### Entry guide key

- Medicine (H): Medicine (B) admission requires a minimum of 70% in the following subjects: Mathematics, Chemistry, Physics, English, and Biology. Students who do not meet the minimum requirements will need to consider a Foundation Year program.
- Medicine (B): Admission requirements vary by country. Generally, students need to complete a recognized high school program and have a minimum GPA of 3.0. Additionally, they must provide evidence of successful completion of a course in English.

### Program information

- Medicine: This program is designed for students who wish to pursue a career in the medical field. The program covers a wide range of topics, including the biological basis of disease, prevention and treatment, and the ethical and social issues surrounding health care.
- Surgery: Surgery is a medical specialty that focuses on the diagnosis and treatment of conditions affecting the body.

## Commonly Accepted Secondary Qualifications

### Academic results

- English (B): English Proficiency Test (CPT) for students who are not native speakers of English.
- Mathematics (B): Mathematics O Level for students who have completed secondary education.

### Additional courses

- Science (B): Students must complete additional courses to meet the credit requirements for the program.
- Humanities (B): Students must also complete a minimum of 12 credits in humanities courses.

### Important information regarding UAC

- Students must submit their application through the UAC website by the deadline specified.
- Applicants should carefully read the faculty admissions information to ensure they meet the eligibility criteria.
- Students must submit their application along with all required documents and test scores.
