Studies
- Economics

**Teaching specialisations**

Bachelor of Social Work
Bachelor of Social Work (Honours)

Help change lives by solving problems in human relationships, promoting social change and enhancing the wellbeing of others. Our social work degree has a strong emphasis on practical skills with guidance from social workers and industry professionals. You will gain expertise in a wide variety of areas, including mental health, social work counselling, community work, sociology, psychology and working with indigenous communities.

Structure
Core (20 courses)
+ Electives & General Education (4 courses)
+ Field Placement
+ Honours Stream (8 courses)

Double degree options
• Arts
• Criminology & Criminal Justice
• Law
• Social Science

Career opportunities
Social workers operate in diverse areas, including hospitals, government departments, welfare agencies, industry/corporate, community organisations, and as independent consultants.

International Studies core
Core courses will provide a grounding in world events, specialist regional knowledge and career enhancing electives.

Overseas Study Program
The Overseas Study Program is a unique way for students to experience new cultures, build new skills and networks, and form lasting friendships.

Career opportunities
Be challenged by the dynamics of global and regional change, explore key developments in international politics and economics and evaluate why the world is changing around us. You will develop the skills you need for a career in today's global market including working in international business, government agencies (including foreign affairs), investment banks and other financial institutions, United Nations agencies, journalism and media, tourism and trade, humanitarian aid and human rights organisations and international development agencies.

Double degree options
• Arts
• Communication & Journalism
• Law
• Screen & Sound Production

Professional recognised
This degree is professionally recognised. Upon graduation you will be eligible for membership of the Australian Association of Social Workers.

International Studies
• Regional change, exploring key developments in international politics and economics and evaluate why the world is changing around us. You will develop the skills you need for a career in today's global market including working in international business, government agencies (including foreign affairs), investment banks and other financial institutions, United Nations agencies, journalism and media, tourism and trade, humanitarian aid and human rights organisations and international development agencies.

Teaching specialisations
• Mathematics

Critical thinking skills
You will also learn through experience by undertaking a year long Overseas Study Program in your third year.

Majors
• International Studies
• Language Studies
• International Business (optional)

Minors
Your choice of minor:
• Asian Studies
• Chinese Studies
• Environmental Humanities
• European Studies
• French Studies
• German Studies
• Global Development
• International Business
• Japanese Studies
• Korean Studies
• Politics and International Relations
• Sociology and Anthropology
• Spanish and Latin American Studies

Language studies
Your choice of language stream:
• Chinese
• Italian
• French
• German
• Greek
• Japanese
• Korean
• Spanish

International Studies core
Core courses will provide a grounding in world events, specialist regional knowledge and career enhancing electives.

Overseas Study Program
The Overseas Study Program is a unique way for students to experience new cultures, build new skills and networks, and form lasting friendships.

Bachelor of Politics, Philosophy and Economics

Program code 3478
CRICOS code 08397G
Duration 3 years (+ 1 year honours option)
Entry February and September
Estimated first year tuition AUD$41,608
Units of credit (per year/total) 48/144
Assumed knowledge Mathemetics

Explore current global issues in this exciting degree which draws together perspectives of three critical yet varied disciplines: UNSW is the only university in Sydney and one of a handful in Australia to offer this degree, which prepares you to make social change on a global scale. You will be taught by leading experts from UNSW Arts, Design & Architecture and UNSW Business School and make valuable local, regional and global contacts through hands-on learning opportunities.

Majors
- Economics
- Politics
- International Relations
- Philosophy

Career opportunities
See yourself working in industries worldwide including government agencies (including foreign affairs), political parties and lobby groups, public services, NGOs and social activist organisations. The Bachelor of Politics, Philosophy and Economics is a world-renowned degree that carries considerable recognition among various organisations and potential employers. Graduates become globally recognised leaders and commentators in all aspects of public life.

Double degree options
- Law
- Work Experience Placement
- Specialist Core (10 courses)
- Advanced Science (Honours)
- Internship/Portfolio
- Specialist Electives (6 courses)
- Integrated Learning Experience
- Free Electives (2 courses)

Bachelor of Social Science

Program code 3521
CRICOS code 08997B
Duration 3 years (+ 1 year honours option)
Entry February, May and September
Estimated first year tuition AUD$11,188
Units of credit (per year/total) 48/144
Assumed knowledge None

Gain the skills you need to affect policy, drive social change and make a real difference in the world. As a social scientist, you will learn and develop the knowledge and skills to analyse, challenge and gain insight into complex social, environmental and political problems. As part of your degree you will apply your knowledge of social theory and research to a practical Work Integrated Learning experience and discover firsthand what it is like working in the field of social science.

Major (10 courses)
- Work Experience Placement
- Electives & General Education (5 courses)

Career opportunities
Social science skills can be applied in a range of settings - government, non-government, not-for-profit, social enterprise and collectives. Our graduates are highly successful in gaining employment in diverse roles and areas such as community development, health, the environment, research and policy analysis, political advising, organisational management, marketing and market research, corporate affairs management and private consulting.

Double degree options
- Advanced Science (Honours)
- Law
- Science
- Social Work (Honours)

Media

Bachelor of Media

Communication and Journalism

Program code 3454

“Before starting university I was looking at future careers and the world of media seemed the right choice for me. The Bachelor of Media in Communication and Journalism allowed me to study what I am passionate about - engaging, observing and writing about events and people’s experiences. The internship I completed during my degree gave me the confidence and connections I needed to secure my first job in the industry.”

- Claire Keenan, Bachelor of Media (Communication and Journalism)
Creative Arts
Bachelor of Fine Arts

Program code
4921
CRICOS code
097696E
Duration 3 years
(+ 1 year Honours option)
Entry February, May and September
Estimated first year tuition AUD54,165
Units of credit (per year/total) 48/144
Assumed knowledge None

Develop your creative skills and knowledge with the Bachelor of Fine Arts. Taught by our internationally recognised staff of artists and scholars, you will develop your independent artistic practice in a rigorous and supportive community of artists and thinkers. Two distinct majors are available allowing you to focus on Studio Practice or Art Theory.

Double degree options
• Arts
• Advanced Science (Honours)
• Commerce
• Education (Secondary)
• Law
• Science

Studio Practice Major
Structure
Core Studio (6 courses)
+ Studio Specialisation (6 courses)
+ History & Theory (4 courses)
+ Electives & General Education (8 courses)

Studio specialisations
Choose two of the following disciplines to specialise in:
• Drawing
• Painting
• Printmaking
• Photography
• Sculpture
• Moving Image

Career opportunities
Gain specialist skills to work in contemporary art practice including commercial gallery representation, public funding and commissioned work, art direction and advertising, arts and cultural administration and policymaking, arts education and training, arts writing and publishing, commercial and news photography, curating and artistic program management, exhibition planning, design and installation, entertainment, digital media and technology industries, film and television production, site activation and public art.

Art Theory Major
Structure
Core (6 courses)
+ Art Theory Major (10 courses)
+ Electives & General Education (8 courses)

Study themes
• Art and Embodiment
• Art and Institutions
• Art, Science, and Technology
• Local and Global Art

Career opportunities
You will have the flexibility to work in a broad range of roles across the creative industries and beyond including arts and cultural management, policymaking and administration, galleries, libraries, archives and museums, creative direction, planning and production, art and design criticism, communications and journalism, cultural and creative research and scholarship, multi-platform publishing and distribution, curatorship, festival and event management, design thinking and management, public programming and engagement, entrepreneurship, strategy, creative social enterprise and startups.

Bachelor of Media Arts

Program code
4013
CRICOS code
097694G
Duration 3 years
(+ 1 year Honours option)
Entry February, May and September
Estimated first year tuition AUD38,525
Units of credit (per year/total) 48/144
Assumed knowledge None

This ground breaking degree responds to an industry demand for creative practitioners who can work across a range of emerging media technologies. You will be taught by accomplished, active media artists, producers and theorists, creating your work in some of the world’s best labs and studios.

Studio specialisations
Choose two of the following disciplines to specialise in:
• Animation
• Moving Image
• Visual Effects
• 3D Visualisation
• Sound

Career opportunities
Our graduates are equipped with the creative and practical skills to pursue a career in a range of media industries including animation design and production, online and mobile media, user experience and related environments, game development and production, digital publishing, advertising and communications, digital strategy, film and television production, multi-platform media development and production, sound design, composition and production, scientific imaging and visualisation, media strategy and planning, entrepreneurship, innovation and media startups.

Double degree options
• Computer Science
• Education (Secondary)
Bachelor of Music

Develop your talents in a diverse range of musical genres, as a solo performer, teacher, composer or electronic artist. Ensure your future in the changing world of music by exploring music in interdisciplinary contexts including ethnomusicology, film, production, teaching, gaming and immersive media. Experience a supportive and inspiring environment in which your talent and passion for music will reach their full potential including our state-of-the-art Esme Timbery Creative Practice Lab which has been purpose built to provide a creative and contemporary space in which to hone your talents.

Music streams
Choose one of the following streams to specialise in:
- Music Creative Practice
- Sonic Arts
- Music Pedagogy

Admission
All applicants must complete an audition to gain entry to the Bachelor of Music. Audition information and the online application form can be found on the School of the Arts and Media website at www.usq.edu/course/FdM209.

Double degree options
- Advanced Science (Honours)
- Arts
- Commerce
- Education (Secondary)
- Engineering (Honours)
- Law
- Media (Communication & Journalism)
- Media (PR & Advertising)
- Media (Screen & Sound Production)
- Science

Structure
Music Core including:
- Music Specialist Stream (2 courses)
- Electives & General Education (8 courses)

Degree in Music
Bachelor of Design

Design is a vast and fluid field leading to countless career paths. As a designer, you can influence the way people think about the world and its future. Our ‘thinking through making’ approach helps you build a meaningful career with impact, whatever your interests. Unlike other design degrees, you will develop unique and in-demand skills by combining your choice of two studio specialisations.

Structure
Core Studio (6 courses) + Studio Specialisation (8 courses) + History & Theory (4 courses) + Professional Practice/Experience (2 courses) + Electives & General Education (4 courses)

Double degree options
- Commerce
- Education (Secondary)
- Media (PR & Advertising)

Bachelor of Industrial Design

This degree will equip you to influence the way we live by designing what we use every day. You will learn about design process, technology and materials, visual communication and more, taking the technical aspects of design in tandem with user experience.

Structure
Core (10 courses) + Design Studio (8 courses) + Interdisciplinary Learning (2 courses, with students from other disciplines) + Electives & General Education (6 courses)

Career opportunities
Prepare for an exciting industrial design career, including working in product design for multi-disciplinary design teams such as architectural and engineering consultancies, or within the manufacturing industry for consumer and public access products such as electrical, transport, scientific, medical, retail, furniture or telecommunications. You can also pursue a career in brand marketing or designing multimedia content, graphics, packaging and exhibitions or other services and strategies.

Study areas
- 3D Digital Modelling
- Commerce and Marketing
- Computer Aided Design (CAD)
- Design Studio
- Materials and Manufacturing
- Science and Engineering

Professional recognition
Bachelor of Industrial Design graduates are eligible for membership of the Design Institute of Australia (DIA).

Hands-on experience in the Wood Workshop, Paddington Campus
The Bachelor of Computational Design gives you an understanding of digital technologies and their use in the built environment. You will learn how to design responsive, interactive spaces and develop skills in computer design, 3D modeling, robotic and digital fabrication. You will be able to apply these skills in industrial, urban and architectural design contexts.

Career opportunities
You can expect to choose to work within a range of industries spanning urban planning, architecture, engineering, manufacturing and construction, and also animation and gaming environments. The professions you can choose from include design specialist, digital optimization consultant, software solutions development, digital production management, and data analysis.

Study areas
- Animation
- Building Modelling
- Computer Aided Design (CAD)
- Design Studio
- Information Technology in Design
- Multimedia
- Rendering

Bachelor of Architectural Studies

Learn to create socially and environmentally valuable architecture from award-winning architects and academics in an inclusive and collaborative faculty. Develop design skills and technical knowledge to launch a purposeful career and influence the future of architecture. This program provides you with the tools to improve the world – from every angle and for generations to come.

Career opportunities
This degree is the first step to becoming an architect. Following this, you can complete the Master of Architecture and continue the pathway towards becoming a registered architect. Career opportunities include professional architect or architectural technologist in government, private or commercial practice and multidisciplinary design, architectural consulting, building science and architectural or environmental consultancy.

Study areas
- Architecture Design Studio
- Climate and Environmental Design
- Communications
- Computer Modelling and Building Information Modelling
- Drawing and Model Making
- History of Architecture
- Materials and Technologies
- Structures and Construction

UNSW-Tongji Double Degree in Architecture

Progress your architectural career at the global level. This unique double degree, taught in English at both UNSW and Shanghai’s Tongji University, prepares you for professional practice in both Australia and China. On completion you will be eligible to apply for postgraduate studies in Architecture at either university.

Career opportunities
This degree prepares you for work in both China and Australia. Upon completion of an accredited Master’s degree, you will be ready to pursue careers as a professional architect in government, private or commercial practice and multidisciplinary design, architectural consulting, building science and architectural or environmental consultancy.

Study areas
- Architecture Design Studio
- Climate and Environmental Design
- Communications
- Computer Modelling and BIM
- Drawing and Model Making
- History of Architecture
- Materials and Technologies
- Structures and Construction

Bachelor of Interior Architecture (Honours)

From the scale of rooms to cities, this degree trains you to develop creative solutions to aesthetic challenges in the built environment. You will learn about interior environments including all aspects of their structural, spatial, social and material assembly, then discover how to put your skills and knowledge into professional practice.

Career opportunities
This degree will prepare you for a rewarding career in interior architecture in architecture and design firms, private consultancy in residential, retail, workplace, commercial or hospitality spaces, corporate interior design specialising in multi-storey residential, retail, hospitality, medical, hotel or exhibition design. Many of our graduates also manage their own interior architecture or design practices.

Study areas
- Communications
- Computer Modelling
- Design Studio
- History and Theory
- Materials
- Professional Practice
- Technical Drawing and Model Making
- Technology

Minors (Optional)
- Computational Design
- Construction Management
- Industrial Design
- Landscape Architecture

Professional recognition
The Bachelor of Interior Architecture is recognised by the Interior Designers’/Interior Architecture Educators’ Association (IDEA). Graduates are eligible for membership to the International Federation of Interior Architects/ Designers (IFI) and Design Institute of Australia (DIA).
Bachelor of Landscape Architecture (Honours)

Program code: 3381
CRICOS code: 088363D
Duration: 4 years
Entry: February
Estimated first year tuition: AUD$42,790

Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure
Core (16 courses)
- Landscape Studio (18 courses)
- Interdisciplinary Learning (2 courses, with students from other disciplines)
- 90 days Work Experience
- Electives & General Education (5 courses)

Study areas
- Communication
- Design Studio
- Ecological Processes
- Environmental Technology and Practice
- History and Theory
- Landscape Engineering Principles
- Plants and Design

Professional accreditation
The Bachelor of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

Career opportunities
This degree will give you the knowledge and practical skills to create sustainable and beautiful environments in urban and rural settings. Our graduates can be found working across the globe in landscape architecture in private practice, government, and commercial firms, landscape planning and management, designing in construction, or in non-profit projects. We encourage our graduates to develop their specialisation.

Assumed knowledge

Bachelor of Construction Management and Property

Program code: 3332
CRICOS code: 088876F
Duration: 3 years
Entry: February and September
Estimated first year tuition: AUD$42,815

Structure
Core (20 courses)
- Interdisciplinary Learning (5 courses, with students from other disciplines)
- General Education (2 courses)

Study areas
- Construction Technology
- Economics and Law
- Facility Management
- Management
- Property Development
- Quantity Surveying

Professional accreditation
The Bachelor of Construction Management and Property is accredited by The Australian Institute of Quantity Surveyors (AIGS) and The Royal Institution of Chartered Surveyors (RICS). Students completing the additional one-year Honours program will also receive accreditation from The Australian Institute of Building (AIB).

“…I wanted to study at UNSW because of its positive learning environment, reputation within the construction industry, and motivated educators who bring their unique experiences in the classroom to support our learning. While studying I attained a cadetship in the construction industry. It was a real light bulb moment when I was able to bring classroom concepts to work, and use them to make sense of real-life situations.”

Hamza Arshi,
Bachelor of Construction Management and Property
UNSW Business School

Drive purposeful change to shape a better future. Build adaptive thinking to thrive in this fast-changing world with a career-focused education for professional success.

Gain expertise with programs that are intellectually stimulating and challenging while also allowing you to gain professional experience and skills. With internships and global business, consultancy and social entrepreneurship projects built into your degree, you will graduate as one of Australia’s most employable graduates.

Join an active, diverse and welcoming cohort that will become part of your social and professional network. Immerse yourself in UNSW’s vibrant, unique student life with faculty and campus-wide events and activities throughout the year.

Learn from experts at the top of their field to launch your career with ideas that push boundaries. We are ranked #1 in Australia for Accounting & Finance, Actuarial Studies and Information Systems research and are the top university in Sydney for Business & Management and Economics.*

*QS Subject Rankings, 2022; Association for Information Systems Research Rankings 2020; University of Nebraska at Lincoln Global Research Rankings of Actuarial Science and Risk Management & Insurance, 2019.

Join the club
Life at UNSW Business School is about more than lectures and tutorials. Our business clubs and societies connect you with people who share your interests and passions. UNSW Business Society (BSOC) is the largest society at UNSW and hosts over 75 events a year, including first year camp and mentoring to help you settle in, progressing to career fairs with industry and a range of upskilling opportunities with your peers, designed to help you explore and design your future career path. With over 25 clubs and societies affiliated with the Business School, you will be able to join clubs aligned to your career aspirations from Economics Society to the Accounting Society, or the Marketing Analytics Society – and many more!

Career Accelerator
Our distinctive degrees bring the boardroom to the classroom with a range of hands-on professional learning opportunities, exclusive to UNSW Business School. Career Accelerator career development and experiences ensure you graduate career-ready, prepared to hit the ground running in the workplace.

Career Accelerator opportunities include:

Internships
Get real-world business experience while earning credit towards your studies with an internship. Career Accelerator unlocks exclusive experiences with our industry partners, while also giving you the option to find your own internship or take on a practical social entrepreneurship or strategic consulting project.

Professional Networking
Get personalised advice from experienced industry professionals as part of our ten-week, structured Career Mentoring Program with industry leaders. Hear challenges, trends and opportunities at our Business Insights events where leading professionals share their thought leadership with our students. Grow your network of peers by participating in career development workshops, attending career showcases, or joining a Community Wednesday event. Our student clubs and societies hold regular industry events, upskilling workshops, lecture review sessions and social and professional networking events.

Global Opportunities
Experience business around the world with our range of global opportunities, including short overseas electives, practicums and international exchanges. Through our Global Business Practicum, you can do a practical consulting project in thriving international business hubs including Mumbai, Bangkok, Shanghai or Tel Aviv, in person, or virtually as needed.

Make big changes in the world with a career in Business. Understand business essentials from day one with UNSW’s Bachelor of Commerce, an innovative three-year degree that has been co-designed with industry. With our unique integrated first year combining knowledge and professional skills, guarantee industry learning opportunities and the award-winning MyBusiness online portfolio, you will improve your employability and graduate ready to navigate tomorrow’s global business landscape.

Career opportunities
You will enjoy countless professional opportunities as a commerce graduate. You will be qualified to pursue a range of careers across local and international, private sector government and not-for-profit organisations. For example, work as an accountant, auditor, commercial manager, consultant, customer experience specialist, cyber security analyst, data analyst, digital innovation specialist, economist, financial advisor, human resource consultant, ICT business/systems analyst, international business development manager, investment banker, insights and reporting manager, marketing/brand manager, property business analyst, recruitment officer, strategist, tax advisor, venture capitalist.

Professional accreditation
You will be eligible for membership to various professional organisations depending on the major(s) that you complete.

Double degree options
• Bachelor of Arts
  • Advanced (Mathematics) (Honours)
  • Adv. Economics (Honours)
  • Arts
  • Advanced (Management)
  • Computer Science
  • Design
  • Economics
  • Education (Secondary)
  • Engineering (Honours)
  • Fine Arts
  • Information Systems
  • Law
  • Materials Science and Engineering (Honours)
  • Media (PR & Advertising)
  • Music
  • Science

Structure
First Year Business Core Courses (Integrated First Year) studied on campus or fully online

+ One Business School Major
+ Second Business School Major
+ Minor or Electives

Guaranteed Work Integrated Learning (WIL - Professional Development)

General Education

+ BCom suite including Graduate Portfolio

Business School Majors
Accounting
  – Accounting is a broad and dynamic discipline where you will record and analyse information to effectively advise organisations, business and individuals in strategic decision making. This major is preferably accredited by CPA Australia and the Chartered Accountants Australia and New Zealand (CAANZ), the Chartered Institute of Management Accountants (CIMA) and the Institute of Public Accountants (IPA).

Behavioural Economics
  – Behavioural economics is essential to understand, model and predict choices in complex settings. Behavioural economics incorporates psychology into the analysis of decision making behind economic outcomes. Learn how to think in terms of insights into individual choices, such as what influences a consumer to purchase one product instead of another, or more broadly in business and policy scenarios.

Business Analytics
  – Business Analytics produces and communicates actionable findings and insights from organisational data using descriptive, predictive and prescriptive analytics. This major has an emphasis on the ethical and legal issues of data governance, along with statistical modelling, programming and database management.

Business Economics
  – Become an agent for change by improving the behaviour of individuals, firms and governments and the effect of their decisions. Collecting and analysing data, economists make recommendations to federal and state government departments, international organisations and the private sector.

Finance
  – Finance is a high-stakes, fast-moving industry requiring decisive strategy in the face of uncertainly. Learn how businesses raise capital, how people distribute their savings among different investments and how organisations make financial policies and decisions. This major can be used towards the Financial Adviser Standards and Ethics Authority (FASEA) accreditation on course selection. It is also aligned with the Chartered Financial Analysts (CFA) Institute University Affirmation Program.

Financial Technology
  – FinTech creates, enhances and disrupts financial services through methods including peer-to-peer lending and no-deal advice to decreased financial risk such as Bitcoin. FinTech identifies industry needs and sits at the cutting edge of growth.

Human Resource Management
  – Develop strategic thinking in employee engagement, employment relations, organisational change, staff learning and development, health and safety, organisational behaviour and performance management. This major is accredited by the Australian Human Resources Institute.

Information Systems
  – Information Systems help businesses to thrive in the digital age. You will learn to develop, implement and manage information technology solutions including databases, enterprise systems, business intelligence systems, social media, networks and infrastructure to support business operations.

Innovation, Strategy & Entrepreneurship
  – Innovation impacts and transforms business and society. It drives productivity, competitive advantage, differentiation, growth, profitability and sustainability. This major will equip you with strategy, management and design thinking skills highly valued by start-ups and corporate organisations. You will be provided with the perfect launchpad for your own entrepreneurial endeavours.

International Business
  – Today’s global business world is highly competitive, with companies operating in markets across cultures and countries. Master the art of managing multinational companies as you craft strategies that consider the economic, social, legal, political and cultural contexts of global business.

Marketing
  – Grow an organisation by aligning people’s needs and wants to your competitive advantage. Marketers work in all stages of a product’s life cycle including innovation and new product development. This includes campaign planning and execution through to digital and marketing analytics to inform product choices.

Professional accreditation
Upon meeting the academic standard requirements, you will gain exemptions towards accreditation with the Actuaries Institute (Australia). Professional accreditation through the Actuaries Institute provides mutual recognition at major international actuarial bodies such as the Institute and Faculty of Actuaries (UK) and the Society of Actuaries (US).

Bachelor of Commerce (International)

The Bachelor of Commerce (International) will provide you with cross-cultural perspectives and the business acumen for a career in the global economy. Building on a solid foundation in business, you will complete a Work Integrated Learning placement as well as complete one-a-year overseas exchange. Your exchange will be supported by a AUD$55,000 scholarship for a full immersin in the business practices of a foreign economy, providing a once in a lifetime opportunity to open your eyes to new cultures and experiences.

You can also study a new language and be mentored by UNSW Business School’s most accomplished graduates, our Alumni Leaders.

Career opportunities
This degree provides a solid foundation in business and prepares you for the challenges of working in global business settings. You could work in organisations with regional and global operations, as well as government and non-government agencies operating internationally in fields such as consulting, foreign affairs, media, finance, accounting and systems management.

Majors
Business discipline streams: Bachelor of Commerce

International discipline streams: Bachelor of Commerce

+ Advanced
+ Economics (Honours)

You could work in organisations with regional and global operations, as well as government and non-government agencies operating internationally in fields such as consulting, foreign affairs, media, finance, accounting and systems management.

Majors
• Bachelor of Actuarial Studies
  • Bachelor of Risk Management and Analytics
  • Quantitative Data Science
  • Or select an Accounting, Business Analytics, Finance or Information Systems major from the Bachelor of Commerce
  • Students studying to complete a Bachelor of Commerce major other than those listed above may be required to complete additional units of credit to complete program requirements.

Double degree options
• Advanced
+ Economics (Honours)
+ Information Systems
+ Computer Science
+ Science

Professional accreditation
Upon meeting the academic standard requirements, you will gain exemptions towards accreditation with the Actuaries Institute (Australia). Professional accreditation through the Actuaries Institute provides mutual recognition at major international actuarial bodies such as the Institute and Faculty of Actuaries (UK) and the Society of Actuaries (US).
Bachelor of Economics

Program code: ECON 3543
CRICOS code: 001920G
Duration: 3 years (+ 1 year Honours option)
Entry: February, May, and September
Estimated first year tuition: AUD$46,805
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics

Economics is an influential social science which explores how society can best use finite resources - like time, money, and effort. Economics is not just about money, but about improving wellbeing. Using powerful concepts, logic, data, and a rigorous mathematical and statistical toolkit, economists study how people respond to various incentives when they decide how to allocate scarce resources. The outcomes of these studies impact life-changing policies, which means the skills and insights you will develop in this degree are prized by decision-makers in business and government worldwide.

Career opportunities
You will be highly sought after by policymakers in government at all levels, private sector employers in all industries, not-for-profits and international organisations to work as an analyst, researcher, forecaster, journalist, advisor, and many other roles. You can open up more career paths by completing the Bachelor of Economics (Honours) degree or combining economics with studies in commerce, arts, law, or science.

Majors
- Data Analytics and Econometrics
- Economic Policy and Society
- Macroeconomics and Financial Markets

You can study an optional second major from the Business School majors on page 50, or continue to study a combination of electives.

Double degree options
- Actuarial Studies
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Education (Secondary)
- Law
- Science

Professional accreditation
You will be eligible for membership to various professional organisations according to the major you complete.

Structure
Economics Core Courses
Introductory Business Courses
Economics major or Economics electives
Optional second major, minors or free electives
General Education

Bachelor of Information Systems

Program code: 3979
CRICOS code: 068782C
Duration: 3 years
Entry: February, May, and September
Estimated first year tuition: AUD$46,915
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics

Data and technology drive almost every aspect of organisations today. From goals to strategies to functions - information systems are crucial to business operations. The Bachelor of Information Systems will develop specialist skills, knowledge and experience in information systems. This degree gives you the foundation to develop and implement IT solutions for a range of businesses.

Career opportunities
You will be able to work as a business analyst, business intelligence systems developer, cyber security specialist, e-commerce specialist, IS security developer, IS development specialist, IT/IT architect, IS/IT consultant, IT infrastructure developer, network developer, network and systems analyst, management consultant, technical manager and user experience designer.

Elective streams
- Information Systems in Data Analytics
- Information Systems in Programming
- Information Systems in Organisations

Double degree options
- Commerce
- Actuarial Studies

Professional accreditation
This degree is accredited by the Australian Computer Society (ACS) for provisional membership at the Professional Level.

Structure
Introductory Business Courses
Info Sys Core and Elective Courses
Guaranteed Work Integrated Learning (WIL - Professional Development)
Final Year Capstone Course
Elective Courses
General Education
Empower yourself at a globally renowned engineering faculty, where passion, diverse perspectives and a hands-on approach create solutions for a better world.

Set yourself apart studying at the #1 engineering faculty in Australia* with the largest range of disciplines, including emerging areas like quantum and renewable energy engineering.

*QS Rankings by Subject 2022

Improve lives with exciting, real-world projects in our unique ChallENG program. Connect with students, academics and companies to gain the technical and professional skills needed to thrive.

Enrich your studies through our diverse and inclusive student community. Our clubs and societies brings students together for professional development programs and networking opportunities.

Career outcomes

Acoustic Engineer
Chief Project Manager
Drill and Blast Engineer
Energy System Engineer
Field Geotechnical Engineer
Food Process Engineers
Head Network and Security Engineer
Lead Systems Engineer
Mechanical Project Engineer
Medical Devices Engineer
Principal Avionics Engineer
Quantum Control Specialist
Renewable Energy Project Engineer
Senior Project Engineer
Senior Site Engineer
IT Project Manager
Transport Engineering Consultant
Underground or Open Pit Mining Engineer
Water and Waste Engineer

---

Collaborative student-led project in electrical engineering lab
Real-world engineering
From day one, you will develop your abilities as an engineer, in the classroom and through hands-on practical experience. Build valuable industry networks and contacts with our unparalleled industry connections while you study. Learn from industry leaders, create and design projects in our Makerspaces and participate in student projects. You can attend industry recruitment events and go on international exchange, giving you valuable real-world experience to prepare you for a successful career.

Meeting global challenges
Make a positive difference in the world when you combine your passion and creativity to meet global challenges. You will have access to the world’s best facilities and research to help you reframe global problems and engineer innovative solutions for individuals and communities.

The ChallENG Program
The ChallENG Program connects you with academics and industry partners as part of exciting, real-world, project-based learning initiatives. ChallENG prepares you for your future career through practical learning experiences that are valued in the real-world. You will expand your professional expertise through a multidisciplinary learning approach that develops your technical and design skills. Many of the ChallENG projects earn academic credit (for-credit-elective) or are eligible for Industrial Training.
For more information, visit challeng.unsw.edu.au

Flexible First Year
Explore the different fields of engineering before deciding on the major that’s right for you in UNSW’s Flexible First Year. Your first year of engineering study includes a core of common subjects and a wide choice of electives, so you can find the area that sparks your passion.

Humanitarian Engineering
Study engineering to make an impact. Work on engineering solutions that improve the lives and livelihoods of disadvantaged communities. Get experience in humanitarian engineering during your degree by completing an optional minor in your engineering or food science degree. Take your contribution to humanitarian engineering to the next level with an international experience or a humanitarian engineering project in the ChallENG Program.
For more information, visit www.to/he

Industrial training
Industrial training is a major component of your engineering education. It gives you real experience in an engineering environment and shows how your learning is applied in practice. For industrial training, you will undertake 60 days of work experience in your chosen field of study.
For more information, visit www.to/industrial-training

Student societies
Make friends with other students and expand your professional network: join our flagship Engineering Society (EngSoc) and Women in Engineering Society (WIESoc). Our full range of societies offer professional development programs and social activities throughout the year.
Bachelor of Science (Computer Science)

Program code 3778
CRICOS code 015784F
Duration 3 years
Entry February, May and September
Estimated first year tuition A$49,160
Units of credit (per year/total) 48/144
Assumed knowledge
Mathematics

Structure
16 Computer Science Courses
+ 6 Electives
+ 2 General Education Electives
+ Possible Minor in Accounting, Finance, Information Systems, Marketing, Maths, Psychology

Career opportunities
You can work in a variety of industries including bioinformatics, pharmaceutical, agricultural, banking and finance, big data, consulting, development, digital services, education, health, information technology, logistics, research, software engineering and computer security.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

Aerospace Engineering (Honours)

Assumed knowledge
Mathematics and Chemistry

Master the foundations of bioinformatics, a field at the intersection of computing and life sciences. You will learn how to develop technologies for storing, extracting, organising and interpreting genetic information.

Study areas
+ Biology
+ Computing
+ Data Management
+ DNA Data Analysis
+ Genomics and Genetics
+ Machine Learning
+ Mathematics
+ Web App Programming

Career opportunities
You can work in a variety of industries including bioinformatics, pharmaceutical, agricultural, banking and finance, big data, consulting, development, digital services, education, health, information technology, logistics, research, software engineering and computer security.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Australian Computer Society.

Bioinformatics Engineering (Honours)

Career opportunities
You can work in a variety of industries including bioinformatics, pharmaceutical, agricultural, banking and finance, big data, consulting, development, digital services, education, health, information technology, logistics, research, software engineering and computer security.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Institute of Chemical Engineers.

Chemical Engineering (Honours)

Career opportunities
You can pursue a career as a chemical and materials engineer, chemical, food and wine scientist, production manager (manufacturing), production or plant engineer, product testers, research and development manager.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Institute of Chemical Engineers.

Civil Engineering (Honours)

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Engineering Science
+ Law
+ Music
+ Science
+ Surveying

This degree is accredited by the Australian Computer Society.

Chemical Product Engineering (Honours)

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Institute of Chemical Engineers.

Engineering / Bachelor of Commerce

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Institute of Chemical Engineers.

Felice Tan,
Bachelor of Engineering (Honours) Electrical Engineering / Bachelor of Commerce

I always had a keen interest in studying Engineering but was overwhelmed by how vast the field is. The Flexible First Year Program allowed me to have a little taste of the different streams I was interested in without extending my degree by an extra year. One of my most exciting experiences so far has been taking part in the design and manufacturing process of a light installation that was displayed at Vivid Sydney. It was amazing to see how the theory we learned could be applied to build something tangible!

Felice Tan,
Bachelor of Engineering (Honours) Electrical Engineering / Bachelor of Commerce

Combining mathematics, natural sciences and computing, this degree is the foundation for specialised pathways into different engineering disciplines. You will learn through engineering design and research projects as well as professional practice, management and research for your thesis. There is flexibility in the first year if you have not decided on your desired engineering major.

Flexible first year stream
The Bachelor of Engineering (Honours) program includes a Flexible First Year stream if you want to study engineering but are not ready to choose what area of engineering you can wait until the end of your first year.

The first year has common core courses, plus a choice of electives so you can study different areas that appeal to you without making a decision until the end of your first year. This is ideal if you want to be an engineer but aren’t sure which direction to take.

This degree is accredited by Engineers Australia.

In this degree you will learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Study areas
+ Industrial Chemistry
+ Chemical Reaction Engineering
+ Organic and Inorganic Chemistry
+ Advanced Thermodynamics and Separation
+ Polymer Science

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Engineering Science
+ Law
+ Music
+ Science
+ Surveying

This degree is accredited by the Australian Computer Society.

This broad degree covers the critical steps in a product’s creation, from the pure chemistry to the economics. You will discover how to design and develop chemical processes and equipment, optimise and control industrial operations, work with nanoparticles, determine environmental effects and pollution control.

Study areas
+ Chemical Engineering
+ Chemical Reaction Engineering
+ Advanced Thermodynamics and Separation
+ Process Dynamics and Control
+ Process Design
+ Polymers

Career opportunities
You can work in a variety of fields including food and drink development, environmental management, mining and minerals, oil and gas, paper and packaging, pharmaceuticals, water treatment and recycling.

Double degree options
+ Advanced Mathematics (Honours)
+ Advanced Science (Honours)
+ Arts
+ Commerce
+ Computer Science
+ Data Science
+ Economics
+ Engineering (Honours)
+ Law
+ Media Arts
+ Science

This degree is accredited by the Australian Computer Society.

This degree is accredited by Engineers Australia.
Mechanical Engineering (Honours)

Mechanical engineers have the ability to conceptualise and actualise almost anything that moves, from the smallest biomedical sensor to giant wind turbines. Mechanical engineers apply scientific and engineering knowledge to design machines that solve society’s biggest problems.

Study areas
- Computer Structures
- Computer Aided Design (CAD)
- Fluid Dynamics
- Heat Transfer
- Materials Science
- Noise and Vibration
- Power Generation
- Thermodynamics

Career opportunities
There is a high demand for mechanical engineering graduates in a wide range of industries. You can work in areas such as power generation, transport, construction, mining, manufacturing, insurance and appliances.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechanical and Manufacturing Engineering (Honours)

Bridge the gap between innovative designs and their execution with mechanical and manufacturing engineering. You will learn how to design and manage the construction, operation and maintenance of equipment used in many industries. As a mechanical engineer you will work across all aspects of daily life, from driving to technology to housing.

Study areas
- Computer Aided Manufacturing (CAM)
- Computer Aided Design (CAD)
- Fluid Dynamics
- Materials Science
- Mechanics of Solids
- Process Technology and Automation
- Process Modelling and Simulation
- Reliability and Maintenance Engineering
- Thermodynamics

Career opportunities
You can work in industries such as automotive, aerospace, defence, mining, cargo handling and agriculture. You can also work in designing and manufacturing consumer devices and management consultancy.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechatronic Engineering (Honours)

Gain a comprehensive understanding of how complex mining systems work together and pursue a career that meets the global need for minerals. Build a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

Study areas
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Rock Breakage

Career opportunities
You can work in areas such as drilling, project management, sustainability, quarry and tunneling, community relations and management consulting in mining companies, investment firms, finance, banking and government organisations.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Electrical Engineering (Honours)

This degree focuses on the design, development, manufacture and management of complex hardware and software systems. Taught by industry leaders, courses include telecommunications, photonics and microelectronics.

Study areas
- Energy Systems
- Microsystems
- Photonics
- Systems and Control
- Signal Processing
- Wireless and Data Networks

Career opportunities
Electrical Engineering offers a range of fascinating and rewarding career paths in fields such as electronics, quantum computing, networking, power distribution and robotics and control.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

This degree is accredited by the Australian Computer Society.
Photovoltaics and Solar Energy (Honours)

Immerse yourself in the manufacture and use of solar cells that capture and convert sunlight into electricity. Study technology development, manufacturing, quality control, reliability, policy and system design. This degree prepares you for varied work in an industry that is creating a more sustainable future.

Career opportunities
You can work in fields including manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formation, programs for developing countries, solar cells and system design.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Engineering Science
• Law
• Music
• Science

Petroleum Engineering (Honours)

Specialise in solving problems and designing technologies for use deep underground. In this degree you will learn to apply practical science to the challenges and problems associated with oil and gas exploration, drilling and production. You will engage in the socio-political context of the industry throughout your study.

Career opportunities
You can gain employment in the oil and gas industry, oil service companies, reservoir development, computer-aided modelling, environmental organisations as well as banking and finance.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Engineering Science
• Law
• Music
• Science

Renewable Energy Engineering (Honours)

Explore the best ways to use renewable energy technologies in this innovative degree. From solar thermal systems and photovoltaics to winds and biomass, draw on UNSW’s extensive resources to prepare for work in this growing industry.

Career opportunities
You can work in a wide range of fields and companies in designing, installing and operating renewable energy generating systems such as wind, solar, biomass or hydro systems. Other career paths include the construction of energy efficient technology or buildings, policy, programs for developing countries and research organisations.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Engineering Science
• Law
• Music
• Science

Surveysing (Honours)

Enjoy working indoors and outdoors in surveying that supports construction, infrastructure engineering and mapping and monitoring landscapes. In this degree you will learn how to use GPS, laser scanners, mapping drones and surveying robots to create high definition 3D models of the built and natural environments.

Career opportunities
Work in fields including urban and rural development, oil and gas exploration, mining and engineering construction, climate change monitoring, land management and planning, cadastral surveying and land law, hydrographic surveying as well as aerial imaging and cartography.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Engineering Science
• Law
• Music
• Science

Software Engineering (Honours)

Assumed knowledge
Mathematical Skills

Become an expert in creating high-quality, reliable software systems. You will discover the processes, methods and tools for the design and development of these sophisticated systems, from code-writing to delivery. This degree will give you hands-on experience in software specification, design, implementation and testing with workshops for team-based projects.

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Music
• Science

Telecommunications (Honours)

In this degree you will learn about the theory and application of a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You will learn how to design, develop and maintain the transmission of information using different methods across the world.

Career opportunities
You will be needed by specialist structural engineering firms, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultants.

This degree is accredited by Engineers Australia.

Bachelor of Civil Engineering with Architecture (Honours)

Program code 3635
CRICOS code 05943D
Duration 4 years
Entry February
Estimated first year tuition AS$44,295
Units of credit (per year/ total): 122
Assumed knowledge
Mathematics and Physics

Build on your civil engineering bachelor’s degree with courses in the related field of architecture. Establish a foundation in architectural principles and learn about the connection between architects and engineers. Get inspiration to become a conceptual thinker with a hybrid of aesthetic and structural expertise.

Study areas
• Architecture
• Civil Engineering

Structure
Civil Engineering discipline, including thesis project in final year.
• Architecture subjects
• 68 day Industrial Training

Career opportunities
You will be needed by specialist structural engineering firms, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultants.

This degree is accredited by Engineers Australia.

Quantum Engineering (Honours)

This is the first undergraduate quantum engineering degree in the world. You will develop the skills required for tomorrow’s engineers. Quantum engineers work in microelectronics, microwave and telecommunications with new applications being discovered every day. You will learn how to work with a range of quantum systems, from high-frequency signals to very small electronic circuits. Learn from academics about quantum computers, quantum sensors and quantum communications.

Career opportunities
Quantum engineering is rapidly growing worldwide, meaning there are countless career and growth opportunities you can pursue. You will gain practical experience in this degree that will prepare you for a successful career in the growing sector of next-generation electronic and communication devices. Career opportunities include leading companies like Microsoft and IBM who have large quantum engineering efforts internationally, including significant quantum activities in Australia. Local start-ups also offer a growing number of employment opportunities.

Study areas
• Programming Fundamentals
• Digital Circuit Design
• Electronics
• Quantum Physics of Solids and Devices
• Quantum Devices and Computers
• Quantum Communications and Photonic Networks

Career opportunities
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Law
• Music
• Science

This degree is provisionally accredited by Engineers Australia.

Software Engineering (Honours)

Assumed knowledge
Mathematical Skills

Become an expert in creating high-quality, reliable software systems. You will discover the processes, methods and tools for the design and development of these sophisticated systems, from code-writing to delivery. This degree will give you hands-on experience in software specification, design, implementation and testing with workshops for team-based projects.

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Music
• Science

Telecommunications (Honours)

In this degree you will learn about the theory and application of a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You will learn how to design, develop and maintain the transmission of information using different methods across the world.

Career opportunities
You will be needed by specialist structural engineering firms, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultants.

This degree is accredited by Engineers Australia.

Bachelor of Civil Engineering with Architecture (Honours)

Program code 3635
CRICOS code 05943D
Duration 4 years
Entry February
Estimated first year tuition AS$44,295
Units of credit (per year/ total): 122
Assumed knowledge
Mathematics and Physics

Build on your civil engineering bachelor’s degree with courses in the related field of architecture. Establish a foundation in architectural principles and learn about the connection between architects and engineers. Get inspiration to become a conceptual thinker with a hybrid of aesthetic and structural expertise.

Study areas
• Architecture
• Civil Engineering

Structure

Bachelor of Food Science (Honours)

Program code 3861
CRICOS code 08591B
Duration 4 years
Entry February, May and September
Estimated first year tuition A$49,670
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics, Chemistry and Physics

Structure
38 Food Science courses in your chosen major
* 2 General Education

Build a solid background in mathematics, natural science and applied science to equip you for a career in a variety of food related professions. You will work on food product design, professional food practice and food systems management in addition to completing thesis research.

You will be able to use your skills as a food scientist to address humanitarian issues. The Humanitarian Science and Technology minor gives you the opportunity to apply your knowledge to real humanitarian issues, addressing challenges recognised by the UN Sustainable Development Goals and international humanitarian relief efforts.

Majors
• Food Science and Nutrition
• Food Science and Technology

Optional Minor
• Humanitarian Science and Technology

Career opportunities
You can pursue a career in food technology, product development, quality assurance, product testing, production and laboratory management, as dietitians or safety inspectors.

Degree curriculum is approved by the US Institute of Food Technologists.

Bachelor of Engineering (Honours)/
Master of Biomedical Engineering

The Bachelor of Engineering (Honours) component of this double degree provides a solid background in mathematics, natural sciences and computing. In the Master of Biomedical Engineering you will learn principles for the development of technologies and solutions in healthcare-related fields such as implantable bionics and robotic surgery.

Disciplines
• Biomedical Engineering
• Chemical Engineering
• Computer Engineering
• Electrical Engineering
• Mechanical Engineering

Career opportunities
You can pursue careers with pharmaceutical companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

This degree is accredited by Engineers Australia (all specialisations) and by the Australian Computer Society (Computer Engineering & Software Engineering).

Career opportunities
You can work in a variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small innovative private firms that specialise in new technologies, services or products.

This degree is accredited by Engineers Australia.

Bachelor of Engineering (Honours)/
Master of Engineering (Electrical Engineering)

You will extend your knowledge whilst working on innovative projects in this five-year electrical engineering degree. You can also study a minor in areas such as mechatronics, computing, commerce, photovoltaics, music, satellite systems, mathematics, psychology or nuclear engineering. With around 55 undergraduate and postgraduate electives to choose from – the widest choice in Australia – you can tailor your degree to suit your interests.

Study areas
• Energy Systems
• Microsystems
• Photonics
• Systems and Control
• Signal Processing
• Wireless and Data Networks

Broadening disciplines and Minors available:
• Accounting
• Business Economics
• Computing
• Finance
• Human Resource Management
• International Business
• Internet of Things
• Management
• Marketing
• Photovoltaics

Career opportunities
You can work in a variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small innovative private firms that specialise in new technologies, services or products.

This degree is accredited by Engineers Australia.
Law & Justice

Tackle tomorrow’s big challenges by immersing yourself in the real-world application of law and justice. Sharpen your mind by exploring complex ideas and learn from a faculty that’s driven by an ethos of justice for all.

Study at a law faculty ranked 14th in the world and 1st in Sydney.*

*QS World University Rankings by Subject 2022.

Graduate job-ready and navigate your career opportunities with dedicated support from a careers service that is exclusively for Law & Justice students.

Embody our ethos of justice for all and gain insight into the criminal justice system through real world experience.

Join a top global law faculty
Ranked 14th in the world*, UNSW Law & Justice has been a leader in progressive and rigorous legal education and research for 50 years. We are also home to the highest-ranking group of researchers in criminology in NSW** with an above world standard rating.

*QS World University Rankings by Subject 2022
**Excellence in Research for Australia 2018

Benefit from interactive classes
Build confidence in your ideas and develop strong relationships with your teachers and peers in our small interactive classes. Our student-focused, interactive teaching environments give you the chance to ask questions, expand your ideas and sharpen your critical and analytical mind. Be part of an innovative learning environment that pioneered Australian legal education.

Join our societies
Form new friendships, excel in your studies and develop your professional skills and passion for social justice. UNSW Law Society is one of Australia’s most respected student-run law organisations while UNSW Criminology Society has a strong history advocating for social justice.

Extensive clinics and internships
Apply what you learn in the classroom to real-world practice with a wide range of work-integrated learning opportunities available. From helping members of the local community at our on-campus community legal centre to undertaking a credit-based work placement at a criminal justice agency, our students put theory into practice.

Global opportunities
Add a global experience into your degree. You can do an exchange, an overseas elective course or an internship abroad. Overseas electives and exchange can take you to places like Brazil, China, India, Switzerland, USA or Vanuatu. There are more than 80 exchange destinations available at leading universities around the world.

Exclusive careers service
Secure a rewarding job at the end of your degree with support from our dedicated careers service. With extensive experience working as lawyers and criminologists in Australia and overseas, our careers team collaborates with employers, recruitment agencies and UNSW alumni to source and promote opportunities for students.

End-to-end legal education
Completing a Bachelor of Laws is your first step towards becoming a lawyer, followed by Practical Legal Training (PLT). All law graduates in Australia must complete PLT to practise as a lawyer. UNSW’s PLT is the Graduate Diploma in Legal Professional Practice (GDLPP), so you can graduate with all the qualifications you need to launch your legal career.

Step 1 – Complete your Bachelor of Laws (LLB).
Step 2 – Complete your GDLPP at UNSW*.
Step 3 – Apply to the Supreme Court for admission to practice.

For more information, visit law.unsw.edu.au/plt

*Important note for international students: UNSW’s Graduate Diploma in Legal Professional Practice is CRICOS registered. International students will require a valid pass visa other than a student visa to be eligible to apply to this program.
The Bachelor of Laws (LLB) is a double degree program, which means you pair your legal studies with a bachelor’s degree in a non-law field of study. This increases your understanding of the wider social implications of law. Our student-focused, interactive teaching approach emphasises experiential learning to teach you analytical and practical skills needed in a wide range of careers.

Please note: While there is no assumed knowledge for the Bachelor of Laws component of your double degree, there may be assumed knowledge for the non-law component. Please check with the relevant faculty for this detail.

Career opportunities

We prepare our students for successful careers not only in law but across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services, media, science, urban planning, government and non-government organisations. Our graduates are highly sought after by major law firms, private and public sector institutions in key areas of legal practice including banking and finance law; commercial law; criminal law; intellectual property law; international law; litigation; media law; and public and administrative law.

Professional recognition

As a graduate of a top-15 global law faculty, the UNSW Bachelor of Laws (LLB) is your key to seeking admission to the legal profession. The UNSW LLB is accredited by the Legal Profession Admission Board (LPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. In addition, in order to be admitted to practice you will also have to complete practical legal training (PLT) which you can do through UNSW's Graduate Diploma in Legal Professional Practice (GDLP).

Certificates to practice as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively.

To practice law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practise, regarding the recognition of the UNSW law degree for registration purposes.

Bachelor of Arts (Politics and Criminology) alumnus

“...The reason why I wanted to be part of UNSW Law & Justice was effectively the importance placed on social justice, and the fact that students and alumni can make a difference and should make a difference.”

LAW & JUSTICE

"Having to really develop your worldview and getting challenged every day to think – ‘How do I feel about this? What’s my opinion?’ I loved it so much.”

– Meg Greenwood a Bachelor of Criminology & Criminal Justice alumna

Explore the complexities of criminal justice, crime prevention and law enforcement in this hands-on interdisciplinary degree. Imagine a more just future by critically interrogating pressing real-world issues like Indigenous over-incarceration, sexual violence and pill testing.

You will also develop in-demand skills in qualitative and quantitative research, critical thinking and policy analysis while studying broader topics such as security, policing, alternative justice systems, criminalisation and regulation.
Prepare yourself for the future of health and join a community focused on improving life for all.

Make a difference as you apply your skills to real patients and global health problems. Join a supportive community that’s leading the future of health and improving life for all.

Experience hands-on clinical training, interacting with patients and health professionals in some of Australia’s largest hospitals and health organisations, from the first year in many of our degrees.

Develop a creative, open-minded approach to healthcare. Build your research, analytical and communication skills to become a compassionate innovator and leader in health.

*Our Medicine students graduate with a Bachelor of Medical Studies and a Doctor of Medicine, launching them into their later year of beginning their career in medicine. With further studies and training, graduates can pursue careers in a wide variety of areas such as General Practice, Surgery, Psychiatry, Internal Medicine, Paediatrics, Obstetrics & Gynaecology, Critical Care and more.
Applying for the Bachelor of Medical Studies/Doctor of Medicine

If you are an international student applying to study at UNSW Medicine, you will be ranked on the following criteria:

1. Academic merit
2. Admission tests (ISAT or UCAT ANZ)
3. An interview with UNSW Medicine

We combine these three measures to rank all applicants. Applicants are selected based on the highest rank determined by all three measures.

Academic Merit

Secondary School & High School Students
Academic merit is based on your academic results from Secondary School or High School. View academic eligibility requirements for each UNSW Medicine & Health degree on page 98 of this guide.

UNSW Foundation Studies Students
UNSW Foundation Studies is an alternative entry pathway to study at UNSW. You will need a minimum GPA of 9.0 in the Life Sciences stream of the UNSW Foundation Course to be considered for entry into the UNSW Medicine program.

UNSW Medicine will also consider Foundation Studies results from the Group of Eight (Go8) Universities.

Admissions Tests (ISAT or UCAT ANZ)

The International Student Admission Test (ISAT) is a general aptitude test that measures critical and quantitative reasoning. The 3-hour test can be taken at testing centres around the world.

All international applicants are required to complete the ISAT with a minimum score of 150 for consideration. For more information about ISAT or to locate a test centre, visit isat.acer.edu.au

The University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ)

The UCAT ANZ is a two-hour computer-based test. The test assesses a range of abilities through five separately timed sub-tests. There is no minimum UCAT ANZ requirement, but it is expected that applicants must reach the 50th percentile to be considered for the interview stage of the application process.

To support our vision, we are excited to soon be launching a new suite of programs. Visit unsw.to/futureofhealth to find out more.

Study one of the most in-demand degrees

The UNSW Bachelor of Medical Studies/Doctor of Medicine is one of the most popular degrees in Australia for aspiring medical professionals due to the quality of training by great teachers, accomplished researchers and experienced clinicians. Secure a place in this highly sought-after program to stand out from the pack and set yourself up for an exciting career in medicine.

Learn from leaders in the field

We are driven by innovation and excellence in health and medicine. UNSW ranks 43rd in the world for medicine* and is among Australia’s leaders in health education and research. Learn from world leaders in the fields of cancer, neuroscience, mental health, addiction, infectious disease, immunity and inflammation, and non-communicable disease including cardiovascular disease.

Access world class biomedical and clinical training facilities
Take advantage of clinical training in some of Australia’s largest metropolitan and rural hospitals. You will also benefit from UNSW’s leadership role in Sydney’s Randwick Health & Innovation precinct. You will have access to cutting-edge learning environments, which use research to create positive impacts in the community.

Hands-on learning
Immerse yourself in hands-on learning with patient interactions throughout many of our degrees. Your practical study will help you develop as a skilled health professional and innovative clinician with strong research and teamwork skills.

New health professional programs
We are working together to build the future of health. In line with our Health 25 strategy, we are tackling the world’s most pressing health challenges to improve quality of life for all. To support our vision, we are excited to soon be launching a new suite of programs.

Visit unsw.to/futureofhealth to find out more.

Bachelor of Medical Studies/Doctor of Medicine

Program code 3985
CRICOS code 074236
Duration 6 years
Entry February
Estimated first year tuition A$75,715
Units of credit (per year/total) 48/288
Assumed knowledge English

Structure
Phase 1 (Biomedical, clinical and social sciences)
- Phase 2 (Integrated Clinical Courses and Independent Learning Project (ILP) or Honours)
- Phase 3 (Clinical placements)

Bachelor of Medical Studies (BMed)
Collaborative learning and teamwork are cornerstones of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, which includes basic medical and social sciences examining the human life cycle, social, ethical and legal issues. You will also sharpen your clinical and communication skills from Phase 1.

In Phase 2 you will have increased clinical exposure through hospital placements combined as well as ongoing learning in biomedical sciences.

Doctor of Medicine (MD)
The MD includes the Independent Learning Project (ILP) or Honours followed by clinical courses in internal medicine, surgery, psychiatry, primary care, obstetrics, gynaecology and paediatrics. There is also an elective clinical course that you can undertake interstate or overseas. Phase 3 consists of ten eight-week courses with a clinical focus and includes relevant content from the biomedical sciences and the social sciences. When you complete these phases, you will receive a provisional registration so you can begin a hospital internship before being recognised as a medical practitioner.

Career opportunities
Graduates who obtain full registration from the Medical Board of Australia are able to work as medical practitioners in hospitals and private practice. Further study and experience will enable you to specialise in a specific area of medicine, such as general practice, paediatrics, cardiology, oncology, general surgery, orthopaedics, pathology, radiology, or psychiatry. There are also career opportunities in medical research, health policy and medical education.

Double degree options
- Arts

Program Majors
- Medical Studies
- Doctor of Medicine

Professional recognition
After completing the formal degree requirements for the award of the BMed/MD degrees, you will be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals in an internship before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

Explore the science of human performance and play a vital role in preventing and managing chronic disease and injury. Pursue a rewarding career in various clinical work environments, including public and private hospitals, aged care facilities, physical activity programs and workplace health and rehabilitation. You will benefit from expert training in the medical sciences and gain clinical practice at the UNSW Lifestyle Clinic and across our network of healthcare partners.

This degree provides you with a comprehensive education in health and exercise – from foundational courses in chemistry and molecular biology, to anatomy, physiology and pathology. In the final stages of your degree, you will undertake advanced clinical exercise physiology specialisations tailored to your preferred career and have the opportunity to complete research internships with experts in the field.

Majors
- Exercise Physiology

Career opportunities
The Bachelor of Exercise Physiology opens up a range of career opportunities. This degree will prepare you for a career as a clinical accredited exercise physiologist, workplace rehabilitation consultant, wellness coordinator, clinical research assistant or as a strength and conditioning coach.

Professional recognition
The UNSW Bachelor of Exercise Physiology is accredited by Exercise and Sports Science Australia (ESSA) (ess.org.au), the national governing body for the Exercise Physiology profession.

On graduation, you will be eligible for the dual ESSA qualifications of Accredited Exercise Scientist and Accredited Exercise Physiologist.

This degree provides you with the essential skills and knowledge to pursue a rewarding career in preventing and managing chronic disease and injury. Pursue a rewarding career in various clinical work environments, including public and private hospitals, aged care facilities, physical activity programs and workplace health and rehabilitation.

The Bachelor of Exercise Physiology is accredited by Exercise and Sports Science Australia (ESSA) and is a professionally recognized program.

Upon graduation, you will be eligible for the dual ESSA qualifications of Accredited Exercise Scientist and Accredited Exercise Physiologist.

Want to address global health issues and join passionate health professionals working across borders? Unlike other Australian undergraduate public health programs, the Bachelor of International Public Health (BIPH) is internationally integrated with courses aimed at improving the health of populations worldwide. Courses focus on infectious disease challenges, Indigenous and environmental health, women and children's health, and global chronic disease prevention. You will also complete a capstone experience in the final year. This may include the option of either an internship placement or research project.

You can study the BIPH entirely online so you can study from your home country, wherever you are in the world. You can also study select courses on campus and learn in a way that best suits you. The degree includes unique coursework from two of the world’s leading universities – UNSW Sydney and Arizona State University (ASU).

Majors
- International Public Health

Career opportunities
Graduates will be prepared with essential skills for a career in international public or population health: epidemiology, health promotion, surveillance and disease prevention. That career could involve contributing to population health programs in local or state health departments, designing and implementing interventions to reduce the burden of disease while working in multinational and development agencies.

You may be interested in pursuing a research career in public health or seek higher studies, such as a graduate medical program, a master program or PhD.

Bachelor of International Public Health

Program code 3880
Duration 3 years
Entry February, May and September
Estimated first year tuition A$37,349
Units of credit (per year/total) 48/144
Assumed knowledge English

Structure
Introduction to Global and Public Health +
Core Public Health Disciplines +
Electives and Public Health Capstone (Project or Internship) +

Career options
The Bachelor of International Public Health provides a unique opportunity to gain an understanding of health and social development across cultures, languages and political systems. It prepares graduates for careers that require the development of new healthcare models and strategies, and the ability to engage with and understand health challenges from a global perspective.

The Bachelor of International Public Health is accredited by The International Association for Public Health (IAPHS) and is a professionally recognized program.

Bachelor of Vision Science

Program code 3181
CRICOS code 09296B
Duration 3 years
Entry February
Estimated first year tuition A$49,810
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry, Physics and English

Structure
Vision Science Core Courses +
General Education +
Non-Medicine & Health Courses +

Career opportunities
You will be equipped with the core skills and in-depth knowledge to work across the eye health sector spanning clinical settings, health promotion in government and non-government organisations and the ophthalmic industry.

You can work in wide range of optics, vision science and ophthalmology research laboratories that develop vision correction devices such as contact lenses, spectacles, ocular implants, imaging, and drug development.

You may be interested to pursue further study in a clinical discipline in optometry, orthoptics or rehabilitation for people with vision impairment (Graduate Diploma in Orientation & Mobility) or seek higher research degrees with an honours year, leading to a Masters or PhD.

Bachelor of Vision Science/Master of Clinical Optometry

Program code 3182
CRICOS code 09296A
Duration 5 years
Entry February
Estimated first year tuition A$48,823
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry, Physics and English

Structure
Years 1-2
Vision Science Core Courses +
General Education +
Non-Medicine & Health Courses +

Career opportunities
You can pursue a career as an optometrist, and develop interest and experience in paediatric optometry, contact lenses, public health, sports vision or low vision rehabilitation. You can also seek careers in eye and vision research or as a consultant to ophthalmic industries.

Master of Clinical Optometry

This component is your pathway to becoming a registered optometrist in Australia, New Zealand and parts of Asia. Gain practical experience in UNSW’s Optometry Clinic and through external placements as well as connect with industry-leading research institutes including the Centre for Eye Health. You will gain broad experience in optometric eye care and training on how to work and communicate with patients and other practitioners.

Career opportunities
You can pursue a career as an optometrist, and develop interest and experience in paediatric optometry, contact lenses, public health, sports vision or low vision rehabilitation. You can also seek careers in eye and vision research or as a consultant to ophthalmic industries.

Professional accreditation
Graduates of this program can apply to register with the Optometry Board of Australia (OBA), the Optometrists and Dispensing Opticians Board (ODOB) New Zealand and other registration boards in Asia where our program is recognised.
Think big and form deeper connections with our world. Allow your curiosity to be inspired as you discover your own path, exploring areas of science to acquire the skills needed for tomorrow’s workforce.

Tailor your degree at one of the largest and most diverse science faculties in Australia, where your choices include flexible double degrees and cross-disciplinary options.

With 7 subjects ranked in the top 50 globally,* join a community of world-leading researchers and inspiring educators who are using science to improve lives and communities around the world.

Reach your career goals with industry relevant skills and training. Tap into our network of 400+ industry and research partners to start building your own professional connections.

For more information, visit science.unsw.edu.au

*QS World University Rankings by Subject 2022
Embrace a career with impact
The brightest minds come together to learn, explore and discover at UNSW Science. Join a vibrant and welcoming community that prepares you for real-world challenges and future leadership opportunities. In our technology-centric world, there is increased demand for skilled scientists in a range of careers. Benefit from our leading industry partners and begin your journey to achieve your career goals and make an impact.

Learn from world-class teachers
Study with innovative, passionate and world-renowned educators, including quantum physicist and former Australian of the Year Professor Michelle Simmons AO, Nobel Laureate Sir Fraser Stoddart, and ground-breaking recycling scientist and 2022 NSW Australian of the Year Professor Veena Sahajwalla.

Make profound scientific discoveries
Collaborate, explore and achieve with world-class laboratories, clinics and simulators giving you the tools to explore new limits and make meaningful scientific discoveries to benefit society.
Bachelor of Advanced Science (Honours)

Program code: 3962
CRICOS code: 01842G
Duration: 4 years
Entry: February, May and September
Estimated first year tuition: AU$54,995
Units of credit (per year/total): 48/192
Assumed knowledge
Mathematics plus one or more of: Biology, Chemistry, Earth and Environmental Science, Physics

Structure

Major (choose one or two)
* Introductory Skills for Science
* Science Electives
* Free Electives (from any faculty at UNSW)
* General Education Non-Science Courses
* 1 year Honours

Majors
* Advanced Physical Oceanography
* Advanced Physics
* Bioinformatics
* Biology
* Biotechnology
* Chemistry
* Climate Dynamics
* Climate Systems Science
* Earth and Space Science
* Ecology
* Genetics
* Geography
* Immunology
* Marine and Coastal Science

Career opportunities
You can work in a range of settings including public sector research in universities and government institutes such as the CSIRO. Other careers include private sector research in pharmaceuticals and biotechnology companies, public policy, health and environmental related non-profits, market research and product development, management, technical and environmental consulting, data analytics, medical sales and science communication.

Double degree options

Bachelor of Science + Bachelor of Business, Bachelor of Information Technology, Bachelor of Design, Bachelor of Engineering, Bachelor of Architecture.

Progression requirements
Entry into the four-year Honours program is subject to academic performance and progression requirements. Students may exit the program after three years with a Bachelor of Science award if they are unsuitable for applying for entry into honours.

Professional accreditation
The Psychology major is an Australian Psychology Accreditation Council (APAC) accredited four-year undergraduate sequence in Psychology and is the first step on the six-year pathway to becoming a registered professional psychologist.

Double degree options

Bachelor of Science + Bachelor of Business, Bachelor of Information Technology, Bachelor of Design, Bachelor of Engineering, Bachelor of Architecture.

Bachelor of Science (International)

Program code: 3987
CRICOS code: 06786E
Duration: 4 years
Entry: February, May and September
Estimated first year tuition: AU$54,995
Units of credit (per year/total): 48/192
Assumed knowledge
Mathematics plus one or more of: Biology, Chemistry, Earth and Environmental Science, Physics

Structure

Major
* Science Electives
* Directed Electives
* Free Electives (from any faculty at UNSW)
* Language Minor

Majors
* Anatomy
* Bioinformatics
* Biology
* Biotechnology
* Chemistry
* Earth Science
* Genetics
* Geography
* Immunology
* Marine and Coastal Science

Career opportunities
You can work in a variety of research, communication, leadership and management roles in science and technology-based public and private industries. You will graduate with skills required to work in the scientific industry as well as an understanding of commercial environments.

Professional accreditation
The Psychology major is an Australian Psychology Accreditation Council (APAC) accredited three-year undergraduate sequence in Psychology and is the first step on the six-year pathway to becoming a registered professional psychologist.

Double degree options

Bachelor of Science + Bachelor of Business, Bachelor of Information Technology, Bachelor of Design, Bachelor of Engineering, Bachelor of Architecture.

Bachelor of Science and Business

Program code: 3925
CRICOS code: 07743L
Duration: 3 years
Entry: February, May and September
Estimated first year tuition: AU$48,325
Units of credit (per year/total): 48/194
Assumed knowledge
Mathematics plus one or more of: Biology, Chemistry, Earth and Environmental Science, Physics

Structure

Major
* Science Electives
* Foundation Business Courses
* 4 Business Electives

Majors
* Anatomy
* Bioinformatics
* Biology
* Biotechnology

Career opportunities
You can work in a variety of research, communication, leadership and management roles in science and technology-based public and private industries. You will graduate with skills required to work in the scientific industry as well as an understanding of commercial environments.

Professional accreditation
The Psychology major is an Australian Psychology Accreditation Council (APAC) accredited three-year undergraduate sequence in Psychology and is the first step on the six-year pathway to becoming a registered professional psychologist.

Double degree options

Bachelor of Science + Bachelor of Business, Bachelor of Information Technology, Bachelor of Design, Bachelor of Engineering, Bachelor of Architecture.

Note
You will need to complete an international exchange of 24 - 48 units of credit (4 - 8 courses) at an approved UNSW overseas partner university.
Bachelor of Aviation (Flying)

Program code: 3980
CRICOS code: 017227G
Duration: 3 years
Entry: February
Estimated first year tuition: AUD$49,635 (does not include flying fees)
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics
Structure: Aviation Flying Core Courses + General Education Non-Science Courses

Explore the science behind aviation, earn your flying licences and get ready to take on global opportunities within the aviation sector. This degree not only educates and trains pilots to the highest commercial standards, it also develops future industry leaders and managers. You will combine the study of theory with up to 200 hours of flight training and about 30 hours of simulator training.

Career opportunities
You will develop the skills and accreditation to work as a pilot for regional or major commercial airlines, charter flights or as an aerial surveyor.

Professional accreditation
This degree is professionally recognised.

Important information
You will need to pay for the flight training costs portion of this degree. In 2023, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot Licence is AUD$143,500 (some elective fees and extra flying fees may apply). Additional flying costs are incurred depending on your choice of third flight training provider and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.

Bachelor of Biotechnology (Honours)

Program code: 3853
CRICOS code: 088871C
Duration: 4 years
Entry: February, May and September
Estimated first year tuition: AUD$48,915
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Chemistry
Structure: Biotechnology Core Courses + Biotechnology Elective Courses + Free Electives (from any faculty at UNSW) + General Education Non-Science Courses + 1 Year Honours

Biotechnology combines cell biology and chemistry to create medicine, food, and energy products and solutions. Work at the forefront of biopharmaceuticals, vaccines, new methods for chemical synthesis, applied genomics and finding new solutions to remediating our environment.

Career opportunities
This degree includes courses in the life sciences, explores current industry trends and issues and tackles key focus areas, including synthetic biology, bioprocessing, medical applications and commercialisation. Through a research-based honours year, you will gain greater experience and confidence in the practice of scientific methods.

Bachelor of Aviation (Management)

Program code: 3981
CRICOS code: 0185678
Duration: 3 years
Entry: February, May and September
Estimated first year tuition: AUD$48,840
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics
Structure: Aviation Management Core Courses + Aviation Elective Courses + Free Electives (from any faculty at UNSW) + General Education Non-Science Courses

Pursue a career in flight operations on or off the flight deck. This degree will prepare you to become an aviation manager who understands the theory behind aviation operational management and can apply these principles to a practical work environment. You will undertake a range of courses in management areas such as operations management, aviation economics, law and regulations, airline marketing and safety. Please note this degree does not provide training or accreditation to work as a pilot.

Career opportunities
You will gain the skills you need to manage various aspects of airlines, freight companies, regulatory authorities, defence forces or airports. Specific roles you could pursue include airline manager, airport planner, flight crew scheduler, aviation consultant, flight analyst, flight safety investigator, aviation revenue manager and airport or fleet planner.

Double degree options
• Commerce

Bachelor of Data Science and Decisions

Program code: 3959
CRICOS code: 009855A
Duration: 3 years
Entry: February, May and September
Estimated first year tuition: AUD$48,385
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics
Structure: Data Science Core Courses + Major + Free Electives (from any faculty at UNSW) + General Education Courses outside of Science, Engineering and Business

As billions of devices feed data to central databases, businesses and governments require experts to interpret that data. In this degree you will gain the theoretical and practical skills required to unlock insights within data to help make informed decisions and address business challenges. Your education will combine mathematical methods, statistics, computing and business decisions with essential communication skills so you can effectively interpret and present data.

Career opportunities
From industries as varied as health, defence and finance, to agriculture, media and technology, there is a growing reliance on data science professionals to deliver meaningful business insights. Upon graduation you will be able to pursue a career as a business analyst, data scientist, data engineer, data analyst, data manager, data architect, database administrator, forecast modeller, reporting analyst, statistician and university educator.

Majors
• Business Data Science
• Computational Data Science
• Quantitative Data Science

Double degree options
• Law

“We live in a world of technology, which revolves around economics, but is all underpinned by maths and numbers. This program covers all three major areas, which are incredibly useful to contribute to society.”

Serena Xu, Bachelor of Data Science and Decisions
Bachelor of Environmental Management

Program code 3965
CRICOS code 88468A
Duration 3 years
(+ 1 year honours option)
Entry February, May and September
Estimated first year tuition AUD$48,405
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry

Structure
Environmental Management Core Courses
  • Major
  • Elective Courses
  • Free Electives (from any faculty at UNSW)
  + General Education
  + Non-Science Courses

Majors
  • Biology
  • Earth Science
  • Ecology
  • Environmental Chemistry
  • Geology
  • Marine and Coastal Science

Double degree options
  • Arts

Career opportunities
You can work as an environmental consultant, policy developer or researcher within industry or government. Potential employers may include National Parks and Wildlife Service or the Environmental Protection Authority.

“Jas part of my role I get to analyse environmental data, make meaningful interpretations and report on those outcomes. My degree really set me up to do these things and really enjoy the work.”
– Tashya Miranda,
Bachelor of Environmental Management

Bachelor of Life Sciences

Program code 3966
CRICOS code 88812E
Duration 3 years
(+ 1 year honours option)
Entry February, May and September
Estimated first year tuition AUD$48,958
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics plus Biology or Chemistry

Professional accreditation
This is an Australian Psychology Accreditation Council (APAC) accredited four-year undergraduate sequence in Psychology. This degree is the first step on the six-year pathway to becoming a registered professional psychologist.

Progression requirements
Entry into the fourth year Honours program is competitive and subject to academic performance, based on your Psychology Average (Distinction minimum) within your degree. Students may exit the program after three years with a B Psychological Science award if they are unsuccessful in applying for entry into Honours.

Are you a high achiever with a keen mind wanting to specialise in mathematics? If you are interested in the increasing range of quantitative careers in areas such as finance and environmental modelling, this degree offers a strong foundation. The four-year degree combines advanced coursework with an honours-level research project.

Career opportunities
You will be able to pursue professional opportunities in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education and research.
Entry requirements

To gain entry to UNSW, you will need to meet both the academic entry requirements and the English language requirements.

Academic entry requirements

High school studies

Direct entry applicants to UNSW must hold acceptable high school qualifications for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on pages 98-101. If your qualification is not listed, contact us to check whether it is recognised. 

UNSW Global pathway programs

UNSW Global offers pathway programs for international students who do not meet the entry requirements for a UNSW degree program, or whose high school qualifications are not recognised by UNSW. After completing a UNSW Foundation Program in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. After successfully completing your Diploma you will enter 2nd year (except Business Diploma which has a requirement of an average grade of 60%). You can enrol directly at UNSW if English is not your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an English language test taken in the last two years prior to starting your studies at UNSW.

The following table outlines some common English qualifications. UNSW also accepts a number of English language tests and English preparation courses which can be undertaken to meet the university’s English language requirements.

For further information about UNSW’s English language requirement policy, visit

Recognised prior study

Prior study can be recognised for applicants with diplomas from recognised institutions. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, we recommend you confirm accreditation before committing to a program. To confirm whether your study can be recognised, visit

Improve your English language skills

Prepare for success at UNSW and for your future career
UNSW Global’s Academic English Programs are designed to help you improve your skills so you can meet the English language requirements for a UNSW degree. You will learn English language skills for success at university and in your global career. If you want to study an undergraduate or postgraduate degree, there is an English pathway for you.

For more information, visit
unswglobal.unsw.edu.au/English

Why study an English pathway at UNSW Global?
• Flexibility with a range of courses at different levels, and durations to suit your needs.
• Study at Australia’s first university language centre.
• Learn from over 50 years of experience in language teaching.
• Access world-class university facilities and social surroundings and study on UNSW Sydney campus.

Academic English Program options
University English Entry Course (UEEC)
UNSW Global’s University English Entry Course will help you meet the UNSW English language entry requirements. Depending on your current level of English, you may need to complete a 10, 15 or 20-week course.

For more information, visit
unswglobal.unsw.edu.au/ueec

Tertiary Orientation Program (TOP)
UNSW Global’s Tertiary Orientation Program (TOP) is a 5-week course that helps you prepare for Australian university culture, understand university requirements and develop academic English skills for success at university. You need to have achieved an IELTS 6.5 or equivalent, and have a full offer from UNSW to be eligible for this course.

For more information, visit
unswglobal.unsw.edu.au/top

For more information on how to apply, visit
unswglobal.unsw.edu.au/apply or contact UNSW Global’s admission office,
admissions@unswglobal.unsw.edu.au

Academic English Program CRICOS Provider code 01020K,
University English Entry Course CRICOS course code
080692D, Tertiary Orientation Program CRICOS course code
084609E UNSW Global CRICOS Provider Code 01020K
**How to apply**

1. **Step 1** Choose your program
   - Choose your program at [unsw.edu.au/degrees](http://unsw.edu.au/degrees) or from the pages of this guide and make a note of the program code.

2. **Step 2** Check your entry requirements
   - You need to meet your chosen program’s entry requirements (see from page 32 for the requirements specific to your program). You also need to meet UNSW’s English language requirements (see page 97 or visit [unsw.edu.au/elp]).

3. **Step 3** Submit your application online
   - Submit your application at [UNSW Apply Online](http://apply.unsw.edu.au). Click ‘Register now’ and fill out your details. Upload your supporting documents and pay your application fee.

4. **Step 4** Track your application
   - Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.
   - Once you have provided all the necessary documentation, it should take two to three weeks for UNSW to assess your application.

5. **Step 5** We will send you a letter of offer
   - We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

6. **Step 6** Accept your offer
   - If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic Confirmation of Enrolment (eCoE).

7. **Step 7** Enrol online
   - Once enrolment for your degree is available, you can enrol in your degree and courses online at Accept Online, [acceptonline.unsw.edu.au](http://acceptonline.unsw.edu.au).

---

**How to apply for a scholarship**

A wide range of scholarships are available for international students.

**UNSW undergraduate scholarships**

UNSW scholarships for international students provide financial support to cover some of the costs associated with your study. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community.

To be considered for a scholarship, you must submit a separate application in addition to your admission application.

**Other scholarship providers**

There are many scholarships offered by organisations other than UNSW including the Australian Government, industry partners and organisations in your home country.

**Australian Government scholarships**

Australia Awards are international scholarships and short courses funded by the Australian Government offering the next generation of global leaders an opportunity to undertake study, research and professional development. For more information, visit [australiaawards.gov.au](http://australiaawards.gov.au).

---

Please check our website regularly for any new scholarships that may become available. For more information about UNSW Scholarships, visit [scholarships.unsw.edu.au](http://scholarships.unsw.edu.au).

</table>

Because each student’s study choices are different, it is impossible to provide a definitive cost of studying at UNSW. Here are a few things to consider when calculating your expected fees.

**Fees are course-based**

Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course and are calculated per unit of credit (UOC). For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

**Fees vary each year**

Fees for courses (subjects) change from year to year. The tuition fees above are for students commencing in 2022. The fees for 2023 are indicative only; fees may change during the program. Actual fees for 2023 will be released in late 2022.

**Fees are charged based on the year of commencement**

For example, if you start in Term 3 (September) 2022, the fees for the first term will be calculated at 2022 rates. Your second term (i.e. Term 1 2023) will be calculated at 2023 rates. If you are required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

**Estimating your tuition fees**

While it is not possible to give a fixed annual fee for each program, it is possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 32. You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC. General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT0803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts, Design & Architecture – Arts rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit student.unsw.edu.au/fees/international.

</tr>
</tbody>
</table>

* Indicative fee only.

Other study-related costs
Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around AUD$1,000 per year for books. An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs
Living costs vary depending on each student’s requirements. We estimate a single international student will need a minimum AUD$23,000 per year to cover general living expenses. This does not include the costs of large non-essential items like electrical equipment or a car. In addition, you will need at least AUD$2,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit studyinaustralia.gov.au/global/live-in-australia/living-costs

Overseas student health cover
If you are in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program. It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSN or Kammankollegiet. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers of OSHC
The five registered providers are Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, NIB Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services. Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental and some pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

United States financial aid
We are authorised by the United States (Department of Education to administer Federal Direct Loans for eligible students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit international.unsw.edu.au/for-us-students

International student loans
If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au

For more information, visit international.unsw.edu.au/financial-aid
Supporting you in times of change

COVID-19

The global pandemic has caused much uncertainty in the last few years, and we understand that it can result in changes to your study plans. To keep you on track with your goals, we offer flexible study options during these times. Supporting our students is our number one priority.

If travel restrictions are in place and you are unable to travel to Sydney, you can commence your studies online until it is possible to join us on campus. However, there are some programs with components that cannot currently be completed remotely. This may be due to the need for specialist equipment or in some cases because of the requirements of external accrediting organisations.

Our website is updated regularly with the flexible study options; answers to frequently asked questions and additional resources on the University’s response to COVID-19. Please visit covid-19.unsw.edu.au/information-students for more information.

Deferrals

If you have a UNSW offer and need to defer to an alternative commencing term, please let us know as soon as you can, and we will support you in this process. Choosing to defer may be due to COVID-19 travel restrictions in your country. If this is the case, we encourage you to avoid delaying your studies. Instead, take advantage of our flexible study options and start online to stay on track with your goals.

Please note that any deferrals may affect a student visa or visa application.

For more information on deferrals, visit student.unsw.edu.au/deferral.
