# Scholarships rewarding your ambition

UNSW is where ambitious and high-achieving students from around the world study and succeed. We offer scholarships for international students to empower them to realise their potential.

Our scholarships are not just based on your grades – UNSW values leadership skills, extracurricular interests and your passion to study with us. Our international scholarships and awards will help you to gain financial support, recognition of your academic excellence and they will help you stand out to future employers.

### International Scientia Coursework Scholarship

Alongside academic merit, we want you to show us your passion to become a leader, how you have engaged in extracurricular interests, and share with us why UNSW is the university for you.

### What you receive:

- · A full scholarship on your tuition fees or,
- AUD\$20,000 per annum for the minimum duration of your program.

You will also have access to networks and support including 'fast-tracked' applications for campus accommodation, awards and networking events and guaranteed entry into the UNSW Professional Development Program.

### Australia's Global University Award

If you have strong academic merit and are passionate about achieving your goals through university study, you will be considered for Australia's Global University Award.

### What you receive:

· AUD\$10,000 for one year

### **UNSW College Academic Award**

This Award is for students with strong academic records who complete the UNSW College Foundation Studies program.

### What you receive:

• AUD\$10,000 for one year

"A weight was lifted off my shoulders when I received the scholarship offer. Being able to save some money while I studied really helped me a lot. I can focus better on my studies and my involvement in different student clubs at UNSW."

Md Aziz Al Mehedi, Bachelor of Science (Computer Science)

# Velcom

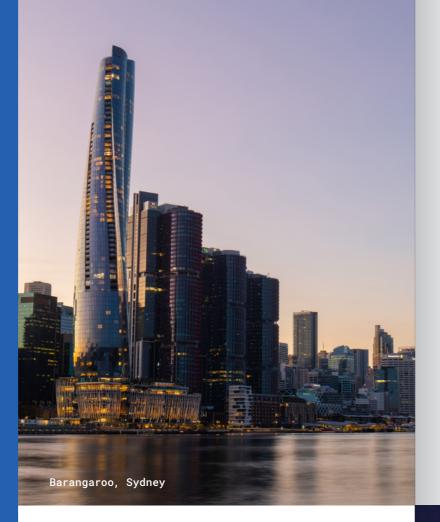

Sydney is one of the best student cities globally. It is ranked the 4th most desirable place to live and study in the world^.

Sydney is known as one of the most diverse and inclusive cities in the world – made up of global citizens. The differences you bring are appreciated and we look forward to welcoming you.

Sydney is more than just a pretty face. It offers countless business and career opportunities – it is Australia's financial and economic powerhouse. There is always something to do in Sydney, and UNSW is right in the heart of it all.

Come join us.

^ QS Best Student Cities (Desirability), 2022

### Take a break from the books

There is always something fun and exciting happening in Sydney – from concerts at the Opera House, to free events including Vivid light and musical festival, Chinese New Year celebrations and the multicultural Parramasala. Join an impromptu beach volleyball game on Coogee Beach or grab some friends for some photo-worthy moments in the Chinese Garden of Friendship.

Or if you are more into sport, we host world-class sporting events including cricket, soccer and rugby. For the more artistic visitors, there are theatre productions, concerts and festivals (many of them free!) to keep you entertained and inspired all year round. Get among it and join the fun in Sydney.

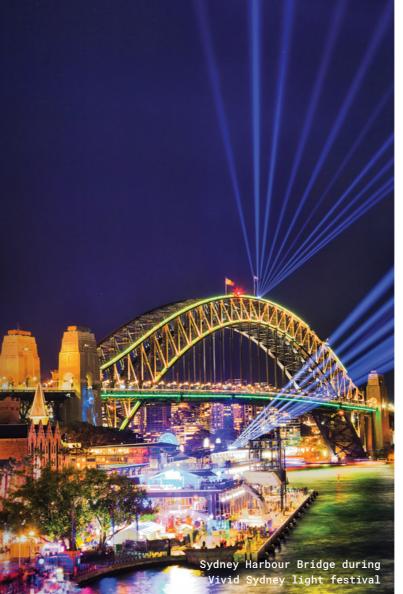

### Sydney on a budget

On a budget? No worries. There are lots of affordable indoor and outdoor activities to enjoy in Sydney. Pop into a free art gallery, catch a movie at the local cinema, try a coastal walk, snorkel or surf at the beach, or enjoy a budget-friendly lunch or dinner in one of our neighbouring suburbs. Feel confident to try new hobbies with lots of UNSW student social clubs to join.

### **Explore Sydney's surroundings**

Sydney is a stunning and vibrant city built around one of the most beautiful harbours in the world, with sparkling beaches and the city centre just minutes away from the UNSW Sydney campus. Head to one of our beautiful parks for an outdoor picnic with friends. If you want to go further afield, the Blue Mountains to the west of Sydney, the Royal National Park to the south or stunning Palm Beach in the north are great for a getaway.

### Feel safe and welcome

G'day. Hello. Hi. How's it going? Aussies are known for being friendly and you will find a smile wherever you go. Feel safe and welcome as you join our vibrant and multicultural communities all over Sydney that span social, religious and cultural collectives.

Sydney has been ranked one of safest cities in the world\*. You can feel secure and safe about your choice to live here. It will feel like a home away from home, no matter where you are from. The best bit about our multicultural city? The food. Explore Chinatown, Spice Alley, Little Italy and an array of fresh food markets all within easy reach. Who knows what new treats you will discover?

Scan the QR to take a tour of Sydney attractions with your international student guides.

Sydney Harbour Bridge during 13

### Get the full <u>experience</u>

University is about discovering the best version of yourself. At UNSW, there are so many opportunities for you to explore and grow, and with each new experience, you will discover new things about yourself and what motivates you to succeed. You will make friends in clubs and societies and enjoy fun events on and off campus.

Scan the OR code to watch a student tour of our campus and social activities.

### Make your studies work for you

The innovative UNSW3+ academic calendar gives you the flexibility to choose your own study path. There are three 10-week teaching terms, plus an optional five-week summer term. You can choose to schedule terms with a lighter study load or pick up an additional course to fast-track your graduation or make room for an extended internship. Plus, UNSW3+ gives you the opportunity to join UNSW at one of the three intakes throughout the year (February, May or September), depending on your degree. For more information, visit unsw.to/trimesters

### Open doors with a double degree

Get more choice, more career options and more knowledge with a double degree. Despite the name, it doesn't mean double the time or workload. Combine your passions to stand out when you graduate.

Explore the different combinations of programs in this guide or at unsw.to/degrees

Discover more international student life at unsw.edu.au/study/international-students

### A place to make new friends

Students from all backgrounds are what makes our campus so rich and diverse. There are plenty of activities and opportunities to find your place in the community. With over 300 clubs and societies for everything from sport to religion, everyone is welcome. Arc, UNSW's student-led organisation and home to many of our student clubs, hosts regular parties and events (in person and online), sporting competitions and practice, volunteering opportunities, health and wellness sessions... the list goes on. Find your friends at arc.unsw.edu.au

### Discover your favourite places

UNSW's campus has everything you could need all in one place. You will find dozens of cafes and restaurants, banks, bankteller facilities, a post office, supermarket, medical facilities, libraries, sporting facilities and more! When it is time to hit the books, there are indoor computer labs and outdoor study areas, so you can find the right vibe to suit your study style - all with free and fast Wi-Fi.

# Receive the support you need

UNSW is a friendly and welcoming university. We have a range of support and development services to guide you from your first day through to graduation.

The health and safety of our students is our number one priority. We have strict cleaning protocols in line with health authority guidelines. There is an on-campus health clinic, support for mental health, and wellbeing services designed specifically for students. We also provide 24/7 security services and have an app to help: StaySafe@UNSW.

### Arriving in Sydney

With new-arrival workshops, campus tours, and an airport meet & greet service, our dedicated International Student Welcome Centre will make you feel at home with UNSW.

### Your student community is here to help

Before you arrive, be matched with a cultural mentor, who is your new senior student 'buddy' and will answer all your questions on UNSW and Sydney. After you arrive your mentor can help you learn about Australian culture, customs and settling into student life at UNSW.

Our International Student Advisors provide personalised advice and information on university life, student visas, wellbeing and academic performance. They're ready to chat online now or meet you in person.

We have peer support mentors, special support programs for young students under 18 years of age and Arc, our student-led organisation, runs the 'Great Mates' program where you can chat with experienced, senior international students. Plus, there is lots of helpful information online, visit student.unsw.edu.au/international

### Study and academic language support

UNSW academics are here to help you get the most from your studies and will work with you in classes and consultations. You can also attend workshops, use online materials or make an appointment with an Academic Learning Facilitator to develop your skills in the areas you want, like academic writing for essays, getting feedback on written work, taking good notes, preparing for exams, making presentations, and more.

For more information, visit <u>student.unsw.edu.au/skills</u> and <u>student.unsw.edu.au/english</u>

### **Educational adjustments**

If you are living with disabilities or health conditions, our Equitable Learning Service can work with you to make reasonable adjustments to support your learning experience at UNSW. This is a confidential service and academics at UNSW do not know what disabilities students may have. For more information, visit student.unsw.edu.au/el

### Wellbeing and mental health support services

At UNSW we provide programs and counselling services to help improve your confidence and overall physical and mental wellbeing.

Our Psychology and Wellness centre offers 1:1 confidential appointments, and group sessions where you can speak and share with other students. Counsellors can refer you to specialist services and we offer 24-hour mental health support via after hours calls and text.

Our UNSW Clubs and Societies are a vital part of your student experience outside the classroom. Joining a club is a great way to make friends, get active and make the most of your time at university.

Find out more at arc.unsw.edu.au/clubs

Scan here to chat directly with an international student about life at UNSW.

### Live in the heart of it all

UNSW's campuses are located between Sydney's coastal eastern suburbs and bustling city centre-surrounded by public transport options. There are trains, buses, ferries and light rail options that run from UNSW campuses throughout Sydney at all hours of the day. A short bus trip will take you to explore the famous beaches of Coogee or Bondi, while the new Light Rail network takes you from UNSW's Kensington campus to the central business district and inner city.

You can even go sightseeing from campus – the famous Sydney Opera House and Sydney Harbour Bridge are a short trip on public transport, or explore Sydney's famous coastal and inner-city suburbs by walking or cycling.

### Find your new home

Feel at home with a range of award-winning accommodation on and off campus at UNSW. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends.

### Accommodation at UNSW

Living on campus is unlike any other accommodation option. Colleges have a strong culture of socialising, while apartments have more opportunity for independence. Both are places to grow alongside fellow students, fulfilling your personal and academic potential.

### Colleges

Live among students from Australia and around the world. Fully immerse yourself in university life and create unforgettable experiences in a community built around you and your education. Every room includes utilities, fast Wi-Fi, secure facilities and staff on hand to support you at no extra cost. You can access catered meals, an ensuite and room cleaning services, with all dietary requirements catered for..

### **Apartments**

Apartments provide an opportunity to make your own home and household. They cater to students who want more independent living or need specific living arrangements, including families.

All accommodation prices include furniture, general cleaning, Wi-Fi, water, electricity and gas.

### Private accommodation options Rental property

Choose from numerous private rental properties located in the surrounding suburbs of UNSW. You can rent a furnished or unfurnished property. Be sure to consider additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from AUD\$450 - AUD\$600 per student per week in a shared house or apartment.

### Homestav

Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in a private home plus breakfast and dinner. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will need to arrange your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from AUD\$300 - AUD\$400 per student per week. Search our database of local private properties at studystays.unsw.edu.au

Find the home that is right for you. Take 360 virtual tours of rooms and compare prices at accommodation.unsw.edu.au

### Temporary accommodation

We recommend having three to four weeks before classes begin to arrange private housing. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges or furnished apartments ranging from AUD\$55 – AUD\$300 per day.

### Private student housing assistance

UNSW's International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation is not available when you apply. For more information, visit <a href="mailto:student.unsw.edu.au/housing-assistance">student.unsw.edu.au/housing-assistance</a>

### Under 18s

Arrangements must be made for students under 18 years of age according to Australian Government regulations for the welfare of international students under 18. For more information, visit <a href="mailto:student.unsw.edu.au/visa18">student.unsw.edu.au/visa18</a>

### Living on campus compared to living off campus

We have compiled indicative costs of living on campus compared to living independently factoring in everything you need to consider from food to transport, so you can make an informed choice about where you will live when you study with UNSW.

21

### Living on campus compared to living off campus

	UNSW owned and/or affiliated		Independent	
	UNSW Apartment	UNSW College	Share house	One bedroom
Set-up costs one off payment (Bond, furniture, utility connections, etc.)	AUD\$0	AUD\$0	AUD\$3,400	AUD\$5,500
Accommodation per week	AUD\$335 to AUD\$580*	AUD\$350 to AUD\$520*	AUD\$285	AUD\$700
Internet per week	AUD\$0	AUD\$0	AUD\$25 to AUD\$55	AUD\$80
Gas and electricity per week	AUD\$0	AUD\$0	AUD\$25 to AUD\$35	AUD\$45
Food per week (Groceries and eating out)	AUD\$100 to AUD\$240	AUD\$15 to AUD\$60	AUD\$100 to AUD\$240	AUD\$100 to AUD\$24
Transport to university per week	AUD\$0	AUD\$0	AUD\$55	AUD\$55
Weekly total	AUD\$435 to AUD\$820*	AUD\$365 to AUD\$580	AUD\$490 to AUD\$670	AUD\$980 to AUD\$1,120
Total annual cost	AUD\$22,620 to AUD\$42,640* 52 weeks	AUD\$16,060 to AUD\$25,520* 44 weeks	AUD\$30,480 to AUD\$38,240 52 weeks	AUD\$56,460 to AUD\$63,740 52 weeks

Living costs are indicative only and will vary based on the location, number of people you live with and the condition of the housing.

For more information, visit <a href="mailto:student.unsw.edu.au/approximate-weekly-costs">student.unsw.edu.au/approximate-weekly-costs</a> and <a href="mailto:student.unsw.edu.au/approx

<sup>\*</sup>Costs will vary depending on the type of accommodation and catering offered.

### Experiences to shape your future

We are dedicated to helping you create a university experience that aligns with your ambitions and values. We will listen to and work with you to understand your goals and support you to pursue those through industry connections, social networks, hands-on experiences and world-class campus facilities.

### Our campuses and facilities Kensington Campus

Located between the global metropolis of Sydney's CBD, and its world-famous beaches, UNSW's Kensington campus hosts hundreds of clubs, societies and networking events. It is home to Australia's most comprehensive entrepreneurship program – UNSW Founders.

### **Paddington Campus**

Our Art & Design campus in inner city Sydney is a renowned creative hub. Studying here, you will have access to an unmatched array of studio, workshop and gallery spaces, as well as state-of-the-art digital production technology.

### **Design Futures Lab**

Purpose-built to inspire exploration and innovation in architecture, design and the built environment using emerging technologies.

### **Esme Timbery Creative Practice Lab**

Our multi-arts production and performance hub contains the latest digital production technology to facilitate creative collaboration across media and the arts.

### **UNSW Galleries & Making**

UNSW Galleries exhibit the work of leading Australian and International practitioners and curators, while our Making Spaces are open for you to explore, design and create using UNSW's tools and technologies.

### Career success

UNSW graduates succeed. They are earning the highest median salaries of graduates from Go8 universities\*. Many are making contributions to the world's most admired enterprises and organisations. Others are disrupting the status quo, launching brands and start-up businesses that make a real difference. That is because we support your career success from day-one.

### **Work Integrated Learning**

Get real-world experience and industry connections as part of your degree. Our dedicated Work Integrated Learning team will work with you to find the right professional placements and internships.

### Build professional networks

Whichever sector you want to move into, you will be able to take advantage of our faculty's connections to thousands of industry partners. You will work with and learn from staff who are not only practicing in your field, but who are also leading and shaping the future of your industry.

### **Career Ready Mentoring Program**

In your final year, this program will connect you with leading professionals in your field who will support your career development as you transition into work.

### Gain a global mindset

As part of our diverse community of students, staff, alumni and industry partners from around the world, you will build a global network. Studying at an internationally renowned university, you will learn the communication and professional skills to move into global careers and drive solutions to challenges that go beyond borders.

- Education (Secondary)
- Engineering (Hons)
- · Environmental Management
- Law
- Media
- · Medical Studies/Doctor of Medicine
- Social Work (Honours)

"I chose to study the Bachelor of Arts because of the scope of courses that I can pursue. UNSW's location in Sydney was also a big selling point for me. I wanted to be in a city that held opportunity, and to be part of a wider global community. Interactive engagement with my peers plays a big part of my university studies, and the experience of bouncing ideas and opinions off one another has made me feel very comfortable in my degree."

Cammy Gee, Bachelor of Arts

### Majors

Asian Studies | Discover the impact our closest neighbours have on the world and understand Australia's place within the Asian region. With an "all Asia" approach, learn from multilingual specialists who cover history, politics, social policy, health, philosophy, media and more.

Criminology | See crime through a big-picture lens. Ranked 13th in the world\*, UNSW Law & Justice offers an approach beyond lectures that sees you visiting courts and prisons and hearing first-hand from the people in the justice system.

Creative Writing | Hone your writing practice by exploring fresh, experimental writing across genres in fiction, poetry, creative nonfiction and ficto-criticism. Learn from award-winning writers, join writing masterclasses and events. and create invaluable industry connections.

English | We believe English is more than simply academic - it is an opening to the world, a passport to different realities, and like dynamite to narrow-mindedness and prejudice. Delve deep into memorable stories, poetic patterns, ringing phrases, and imaginative landscapes in a globally engaged and impactful English department\*.

Environmental Humanities | Want to make a change to climate change? From species extinction and GMOs to impacts of nuclear power - immerse yourself in the social, cultural and political factors shaping the natural world.

European Studies | From Britain, Russia and the Mediterranean to Northern Europe - delve into the intellectual history, politics, religion, and movement of minority people in history.

Film Studies | You want to tell stories, share human experiences, document reality, and expand horizons as an experimental art form - film studies sets the foundation. This course offers a practical component to learn filmmaking skills from industry professionals in the studio.

Geographical Studies | As a geographer, explore how physical, social, cultural, economic and political factors shape places. Discover how we can plan for a better future by combining geographic theory with hands-on experience in the field.

### Minors

You can complete a minor in the study areas listed above, as well as:

- Art History and Theory
- Australian Studies
- Gender Studies
- Indonesian Studies International Political Economy
- Italian Studies
- Legal Studies
- Mathematics for Engineers
- Modern Greek Studies
- Policy Power and Government
- Security Studies

Global Development | From urbanisation to widening disparity, environmental threats and the dominance of communication technologies - explore these issues and learn to navigate how you can create change at a local, national and global level.

History | At UNSW, we offer a particular strength in the histories of migration, gender, empires, and our region. Whether you are fascinated with ancient, early modern, or modern history - discover a uniquely global perspective taught by passionate, world-class historians.

Indigenous Studies | The Australian experience cannot be seperated from its Indigenous history. In this major, you will challenge your assumptions, reflect critically, and discover how Indigenous ways of understanding the world can be applied in different contexts.

Languages | The study of language and cultures enriches your global perspective and opens you up to international opportunities. You can major in Chinese, French, German, Japanese, Korean or Spanish - whether you are just starting or are ready to build on existing skills.

Linguistics | Explore the foundations of language and the relationship between language, society, and self. Find out how your brain processes and uses language. Expand your knowledge by studying linguistic diversity in urban settings and Indigenous contexts. Prepare for a career using linguistics by learning how language policy impacts multilingual and multicultural communities in Australia and around the world.

Media, Culture and Technology | From social to mobile media, media on demand and rapidly evolving media platforms - the media landscape is vast and complex. Throughout your studies, you will learn about the social, political and cultural dynamics of media and the impact that they have on everyday life and communication technologies. You will also discover more about the complex relationships between local and global media, and the role of diverse audiences in media processes.

Music Studies | The study of music is for anyone who wants to perform to a crowd, record, teach, compose a score, or work professionally in the industry. Learn practical, hands-on musicianship and discover how music can be an expression of cultures, societies and yourself.

Philosophy | Students of philosophy learn to think clearly, deeply, analytically and creatively. These skills help you communicate and debate even the most complicated ideas. And they set a solid foundation for tackling some of the world's biggest challenges.

Politics and International Relations | From political instability to conflict, national security to great-power rivalry, climate change to human rights - facing these challenges needs an understanding of the intricacy of domestic politics and foreign affairs. You can follow a career in both public and private life to change the world.

Sociology and Anthropology | What makes life meaningful? Why do we disagree and why do we care? What constitutes social change? With cultural diversity central to the teaching, join Australia's oldest sociology department to help us untangle the realities, conflicts and challenges of modern life.

Studies in Psychology | Psychology is a science that investigates your interactions with others, learning and memory, ability to cope with pressure and understanding of the causes of psychological disorders. Learn from global leaders by applying analytic thinking and scientific method to understand yourself and

Theatre and Performance | Take the stage and learn why performance matters in a media-savvy world. You will learn from industry professionals, collaborate with artists, and gain experience with production companies, venues. and publishers.

### Optional third majors:

In addition to the listed majors and minors, you can complete an optional third major in Business, including:

- Fconomics
- International Business
- Marketing
- · Human Resource Management
- · Innovation, Strategy and Entrepreneurship

\*QS World Rankings by Subject, 2023

### Bachelor of Education (Secondary)

As the world changes and new ways of learning emerge, students need the right people to support their education. Embrace diverse ways of learning to confidently teach and inspire students and future generations.

The Bachelor of Education (Secondary) is always offered as a double degree, which means our graduates can pursue their passion for teaching and benefit from further career opportunities in complementary professions. Upon graduating, you will have the knowledge and skills to meet the Australian graduate teacher standards, and the drive to shape the way future generations participate in their community and interpret the world around them.

- Science
- · Social Work (Hons)

### Majors

Economics | To solve some of our greatest global challenges, you need a real-world understanding of what motivates people, businesses, and governments. Economics is a constantly changing field that adapts to the world around us. Study analytical tools and gain critical thinking skills that help shape societies, raise living standards, and promote economic growth.

Environmental Humanities | Want to make a change to climate change? From species extinction and GMOs to impacts of nuclear power - immerse yourself in the social, cultural and political factors shaping the natural world.

Geographical Studies | As a geographer, explore how physical, social, cultural, economic and political factors shape places. Discover how we can plan for a better future by combining geographic theory with hands-on experience in the field.

Global Development | From urbanisation to widening disparity, environmental threats and the dominance of communication technologies - explore these issues and learn to navigate how you can create change at a local, national and global level.

Indigenous Studies | The Australian experience cannot be seperated from its indigenous history. In this major, you will challenge your assumptions, reflect critically, and discover how Indigenous ways of understanding the world can be applied in different contexts.

International Business | The world has never been more connected thanks to globalisation and technology changing the way we engage and do business. You can make the most of this evolution by becoming a professional globetrotter with boardrooms at your fingertips. Make the most of your strong foundations in business, commerce, and/or economics to change how the world does business.

International Studies | Movements of people, environmental crises, and the development of new ideas are shaping our world and challenging international organisations like never before. You will analyse what's happening in the world and think creatively about how to solve major challenges – from examining the way governments struggle with global economic changes, to the flow of refugees, human rights, security and environmental crises.

Marketing | From design, branding, advertising, and communication to digital marketing and analytics - marketing is a future focused area of study, with strategic thinking and innovation at its core. I earn to use data and communication tools to help businesses stand out, understand customer behaviour, enhance experiences and meet customer needs.

Media, Culture & Technology | From social to mobile media, media on demand and rapidly evolving media platforms – the media landscape is vast and complex. Throughout your studies, you will learn about the social. political and cultural dynamics of media and the impact that they have on everyday life and communication technologies. You will also discover more about the complex relationships between local and global media, and the role of diverse audiences in media processes

Politics and International Relations | Lead differently and make an impact with a specialisation that focuses on the complexities of government and global politics. Discover how to think critically about current challenges facing our world while you unpack complex international issues and create your own impactful solutions.

Sociology & Anthropology | What makes life meaningful? Why do we disagree and why do we care? What constitutes social change? With cultural diversity central to the teaching. join Australia's oldest sociology department to help us untangle the realities, conflicts and challenges of modern life.

Human Resource Management | Providing the foundation for any organisation's ongoing success - human resource management tackles a range of effective and responsible workforce issues. From employee and performance management to employment relations, organisational change, health and safety, and beyond - these skills will set you up for success in a diverse and rewarding career.

Innovation, Strategy & Entrepreneurship | Innovation drives productivity, competitive advantage, differentiation, growth, profitability and sustainability. This specialisation has been crafted to help you understand and meet these challenges with strong leadership skills that will help shape the future of organisations across the globe. Learn how to lead with confidence, discover new opportunities, turn insights into action, and implement design strategies for business models that create, capture and deliver value.

### **Specialisations**

Animation and Moving Image | This groundbreaking specialisation is purposefully designed to meet industry demand for content developers and creative practitioners. You will graduate with work experience and intensive skills training in the latest technologies - important assets for the creative media industry

Potential careers in animation and moving image include animator, visual effects artist, digital publisher, film producer, cinematographer and

Art Theory | Develop a deep understanding of the power of art to shape, influence, and reflect society. You will dive into concepts and ideas, exploring histories and theories behind contemporary art and culture - in Australia and overseas. Learn alongside artists, designers, curators, and writers as they critically engage with significant and relevant debates.

Potential careers in art theory include art critic, creative director, communications officer, cultural consultant, exhibit planner and more.

Visual Arts | Immerse yourself in a creative, inclusive and collaborative community. From rehearsal spaces to studios, theatres, galleries and beyond - you will gain specialised skills via practical projects and studio experience. As you learn to critically analyse current and developing technologies, you will be ready to adapt to any future industry changes that might come

Potential careers in visual arts include artistic director, photographer, illustrator, performer, sculptor and more.

Music | Our intellectually and artistically comprehensive classes will prepare you for a long career in music, and a lifetime of music making. You will develop your interests across a diverse range of musical genres under guidance from world-class performers and scholars. After your first year, you will continue developing your skills with a focus on creative practice, music pedagogy or sonic arts.

Potential careers in music include audio engineer, composer, performer, songwriter, talent manager

Please note that you will need to audition to be accepted into this specialisation. For more information, visit UNSW Music auditions

Make your mark transforming creative thinking into design action. Find out how historical, social, and cultural values apply to design no matter which challenge conventional methods and find new solutions to old problems, and gain practical skills combined with creativity and independent thinking to unlock a

### specialisation you choose. You will learn to

lifelong career with genuine impact.

### **Specialisations**

Integrated Design | Develop your design knowledge and skills as you specialise in multiple design disciplines. You will engage in historical and theoretical studies that will complement your professional practice skills and explore the fundamental process of design. To prepare for jobs that might not even exist yet, you will engage in real-world projects and industry opportunities, and have the chance to undertake a local or international internship to help expand your professional networks and capabilities.

I chose my degree because it gave me the chance to combine multiple areas of design and explore the exciting spaces in between. It has given me so much confidence as a professional designer.

Forough Najarbehbahani, Bachelor of Design

### Career opportunities

Take your learnings and turn them into something that celebrates your passion and purpose each day. Potential careers include graphic designer, visual communicator or illustrator, exhibition, experience and event designer, jewellery or textile designer, film, television and mobile producer, UX designer and much more.

### Double degree options

- Commerce
- · Education (Secondary)
- Media

Industrial Design | Impact and influence the way we live by designing the products, systems and services we use daily. Gain the experience and confidence to turn your innovative thinking into strategic solutions that are functional, emotionally engaging and fulfill a genuine demand or societal need. In our practical studio classes and theoretical courses in manufacturing, materials, sustainability, user empathy, and design research methods, you will learn how to enhance human and environmental wellbeing as you generate insightful and life-centred product ideas.

Computational Design | Gain unique and indemand skills across architecture, design, computer science and engineering. You will learn to think critically and creatively as you bring your design solutions to life in our studio-based classes. This specialisation will allow you to explore diverse aspects of computational design through problemsolving, theory, and practice. Learn to tackle challenges through design thinking and apply cutting-edge technologies to all that you do.

### Bachelor of Architectural Studies

Program code 3261 CRICOS code 061903M

Duration 3 years
(+ 1 year Honours option)
Entry February and September

Estimated first year tuition AUD\$41,625

Units of credit (per year/total) 48/144

Assumed knowledge None

### Structure

Core (11 courses)

Design Studio (6 courses)

Interdisciplinary Learning (2 courses, with students from other disciplines)

Electives & General Education (3 courses)

Design meaningful connections as you explore and redefine what place means to people and their communities. You will learn to design buildings and their various surrounds to meet the needs of the people who use them. Taking sustainability, culture and the economy into consideration – you will participate in design studio sessions and lectures that cover a range of engaging topics and academic subjects.

### Career opportunities

Create with design and craft the tomorrow you want. This is your chance to shape the culture of a place, its people, and their futures – and see your vision come to life beyond a blueprint. This degree will set you up with the practical and theoretical skills you will need to thrive throughout your architectural career.

When combined with the UNSW Master of Architecture, this degree will give you a qualification to practice as an architect, and a strong head start in contemporary and multidisciplinary design practice.

### Study areas

- · Architecture Design Studio
- Climate and Environmental Design
- Communications
- · Computer Modelling and BIM
- Drawing and Model Making
- History of Architecture
- Materials and Technologies
- Structures and Construction

Bring sustainable places to life and build your legacy through specialised knowledge and a deep understanding of how people, processes and products work together. Equipping you with the skills and connections to turn your passions into a tangible and meaningful career, this degree is one of Australia's most respected in its field.

### Career opportunities

Complex construction projects need leaders who can meet the demands of a constantly evolving industry. During your study, you will develop the required skills and knowledge for the management of property development, construction sites, projects, and quantity surveying. This includes a strong emphasis on construction and property economics and management skills, including cost, time, human resources, organisational behaviour, risk management and information technology.

### Study areas

- · Building Construction
- Building Science Materials and Structure
   Construction Technology
- Economics and Law
- Facilities Management
- Management
- · Property Development
- Quantity Surveying

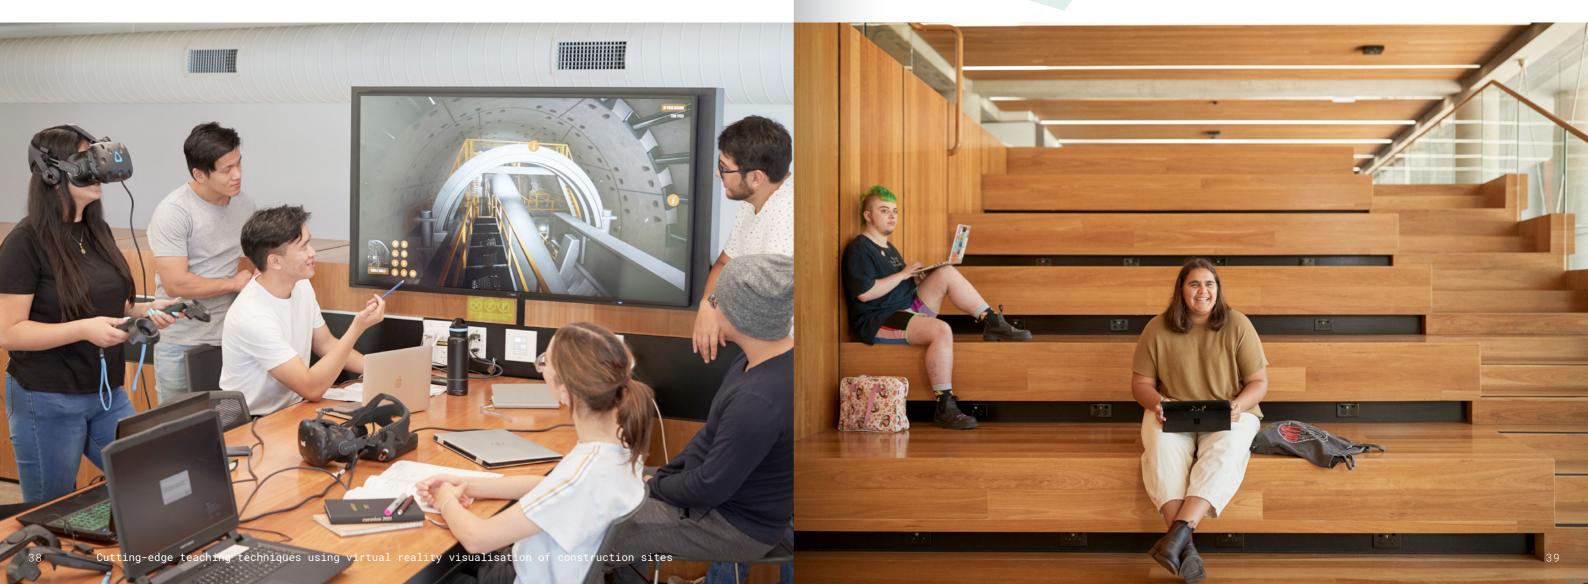

### Professional recognition

The Bachelor of Construction Management and Property is recognised by The Australian Institute of Quantity Surveyors (AIQS) and The Royal Institution of Chartered Surveyors (RICS). Students completing the additional one-year Honours program will also receive accreditation from The Australian Institute of Building (AIB).

I wanted to study at UNSW because of its positive learning environment, reputation within the construction industry, and motivated educators who bring their unique experiences in the classroom to support our learning. While studying I attained a cadetship in the construction industry, it was a real light bulb moment when I was able to bring classroom concepts to work, and use them to make sense of real life situations!

Hamza Arshi Bachelor of Construction Management and Property

### UNSW Business School

Learn the skills to drive purposeful change and shape a better future. Build adaptive thinking to thrive in this fast-changing world with a career-focused education for professional success.

### **Career Accelerator**

Our distinctive degrees bring the boardroom to the classroom with a range of hands-on professional learning opportunities, exclusive to UNSW Business School. Career Accelerator career development and experiences ensure you graduate career-ready, prepared to hit the ground running in the workplace.

Career Accelerator opportunities include:

### Internships

Career Accelerator offers exclusive internships with our industry partners. We will also support you to find your own internships, take on practical social entrepreneurship, and get involved in strategic consulting projects.

### **Professional Networking**

We have a range of programs designed to help you grow your network as you learn. Get personalised mentoring from professionals, hear about trends, challenges and opportunities from industry leaders, and grow your peer network through regular workshops, showcases and community events.

### **Global Opportunities**

Kick-start your global career and experience business around the world through a range of short overseas electives, practicums and international exchanges. Our Global Business Practicum is an exclusive opportunity to work with international companies on real-world professional projects.

### **Business Experience**

We collaborate with recognised companies to offer co-curricular experiences where you can develop professional skills, build your network and shape your career as you study.

### **Group Consulting Projects**

Consulting projects are your opportunity to collaborate with other students and industry professionals to solve business challenges. You will visit company headquarters, attend workshops and mentoring sessions, and build business acumen that set you apart.

For more information, visit unsw.to/ca

### Bachelor of Commerce

First Year Business Core Courses (Integrated First Year) studied on campus or fully online

One Business School Major

Second Business School Major, Minor or Electives

Guaranteed Work Integrated Learning (WIL - Professional Development)

General Education

myBCom suite including Graduate Portfolio Make big changes in the world with a career in business. Co-designed with industry, UNSW's innovative Bachelor of Commerce will ensure you are one of Australia's most employable graduates. With an integrated first year that combines knowledge and professional skills, guaranteed industry learning opportunities and the award-winning MyBCom online portfolio, you will build your employability from day-one and graduate ready to succeed in the future of business.

### Career opportunities

You will enjoy rich professional opportunities as a commerce graduate. Graduate ready to succeed in careers that align with your passions. Commerce graduates succeed across the private sector, local and international government and not-for-profit organisations. For example, work as an: accountant, auditor, commercial manager, consultant, customer experience specialist, cyber security analyst, data analyst, digital innovation specialist, economist, financial advisor, human resource consultant, ICT business/systems analyst, international business development manager, investment banker, insights and reporting manager, marketing/brand manager. property business analyst, recruitment officer, strategist, tax advisor, venture capitalist,

### Professional accreditation

You will be eligible for membership to various professional organisations depending on the major(s) that you complete.

### Double degree options

- · Actuarial Studies
- · Advanced Mathematics (Honours)

### Structure

Actuarial Studies Core Courses

Elective Courses or Optional Major

General Education

Our Bachelor of Actuarial Studies is the flagship entrance for the highest-achieving students into Australia's most competitive business program. Develop specialist skills in actuarial models, financial maths, machine learning/Al and analytical techniques. Evaluate risks and opportunities, and create insights that help businesses, governments and not for profit organisations make critical decisions. You will graduate in high demand from the global leader in actuarial studies.

### Career opportunities

With a Bachelor of Actuarial Studies, you will develop a specialist skill set in actuarial models, financial maths, probability, Artificial Intelligence analytics, and commerce. Our graduates are in high demand across industries, which means you will be sought after for roles in financial services, insurance and superannuation as an actuarial analyst, business consultant, credit analyst, data analyst, forecasting analyst, investment banker, insurance analyst, risk assessment officer, statistical research analyst, superannuation advisor and wealth management analyst.

### Majors

- Actuarial Studies
- Actuarial Risk Management and Analytics
- Quantitative Data Science
- Or select an Accounting, Business Analytics, Finance or Information Systems major from the Bachelor of Commerce.

Students wishing to study a Bachelor of Commerce major other than those listed above may need to complete additional units of credit to complete program requirements.

### Double degree options

- Advanced
   Methomati
- EconomicsInformation Systems
- Mathematics (Hons) Information S
   Commerce Law
- Computer Science
  - nce Science
  - 00.0...0

### Professional accreditation

Upon meeting the academic standard requirements, you will gain exemptions towards accreditation with the Actuaries Institute (Australia). Professional accreditation through the Actuaries Institute provides mutual recognition at major international actuarial bodies such as the Institute and Faculty of Actuaries (UK) and the Society of Actuaries (US).

### **Business School Majors**

Accounting | Accounting is a broad and dynamic discipline where you will record and analyse information to effectively advise organisations, business and individuals in strategic decision making. This major is professionally accredited by CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), and the Chartered Institute of Management Accountants (CIMA).

Behavioural Economics | Behavioural economics is essential to understand, model and predict choices in complex settings. Behavioural economics incorporates psychology into the analysis of decision making behind economic outcomes. Learn how to gain insights into individual choices, such as what influences a consumer to purchase one product instead of another, or more broadly in business and policy scenarios.

Business Analytics | Business Analytics produces and communicates actionable findings and insights from organisational data using descriptive, predictive and prescriptive analytics. This major has an emphasis on the ethical and legal issues of data governance, along with statistical modelling, programming and database management.

Business Economics | Become an agent for change as you examine the behaviours of individuals, firms and governments and the effect of their choices on living standards. Collecting and calibrating data, economists make recommendations to federal and state government departments, international organisations and the private sector.

Finance | Finance is a high-stakes, fast-moving industry requiring decisive strategy in the face of uncertainty. Learn how businesses raise capital, how people distribute their savings among different investments and how organisations make financial policies and decisions. This major can be used towards the Financial Adviser Standards and Ethics Authority (FASEA) accreditation dependent on course selection. It is also approved under the Chartered Financial Analysts (CFA) Institute's University Affiliation Program.

Financial Technology | FinTech creates, enhances and disrupts financial services through methods including peer-to-peer lending and robo-advice to decentralised finance, such as Bitcoin. FinTech identifies industry needs and sits at the cutting edge of progress.

Human Resource Management | Develop strategic thinking in employee engagement, employment relations, organisational change, staff learning and development, health and safety, organisational behaviour and performance management. This major is accredited by the Australian Human Resources Institute.

Information Systems | Information Systems helps businesses operate and thrive in the digital age. You will learn to develop, implement and manage information technology solutions including databases, enterprise systems, business intelligence systems, social media, networks and infrastructure to support business operations.

### Innovation, Strategy & Entrepreneurship |

Innovation impacts and transforms business and society. It drives productivity, competitive advantage, differentiation, growth, profitability and sustainability. This major will equip you with strategy, management and design thinking skills highly valued by start-ups and corporate organisations. You will be provided with the perfect launchpad for your own entrepreneurial endeavours.

International Business | Today's global business ecosystem is highly competitive, with companies operating in markets across cultures and countries. Master the art of managing multinationals as you craft strategies that consider the economic, social, legal, political and cultural contexts of global business.

Marketing | Grow an organisation by aligning people's wants and needs to your competitive advantage. Marketers work in all stages of a product's life cycle including innovation and new product development. This includes campaign planning and execution through to digital and marketing analytics to inform campaign and product choices.

**Taxation** | Taxation is the foundation that all modern societies are built on. Every individual, business, organisation and government agency interacts with the taxation system. Tax experts are highly sought after in all types of organisations across a range of sectors. Delve into the intricate system of legislation and policy to understand the implications and influence of taxation on organisations.

### Structure

Courses

Integrated First Year Business Core Courses studied on campus or fully online

- + One Business School Major + Guaranteed Work Integrated
- Learning + International Studies
- + Elective Courses or Second Business School Major or Minor (electives can be used to create an International
- + One Year Overseas Exchange

Studies Major)

The Bachelor of Commerce (International) is your gateway to a global career. You will undertake real-world professional experience, understand cross-cultural perspectives in business, study an international language and undertake a one-year overseas exchange. Your exchange will be supported by a \$5000 scholarship for full immersion in foreign business practices and cultures. You will graduate with in-depth understanding and industry experience, ready for success on a global scale.

### Career opportunities

This degree provides a solid foundation in business and prepares you for the challenges of working in global business settings. You could work in organisations with regional and global operations, as well as government and non-government agencies operating internationally in fields such as consulting, foreign affairs, media, finance, accounting and information systems.

### Majors

Business discipline streams:

Refer to Bachelor of Commerce

### International Studies discipline streams:

- Asian Studies
- European Studies
- Global DevelopmentHistory
- International Relations
- Languages (Chinese, French, German, Japanese, Korean and Spanish)
- Politice

### Professional accreditation

You will be eligible for membership to various professional organisations depending on the major you complete.

### Honours

Studying honours with UNSW Business School gives you a competitive edge. With an honours degree, you'll complete an independent research project and advanced coursework in the area of business you're passionate about. Honours programs add one-year to your undergraduate degree (when studied full-time). They can be a springboard into new career opportunities, postgraduate study, and higher degree research.

### Why honours?

- Develop your research skills -Your honours thesis is an independent research project that combines theory, methods, creativity, and communication skills.
- Deepen your expertise -Honours gives you the opportunity to become an expert in the field of business that interests you the most.
- Advance your career With advanced research, problem-solving, communication, and analytical skills, you'll stand out in the eyes of employers.

### Structure

Economics Core Courses

Introductory Business Courses

Economics Major or Economics Electives

Optional Second Major, Minor or Free Electives

General Education

Through our Bachelor of Economics you will uncover how human behaviour and decisions made by institutions and people determine economic and social outcomes. You will be guided by global thought leaders as you explore powerful concepts and develop a rigorous skillset in logic, data, mathematics and statistics. You'll benefit from strong industry connections and apply what you learn to find solutions to important issues - graduating with skills that are prized by decision-makers in business and government worldwide.

### Career opportunities

You will be highly sought after by policymakers in government at all levels, private sector employers in all industries, not-for-profits and international organisations to work as an analyst, researcher, forecaster, journalist, advisor, and many other roles. You can open up more career paths by completing the Bachelor of Economics (Honours) degree or combining economics with studies in commerce, arts, law, or science.

### Majors

- Data Analytics and Econometrics
- Economic Policy and Society
- Macroeconomics and Financial Markets

You can study an optional second major from the Business School majors on page 44, or continue to study a combination of electives.

### Double degree options

- Actuarial Studies
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science

Water and Waste Engineer

Empower yourself at a globally renowned engineering faculty, where passion, diverse perspectives and a hands-on approach create solutions for a better world.

Set yourself apart studying at the #1 engineering and technology faculty in Australia\* with the largest range of disciplines, including emerging areas like quantum and renewable energy engineering.

\*QS Rankings by Subject 2023

Improve lives with exciting, real-world projects in our unique ChallENG program. Connect with students, academics and companies to gain the technical and professional skills needed to thrive.

Enrich your studies through our diverse and inclusive student community. Our clubs and societies brings students together for professional development programs and networking opportunities.

For more information, visit unsw.to/engineering

### Real-world engineering

From day one, you'll develop your abilities as an engineer, both in the classroom and through practical experience. You'll learn from industry leaders, create and design projects in our Makerspaces, and participate in collaborative projects. You'll also have opportunities to build valuable contacts through our vast network of industry partners, attend industry recruitment events, and gain a global mindset through international exchange. Graduate with real-world experience to launch a successful career.

### Meeting global challenges

Make a positive difference in the world when you combine your passion and creativity to meet global challenges. You will have access to the world's best facilities and research to help you reframe global problems and engineer innovative solutions for individuals and communities.

### The ChallENG Program

The ChallENG Program connects you with academics and industry partners as part of exciting, real-world, project-based learning initiatives. ChallENG prepares you for your future career through practical learning experiences that are valued in the real-world. You will expand your professional expertise through a multidisciplinary learning approach that develops your technical and design skills. Many of the ChallENG projects earn academic credit (for-credit-elective) or are eligible for Industrial Training.

For more information, visit <a href="mailto:challeng.unsw.edu.au">challeng.unsw.edu.au</a>

### Flexible First Year

Explore the different fields of engineering before deciding on the major that's right for you in UNSW's Flexible First Year\*. Your first year of engineering study includes a core of common subjects and a wide choice of electives, so you can find the area that sparks your passion.

\*Flexible First Year is not available in the Bachelor of Engineering (Honours) double degree programs.

### **Humanitarian Engineering**

Study engineering to make an impact. Work on engineering solutions that improve the lives and livelihoods of disadvantaged communities. Get experience in humanitarian engineering during your degree by completing an optional minor in your engineering or food science degree. Take your contribution to humanitarian engineering to the next level with an international experience or a humanitarian engineering project in the ChallENG Program.

For more information, visit unsw.to/he

### Industrial training

Industrial training is a major component of your engineering education. It gives you real experience in an engineering environment and shows how your learning is applied in practice. For industrial training, you will undertake 60 days of work experience in your chosen field of study.

For more information, visit unsw.to/industrial-training

### Student societies

Make friends with other students and expand your professional network: join our flagship Engineering Society (EngSoc) and Women in Engineering Society (WIESoc). Our full range of societies offer professional development programs and social activities throughout the year.

For more information, visit

unsw.edu.au/engineering/student-life/

28 Courses in your chosen discipline

- + 2 Flectives
- + 2 General Education Electives
- + 60 days Industrial Training

Combining mathematics, natural sciences and computing, this degree is the foundation for specialised pathways into different engineering disciplines. You will learn through engineering design and research projects as well as professional practice, management and research for your thesis. There is flexibility in the first year if you have not decided on your desired engineering major.

### Flexible First Year stream

The Bachelor of Engineering (Honours) program includes a Flexible First Year stream\*. If you want to study engineering but are not ready to choose what area of engineering you can wait until the end of your first year.

The first year has common core courses, plus a choice of electives so you can study different areas that appeal to you without making a decision until the end of your first year. This is ideal if you want to be an engineer but aren't sure which direction to take.

\*The Flexible First Year stream is not available in Bachelor of Engineering (Honours) double degree programs.

This degree is accredited by Engineers Australia.

### Aerospace Engineering (Honours)

Immerse yourself in the science and practice of air and space flight with this exciting degree. Learn how to design, operate, and make advanced analysis of air and space vehicles in studies that draw on our strong research and industrial experience. In your final year you will work on aircraft design and research projects.

- Arts
- Commerce
- · Computer Science
- Fine Arts
- Law Science

### Mechatronic Engineering (Honours)

You will learn the full spectrum of smart machine design in this degree. Graduate with skills in autonomous system development such as self-operating robots and vehicles, and a thorough knowledge of industrial automation. You can apply this knowledge across the evolving field of smart machines and systems.

### Study areas

- Computing
- Control Systems
- · Electronics · Mechanical Design
- Microprocessors
- Robotics

### Career opportunities

As a mechatronic engineer you can work in industries such as manufacturing, automotive, aerospace, defence, mining, cargo handling and agriculture. You can also work in designing and manufacturing consumer devices and technology such as mobile phones, video game consoles and biomedical devices.

### Double degree options

- · Advanced Mathematics (Honours)
- · Advanced Science (Honours)
- Arts Commerce
- · Computer Science
- · Engineering Science
- Fine Arts
- Law
- · Master of Biomedical Engineering
- Science

### Mining Engineering (Honours)

Gain a comprehensive understanding of how complex mining systems work together and pursue a career that meets the global need for minerals. Build a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

### Study areas

- Geotechnical Engineering
- · Mine Design and Planning
- · Mining Engineering
- · Mining Management and Sustainability · Mining Systems
- · Mining Technologies Rock Breakage

### Career opportunities

You can work in areas such as drilling. project management, sustainability, quarry and tunnelling, community relations and management consulting in mining companies, investment firms, finance, banking and government organisations

- Science

### Photovoltaics and Solar **Energy (Honours)**

Immerse yourself in the manufacture and use of solar cells that capture and convert sunlight into electricity. Study technology development, manufacturing, quality control, reliability, policy and system design. This degree prepares you for varied work in an industry that is creating a more sustainable future.

### Study areas

- Cell Interconnection and Encapsulation
- Manufacturing
- Photovoltaics
- · Policy Development
- · Quality Control
- · Reliability and Life-Cycle Analysis
- Renewable Energy Technologies
- Solar Cell Applications
- Solar Energy
- Technology Development

### Career opportunities

You can work in fields including manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formation, programs for developing countries, solar cells and system design.

### Double degree options

- · Advanced Mathematics (Honours)
- · Advanced Science (Honours)
- Arts
- Commerce
- · Computer Science · Engineering Science
- Fine Arts
- Law
- Science

### Renewable Energy **Engineering (Honours)**

Explore the best ways to use renewable energy technologies in this innovative degree. From solar thermal systems and photovoltaics to winds and biomass, draw on UNSW's extensive resources to prepare for work in this growing industry.

### Study areas

- Energy Efficiency and Appliances
- · Geothermal Systems
- Hvdro Turbine Photovoltaics
- · Renewable Energy
- Solar Architecture
- · Solar Thermal Systems
- Tidal and Wave Energy
- · Wind Power

### Career opportunities

You can work in a wide range of fields and companies in designing, installing and operating renewable energy generating systems such as wind, solar, biomass or hydro systems. Other career paths include the construction of energy efficient technology or buildings, policy, programs for developing countries and research organisations.

### Double degree options

- · Advanced Mathematics (Honours)
- · Advanced Science (Honours)
- Arts
- Commerce · Computer Science
- · Engineering Science
- Fine Arts
- Law · Science

### Quantum Engineering (Honours)

This is the first undergraduate quantum engineering degree in the world. You will develop the skills required for tomorrow's engineers. Quantum engineers work in microelectronics, microwave and telecommunications with new applications being discovered every day. You will learn how to work with a range of quantum systems, from high-frequency signals to very small electronic circuits. Learn from expert academics about quantum computers, quantum sensors and quantum communications.

### Study areas

- · Programming Fundamentals
- · Digital Circuit Design
- · Electronics
- · Quantum Physics of Solids and Devices
- Ouantum Devices and Computers
- · Ouantum Communications and Photonic Networks

### Career opportunities

Quantum engineering is rapidly growing worldwide, meaning there are countless career and research opportunities you can pursue. You will gain practical experience in this degree that will prepare you for a successful career in the growing sector of next-generation electronic and communication devices. Career opportunities include leading companies like Microsoft and IBM who have large quantum engineering efforts internationally, including significant quantum activities in Australia. Local start-ups also offer a growing number of employment opportunities.

### Double degree options

- Advanced Mathematics (Honours)
- · Advanced Science (Honours)
- Commerce
- · Computer Science
- Fine Arts

### Surveying (Honours)

Enjoy working indoors and outdoors in surveying that supports construction, infrastructure engineering and mapping and monitoring landscapes. In this degree you will learn how to use GPS, laser scanners, mapping drones and surveying robots to create highdefinition 3D models of the built and natural environments.

### Study areas

- Engineering and Mining Surveying · Cadastral Surveying and Land Law
- · Modern Geodesy
- Navigation and Earth Observation
- · Precise GPS/GNSS Positioning
- Satellite and Airborne Imaging
- · Surveying Applications and Design
- · Business Management
- · Sustainable Land Development and Management
- · Water and Soil Engineering

### Career opportunities

Work in fields including urban and rural development, oil and gas exploration, mining and engineering construction, climate change monitoring, land management and planning, cadastral surveying and land law, hydrographic surveying as well as aerial imaging and cartography.

### Double degree options

- · Advanced Mathematics (Honours)
- Advanced Science (Honours)
- · Commerce
- · Computer Science
- Fine Arts
- Law
- Science

### Software **Engineering (Honours)**

### Assumed knowledge

Mathematics

Become an expert in creating highquality, reliable software systems. You will discover the processes, methods and tools for the design and development of these sophisticated systems, from code-writing to delivery. This degree will give you hands-on experience in software specification, design, implementation and testing with workshops for team-based projects.

### Study areas

- Computing
- Software Engineering
- · Software Development
- · Software Process
- · System Design

### Career opportunities

You can pursue a career in big data, logistics, security, defence, telecommunications, education, health, banking and finance as a software engineer.

### Double degree options

- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- · Commerce
- Fine Arts
- Law
- · Master of Biomedical Engineering
- · Science

This degree is accredited by the Australian Computing Society.

### **Telecommunications** (Honours)

In this degree you will learn about the theory and application of a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You will learn how to design, develop and maintain the transmission of information using different methods across the world.

### Study areas

- Data Communications Systems
- Data Encoding
- Compression and Encryption
- Satellite and Optical Fibre Networks · Voice Communication Systems

### Career opportunities

You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or

### Double degree options

- · Advanced Mathematics (Honours)
- · Advanced Science (Honours) Arts
- Commerce · Computer Science
- · Fine Arts
- Law · Master of Biomedical Engineering

### Bachelor of Civil Engineering with Architecture (Honours)

Program code 3635

CRICOS code 059439D

**Duration** 4 years Entry February

Estimated first year tuition AUD\$45,950

Units of credit (per year/ total) 48/192

### Assumed knowledge

Mathematics and Physics

Structure Civil Engineering Discipline, including Thesis Project in final year

Architecture Subjects

60 day Industrial Training

bachelor's degree with courses in the related field of architecture. Establish a foundation in architectural principles and learn about the connection between architects and engineers. Get inspiration to become a conceptual thinker with a hybrid of aesthetic and structural expertise.

### Study areas

· Architecture

· Civil Engineering

Build on your civil engineering

engineering firms, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultancies.

You will be needed by specialist structural

This degree is accredited by Engineers Australia.

Career opportunities

### Bachelor of Food Science (Honours)

Program code 3061

CRICOS code 001881J

**Duration** 4 years

Entry February, May and September

Estimated first year tuition AUD\$48,145

Units of credit (per year/total)

### Assumed knowledge

Chemistry, Mathematics and Physics

### Structure

30 Food Science Courses in your chosen Major

2 General Education

Build a solid background in mathematics, natural science and applied science to equip you for a career in a variety of food related professions. You will work on food product design, professional food practice and food systems management in addition to completing thesis research.

You will be able to use your skills as a food scientist to address humanitarian issues. The Humanitarian Science and Technology minor gives you the opportunity to apply your knowledge to real humanitarian issues, addressing challenges recognised by the UN Sustainable Development Goals and international humanitarian relief efforts.

### Majors

- Food Science and Nutrition
- · Food Science and Technology

### Optional Minor

· Humanitarian Science and Technology

### Career opportunities

You can pursue a career in food technology. product development, quality assurance, product testing, production and laboratory management, as dietitians or safety

Degree curriculum is approved by the US Institute of Food Technologists.

### Bachelor of Engineering (Honours)/ Master of Engineering (Electrical Engineering)

Program code 3736

CRICOS code 088841J

**Duration** 5 years

Entry February and September

Estimated first year tuition AUD\$48.030

Units of credit (per year/total) 48/240

### Assumed knowledge

Mathematics, Physics For Bioinformatics: Chemistry and Mathematics For Chemical and Chemical Product: Chemistry, Mathematics and Physics For Software: Mathematics

### Structure

Integrated Electrical Engineering Bachelor's and Master's Degree, including two theses

- Minor (4-6 courses)
- 1 Free Elective
- 60 days Industrial Training

You will extend your knowledge whilst working on innovative projects in this five-year electrical engineering degree. You can also study a minor in areas such as mechatronics. computing, commerce, photovoltaics, music, satellite systems, mathematics, psychology or nuclear engineering. With around 35 undergraduate and postgraduate electives to choose from - the widest choice in Australia - you can tailor your degree to suit your interests.

### Study areas

- · Energy Systems
- · Microsystems
- Photonics
- · Systems and Control
- Signal Processing
- · Wireless and Data Networks

### **Broadening disciplines and Minors available:**

- Accounting
- · Business Economics
- Computing
- · Human Resource Management
- · International Business
- · Internet of Things
- Management Marketing
- · Photovoltaics

### Career opportunities

You can work in a variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small. innovative private firms that specialise in new technologies, services or products.

This degree is accredited by Engineers Australia.

### Bachelor of Engineering (Honours)/ Master of Biomedical Engineering

Program code 3768

CRICOS code 085911B

**Duration** 5 years

**Entry** February, May and September

Estimated first year tuition AUD\$48 150

Units of credit (per year/total) 48/240

### Assumed knowledge

Mathematics, Physics For Bioinformatics: Chemistry and Mathematics For Chemical and Chemical Product: Chemistry, Mathematics

and Physics For Software: Mathematics The Bachelor of Engineering (Honours) component of this double degree provides a solid background in mathematics, natural sciences and computing. In the Master of Biomedical Engineering you will learn principles for the development of technologies and solutions in healthcare-related fields such as implantable bionics and robotic surgery.

### Disciplines

- · Bioinformatics Engineering
- · Chemical Engineering
- · Computer Engineering Electrical Engineering
- · Mechanical Engineering

- · Mechatronic Engineering
- · Software Engineering
- · Telecommunications

### Career opportunities

You can pursue careers with pharmaceutical companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

This degree is accredited by Engineers Australia (all specialisations) and by the Australian Computer Society (Computer Engineering & Software Engineering).

## Law & Justice

Tackle tomorrow's big challenges by immersing yourself in the real-world application of law and justice. Sharpen your mind by exploring complex ideas and learn from a faculty that's driven by an ethos of justice for all.

Study at a law faculty ranked 13th in the world and 1st in Sydney.\*

\*QS World University Rankings by Subject 2023.

Graduate job-ready and navigate your career opportunities with dedicated support from a careers service that is exclusively for Law & Justice students.

Embody our ethos of justice for all and gain insight into the criminal justice system through real world experience.

### Join a top global law faculty

Ranked 1st in Sydney and 13th in the world\*, UNSW Law & Justice has been a leader in progressive and rigorous legal education and research for 50 years. We are also home to the highest-ranking group of researchers in criminology in NSW\*\* with an above world standard rating.

\*QS World University Rankings by Subject 2023

### Benefit from interactive classes

Build confidence in your ideas and develop strong relationships with your teachers and peers in our small interactive classes. Our student-focused, interactive teaching environments give you the chance to ask questions, expand your ideas and sharpen your critical and analytical mind. Be part of an innovative learning environment that pioneered Australian legal education.

### Join our societies

UNSW Law Society is one of Australia's most respected student-run law organisations while UNSW Criminology Society has a strong history advocating for social justice.

Both of these societies support your transition to study in Australia through mentoring events, academic and skills workshops that help you excel in your studies. They also organise a range of social and networking activities to help you form new friendships, develop your professional skills and passion for social justice.

### Extensive clinics and internships

Apply what you learn in the classroom to real-world practice with a wide range of work-integrated learning opportunities available. From helping members of the local community at our on-campus community legal centre to undertaking a credit-based work placement at a criminal justice agency, our students put theory into practice.

### Global opportunities

Add a global experience into your degree. You can do an exchange, an overseas elective course or an internship abroad. Overseas electives and exchange can take you to places like Brazil, China, India, Switzerland, USA or Vanuatu. There are more than 80 exchange destinations available at leading universities around the world.

### **Exclusive careers service**

Secure a rewarding job at the end of your studies with support from our dedicated Careers Service. Our careers team collaborate with employers, recruitment agencies and UNSW alumni to advertise a variety of current legal and criminology opportunities exclusively for Law & Justice students. We provide you with the information, connections and job search skills you need to maximise your opportunities in the job market during your studies, and beyond.

### End-to-end legal education

If your ambition is to practise law in Australia, completing a Bachelor of Laws is your first step towards becoming a lawyer, followed by Practical Legal Training (PLT). All law graduates in Australia must complete PLT to practise as a lawyer. UNSW's PLT is the Graduate Diploma in Legal Professional Practice (GDLPP), so you can graduate with all the qualifications you need to launch your legal career.

Step 1 - Complete your Bachelor of Laws (LLB).

Step 2 - Complete your GDLPP at UNSW\*.

**Step 3 –** Apply to the Supreme Court for admission to practice.

For more information, visit unsw.to/plt

Important note for international students: UNSW's Graduate Diploma in legal Professional Practice is not CRICOS registered. International students will require a valid visa other than a student visa (e.g. a temporary graduate visa) to be eligible to apply to this program. We advise international students to seek independent immigration advice about their visa options.

<sup>\*\*</sup>Excellence in Research for Australia 2018

### Sample structure

5 years full-time

Year 1 3  $\times$  Law Core and 5  $\times$  Non-Law Year 2 3 x Law Core and 5 x Non-Law Year 3 5 x law Core and 3 x Non-law Year 4 5 x Law Core and 3 x Non-Law

Year 5 1 x Prescribed Law Elective, 7 x Law Electives

"The reason why I wanted to be part of UNSW Law & Justice was effectively the importance placed on social justice, and the fact that students and alumni can make a difference and should make a difference."

Khushaal Vyas, Bachelor of Laws (LLB) / Bachelor of Arts (Politics and Criminology) alumnus

The Bachelor of Laws at UNSW is studied as a double degree, giving you the opportunity to combine your law degree with one of 21 partner degrees. Studying two degrees gives you a better understanding of law in practice, is highly valued by employers and will expand your career options.

You will benefit from our interactive teaching approach, which emphasises learning through experience, and the analytical and practical skills needed in a wide range of careers.

Please note: While there is no assumed knowledge for the Bachelor of Laws component of your double degree, there may be assumed knowledge for the non-law component. Please check with the relevant faculty for this detail.

### Career opportunities

Your double degree will give you a distinct advantage. You will be prepared for successful careers across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services,

are highly sought after by major law firms, private and public-sector institutions in key areas of legal practice including banking and finance law, commercial law, criminal law, intellectual property law, international law, litigation, media law and public and administrative law. Professional recognition

media, science, urban planning, government and

non-government organisations. Our graduates

As a graduate of a top 15 global law faculty, the UNSW Bachelor of Laws (LLB) is your key to seeking admission to the legal profession. The UNSW LLB is accredited by the Legal Profession Admission Board (LPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. In addition, in order to be admitted to practice you will also have to complete practical legal training (PLT) which you can do through UNSW's Graduate Diploma in Legal Professional Practice (GDLPP).

Certificates to practise as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively

To practise law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practise, regarding the recognition of the UNSW law degree for registration purposes.

ur Medicine students graduate with a Bachelor of Medical udies and a Doctor of Medicine, launching them into their ern year and beginning their career in medicine. With further udies and training, graduates can pursue careers in a wide riety of areas such as General Practice, Surgery, Psychiatry, ernal Medicine, Paediatrics, Obstetrics & Gynaecology, tical Care and more.

# Study one of the most in-demand degrees

The UNSW Bachelor of Medical Studies/Doctor of Medicine is one of the most popular degrees in Australia for aspiring medical professionals due to the quality of training by great teachers, accomplished researchers and experienced clinicians. Secure a place in this highly soughtafter program to stand out from the pack and set yourself up for an exciting career in medicine.

### Learn from leaders in the field

We are driven by innovation and excellence in health and medicine. UNSW is recognised as one of the top medical faculties in the world\* and is among Australia's leaders in health education and research. Learn from world leaders in the fields of cancer, neuroscience, mental health, addiction, infectious disease, immunity and inflammation, and noncommunicable disease including cardiovascular disease.

\*QS World University Rankings by Subject 2023

# Access world class biomedical and clinical training facilities

Take advantage of clinical training in some of Australia's largest metropolitan and rural hospitals. You will also benefit from UNSW's leadership role in Sydney's Randwick Health & Innovation precinct. You will have access to cutting-edge learning environments, which use research to create positive impacts in the community.

### Hands-on learning

Immerse yourself in hands-on learning with patient interactions throughout many of our degrees. Your practical study will help you develop as a skilled health professional and innovative clinician with strong research and teamwork skills.

### Applying for the Bachelor of Medical Studies/ Doctor of Medicine

If you are an international student applying to study at UNSW Medicine, you will be ranked on the following criteria:

- 1. Academic merit
- 2. Admission tests (ISAT or UCAT ANZ)
- 3. An interview with UNSW Medicine

We combine these three measures to rank all applicants. Applicants are selected based on the highest rank determined by all three measures.

### **Academic Merit**

### Secondary School & High School Students

Academic merit is based on your academic results from Secondary School or High School. View academic eligibility requirements for each UNSW Medicine & Health degree on page 94 of this guide.

### **UNSW Foundation Studies Students**

UNSW Foundation Studies is an alternative entry pathway to study at UNSW.

While there is no set GPA for the UNSW Medicine program as only the top candidates are accepted, a minimum GPA of 9.0 for international students studying Foundation Studies must be met in order to be considered.

UNSW Medicine will also consider Foundation Studies results from the Group of Eight (Go8) Universities.

### Admissions Tests (ISAT or UCAT ANZ)

### The International Student Admission Test

The International Student Admission Test (ISAT) is a general aptitude test that measures critical and quantitative reasoning. The 3-hour test can be taken at testing centres around the world.

All international applicants are required to complete the ISAT with a minimum score of 165 for consideration. For more information about ISAT or to locate a test centre, visit <u>isat.acer.edu.au</u>

## The University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ)

The UCAT ANZ is a two-hour computer-based test. The test assesses a range of abilities through five separately timed sub-tests.

Applicants must reach the 50th percentile on the UCAT ANZ to be considered for the interview stage of the application process. The Situational Judgement mark from the UCAT ANZ will not be considered.

To learn more or register for the test, please visit ucat.edu.au

### Structure

Phase 1 (Biomedical, Clinical and Social Sciences)

Phase 2 (Integrated Clinical Courses and Independent Learning Project (ILP) or Honours)

Phase 3 (Clinical Placements)

This award-winning double degree is the most in-demand undergraduate degree for high school leavers in NSW. Starting with your first course, you will be learning in real hospitals and within our state-of-the-art Clinical Skills Centre, gaining hands-on experience and vital clinical skills to tackle the constantly evolving and complex issues in the medical industry. You will become a life-long learner with a high level of professionalism and an outcomes-based approach to your practice.

Although the entire program needs to be completed, it can be broken down into two parts - the BMed and the MD components. The program consists of:

### Bachelor of Medical Studies (BMed)

Collaborative learning and teamwork are cornerstones of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, which includes basic medical and social sciences examining the human life cycle, social, ethical and legal issues. You will also sharpen your clinical and communication skills from Phase 1.

In Phase 2 you will have increased clinical exposure through hospital placements combined as well as ongoing learning in biomedical sciences.

### Doctor of Medicine (MD)

The MD includes the Independent Learning Project (ILP) or Honours followed by clinical courses in internal medicine, surgery, psychiatry, primary care, obstetrics, gynaecology and paediatrics. There is also an elective clinical course that you can undertake interstate or overseas. Phase 3 consists of ten eight-week courses with a clinical focus and includes relevant content from the biomedical sciences and the social sciences. When you complete these phases, you will receive a provisional registration so you can begin a hospital internship before being recognised as a medical practitioner.

### Career opportunities

Graduates who obtain full registration from the Medical Board of Australia are able to work as medical practitioners in hospitals and private practices. Further study and experience will allow you to specialise in a specific area of medicine, such as general practice, paediatrics, cardiology, oncology, general surgery, orthopaedics, pathology, radiology, or psychiatry. There are also career opportunities in medical research, health policy and medical education.

### Professional recognition

After completing the formal degree requirements for the award of the BMed/MD degrees, you will be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals in an internship before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

For further information on medicine entry visit unsw.to/medhowtoapply

### Double degree options

• Arts

### Application process for international students applying for UNSW Medicine & Health - Bachelor of Medical Studies/Doctor of Medicine.

For detailed information on how to apply for Medicine, refer to <u>unsw.to/medhowtoapply</u>

	Details	Closing Date	Australian or New Zealand HSC or International Baccalaureate	All other students
Step 1	University Application Form – apply through Universities Admissions Centre <u>uac.edu.au</u>	Check UAC website	•	
OR	All other applicants – apply through UNSW Admissions apply.unsw.edu.au.	30 November 2023 <sup>1</sup>		•
Step 2	Apply and sit the International Student Admission Test (ISAT) or the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ).	For application deadlines and testing dates, visit: isat.acer.edu.au ucat.edu.au	•	•
Step 3	Medicine Application Form – complete online at apply.med.unsw.edu.au	30 November 2023 <sup>2</sup>	•	•
Step 4	Selected students will be offered an online interview.		•	•
Step 5	Offer of a place – offers will be made once academic, ISAT/UCAT ANZ and interview results are all available.		•	•

<sup>(1)</sup> Applicants should apply earlier if possible, as places may fill prior to the closing date.

### **Health Professional Programs**

Shape the future of health with our new suite of degrees in pharmacy, physiotherapy, exercise physiology, and dietetics and food innovation.

Our unique primary and allied health programs offer extensive practical and interdisciplinary training to prepare you for your future profession. You will graduate with both a bachelor's and a master's degree, giving you a competitive edge in the workforce.

We offer an embedded professional practice stream, where you will learn alongside students from our other health programs to gain the critical interprofessional skills you need for real-world practice. With a focus on social justice and ethical practice, you will be able to understand and respond to the health needs of diverse populations as you transform traditional practice and drive healthcare innovation

Visit unsw.to/futureofhealth to find out more.

### Practical

### Build your confidence

Your hands-on training starts in year one, giving you time to grow as a health professional. We offer extensive clinical placements and experiential learning opportunities across a wide range of settings.

### Career-focused

### Prepare for practice

Our new programs include an embedded professional practice stream that will prepare you to work in integrated healthcare teams. You will learn alongside students from our other health programs as you develop your professional skills.

### Inclusive

### Shape a better future

Drive the change you want to see with a degree grounded in advocacy, equity and social justice. You will learn how to be professional, ethical and understanding of the needs of diverse populations.

<sup>(2)</sup> ISAT tests are held from March until November. ISAT test result must be available before 30 November at the latest, however, earlier application is strongly recommended.

### Bachelor of Nutrition/Master of Dietetics & Food Innovation

Program code 3894

CRICOS code 109397B

**Duration** 5 years

Entry February

Estimated first year tuition AUD\$48,450

Units of credit (per year/total) 48/240

Assumed knowledge

Chemistry, Mathematics

### Structure

Nutrition

Dietetics

+ Food Science

+ 100 days of Work Placement

Professional Practice

Build healthier communities with a comprehensive education in nutrition, health and food systems. This unique degree explores how food and nutrition optimise health, treat illnesses and prevent chronic diseases. At the end of the five years, you will graduate with a Bachelor of Nutrition and a Master of Dietetics and Food Innovation, giving you a competitive advantage in the job market.

You will gain foundational training in anatomy, physiology, chemistry, biology and biochemistry and examine all aspects of the food value chain from agriculture, food technology, manufacturing and the retail sector to innovations and digital technologies. With interdisciplinary courses ranging from food production to inclusive eating practices, this degree will expand your career options and prepare you to work both within and outside the healthcare sector.

### Career opportunities

This sought-after combination of nutrition, dietetics and food innovation unlocks many career possibilities. Dietetics will prepare you to work as a dietitian in hospitals, private practices and health organisations. Food innovation provides career opportunities in the food sector such as regulation, product development and innovation, agriculture and not-for-profit organisations. This degree also equips you for a career in consulting, advocacy, research, government, food marketing and food sustainability.

### Professional accreditation

UNSW has received Program Qualification from Dietitians Australia (DA) and will seek accreditation within the required timelines, with the aim of achieving accreditation prior to graduation of the first cohort of students. A graduate of an accredited dietetic program is eligible to become a member of DA, and join the Accredited Practising Dietitian (APD) Program. Full details of the stages in the DA accreditation process are available at <a href="mailto:dietatics.org.au">dietatics.org.au</a>. Direct inquiries to the Dietetics Program Authority, Associate Professor Sara Grafenauer.

# Bachelor of Exercise Science/Master of Physiotherapy and Exercise Physiology

Program code 3896

CRICOS code 109399M

**Duration** 5 years

Entry February

Estimated first year tuition AUD\$48,450

Units of credit (per year/total) 48/240

**Assumed knowledge** Chemistry, Mathematics

### Structure

Exercise Science, including 140 hours of Placement

Exercise Physiology, including 360 hours of Clinical Placement

+ Physiotherapy, including 1400 hours of Clinical Placement

Professional Practice

Push the boundaries of traditional practice with extensive education in exercise science, physiotherapy and exercise physiology. With expertise across three complementary disciplines, you will have a unique set of professional skills to help people recover from injury and illness and maintain long-term health and wellbeing.

Prepare yourself for an exciting career in clinical settings such as hospitals or private practices, and non-clinical roles such as working with sporting teams or leading advocacy in healthcare management and policy. In just five years, you will gain both a bachelor's and a master's degree, accelerating your career in health.

### Career opportunities

You will graduate prepared for a career as a physiotherapist, exercise physiologist, exercise scientist, workplace rehabilitation consultant, wellness coordinator or clinical research assistant. You will have the skills to work with healthy and chronic disease populations across various settings, including public and private hospitals, private practice, aged care, mental health clinics, community exercise and physical activity programs, workplace health and rehabilitation, and sporting organisations.

### Professional accreditation

This program has received Qualifying
Accreditation from Exercise and Sport Science
Australia (ESSA) and has been accredited by
the Australian Physiotherapy Council (APC) for
2 years with conditions. UNSW is committed to
fulfilling all ongoing accreditation requirements
prior to graduation of the first cohort of students.

### Bachelor of Pharmaceutical Medicine/Master of Pharmacy

Program code 3895

CRICOS code 109398A

**Duration** 5 years

Entry February

Estimated first year tuition AUD\$48,450

Units of credit (per year/total) 48/240

Assumed knowledge

Chemistry, Mathematics

### Structure

Foundational Sciences

Core Pharmacy Courses

+

350 hours of Clinical Placement

Electives, International Experience or Research Project

Professional Practice

Join the forefront of pharmacy with a comprehensive education in pharmaceutical sciences, pharmacy practice and management. Gain a breadth of skills and knowledge beyond traditional pharmacy to become a highly sought-after practitioner in the healthcare industry.

This future-focused degree reflects the complexity and evolution of the profession, developing your skills in a range of current and future areas of practice.

This degree will prepare you for a career as a pharmacist in clinical practice, within the pharmaceutical industry or other

healthcare roles such as in health policy

### Career opportunities

Pharmacists are essential to the healthcare system - providing services such as education, medication reviews, patient counselling and disease prevention. Pharmacists work across a range of settings, including community and hospital pharmacy, government and nongovernment organisation roles, pharmaceutical industry positions in drug development, regulatory affairs, clinical trials, medicines information and marketing, consulting, research positions at academic and research institutions, general practice and aged care.

### Professional accreditation

This program is accredited by the Australian Pharmacy Council and is approved by the Pharmacy Board of Australia as a qualification leading to registration as a pharmacist in Australia.

Upon completion of an Australian Pharmacy Council accredited and Pharmacy Board of Australia approved program, graduates are required to complete the Pharmacy Board of Australia's registration requirements to be eligible to apply for pharmacist registration in Australia.

# Bachelor of Applied Exercise Science/Master of Clinical Exercise Physiology

or regulation.

 $\textbf{Program code}\ 3897$ 

CRICOS code 110656M

**Duration** 4.4 years

**Entry** February

Estimated first year tuition AUD\$48,450

Units of credit (per year/total) 48/216

Assumed knowledge

Chemistry, Mathematics

### Structure

Exercise Science, including 140 hours of Placement

Exercise Physiology, including 360 hours of Clinical Placement

Professional Practice

Accelerate your career with a comprehensive education in exercise science and exercise physiology. This combined degree explores how exercise is used as a rehabilitative and preventative therapy and equips you to care for healthy and chronically ill patients across two areas of practice. You will gain both a bachelor's and a master's degree in just over four years. When studied separately, these two degrees would normally take a minimum of five years to complete.

Your study will include strength and conditioning, sports nutrition and in-depth clinical knowledge of cardiovascular, neurological, and musculoskeletal rehabilitation. You will undertake a variety of placements and learn how to prescribe exercise to manage a wide range of health conditions and prevent the onset of common illnesses.

### Career opportunities

Graduate equipped to work as an exercise scientist, exercise physiologist, workplace rehabilitation consultant, wellness coordinator or clinical research assistant. You will have the skills to work with healthy and chronically ill populations across various settings, including public and private hospitals, private practice, aged care, mental health clinics, community exercise and physical activity programs, workplace health and rehabilitation.

### Professional accreditation

This program has received Qualifying Accreditation from Exercise and Sports Science Australia (ESSA).

### Bachelor of International Public Health

Program code 3880

**Duration** 3 years (face-to-face [includes blended learning] or online option)

**Entry** February, May and September

Estimated first year tuition AUD\$34,260

Units of credit (per year/total) 48/144

Assumed knowledge English

### Structure

Introduction to Global and Public Health

Core Public Health Disciplines

Electives and Public Health Capstone (Project or Internship) Want to work with passionate health professionals to find solutions to population and global health problems? Unlike other Australian undergraduate public health programs, the Bachelor of International Public Health (BIPH) takes a global perspective to build the skills required to help improve the health of populations worldwide.

Taught in a dual mode, you can complete this degree in person on campus or entirely online (if this suits your lifestyle) - or a combination of both. Study your way!

Core principles of public health practice are taught across a range of key areas such as infectious disease challenges, Indigenous and environmental health, women and children's health, and global chronic disease prevention. In your final year, you will complete a capstone course to gain practical experience in an area you are passionate about. Capstones are tailored to your interests and may include the opportunities to study abroad, undertake ground-breaking research, or engage in new and game-changing health policy development.

### Maiors

· International Public Health

### Career opportunities

You will graduate with the skills required to ioin the public health workforce in Australia or overseas and be ready to take on positions involving epidemiology analysis, community engagement for social change, policy development, health promotion, or outbreak response. You may contribute to population health programs delivered by local or state health departments or by international agencies or charities, such as the Red Cross. You may find vourself working in teams that strive to reduce the burden that diseases place on the community, or pursue a research career seeking answers to questions that will truly impact peoples' lives. Discover the dynamic and varied career opportunities available as a graduate of the BIPH.

The BIPH has been a highly flexible course. Being able to study from anywhere in Australia has been crucial to my continued study. My study of the BIPH has inspired me to pursue involvement in the delivery of population health programs and policies. Using the principles and approaches I have learnt throughout the BIPH, I feel I will be prepared to take part in this highly rewarding work.

Callum Moses,
Bachelor of International Public Health

International students are not eligible for an Australian student visa for this program.

### Bachelor of Vision Science

Program code 3181

CRICOS code 092962K

**Duration** 3 years

Entry February

Estimated first year tuition AUD\$48.300

Units of credit (per year/total) 48/144

### Assumed knowledge

Mathematics, Chemistry, Physics and English

### Structure

Vision Science Core Courses + General Education Vision Science studies the mechanisms that allow us to visualise the world. At UNSW Optometry and Vision Science, the largest optometry school in Australia, you will learn about the sensory processes that underlie vision and the development and use of vision-related technologies. This degree develops scientists who understand how we see and interact with our world.

You will develop a deep understanding of a broad range of areas including sensation and perception, psychophysics, optics, anatomy and functioning of the eye, oculo-visual disorders, introductory pharmacology, visual aids and dispensing, the consulting room interface, research design and methods and experimentation.

### Career opportunities

You will be equipped with the core skills and in-depth knowledge to work across the eye health sector spanning clinical settings, health promotion in government and non-government organisations and the ophthalmic industry.

You can work in wide range of optics, vision science and ophthalmology research laboratories that develop vision correction devices such as contact lenses, spectacles, ocular implants, imaging, and drug development.

You may be interested to pursue further study in a clinical discipline in optometry, orthoptics or rehabilitation for people with vision impairment or seek higher studies with an honours year, leading to a Masters or PhD.

### Bachelor of Vision Science/Master of Clinical Optometry

Program code 3182

CRICOS code 092960A

**Duration** 5 years

Entry February

Estimated first year tuition AUD\$48,470

Units of credit (per year/total) 48/240

### **Assumed knowledge**Mathematics, Chemistry,

Physics and English

### Structure

### Years 1-3

General Education

Vision Science Core Courses

### Year 4-5

Clinical Optometry Masters Courses

Clinical Experience

This degree combines the theory behind vision science with the clinical art of primary eye care, with graduates able to register as an optometrist in Australia. You will study the physiology of the eye, the diagnosis and management of people with ocular disease or with special needs (children, low vision, sports vision, workplace needs), the psychophysics of vision and the neuroscience of the brain.

The five-year program is broken down into two parts – the three-year Bachelor of Vision Science and the two-year Master of Clinical Optometry.
The program consists of:

### Bachelor of Vision Science

Through studies in vision science, you will learn about the optics of lenses and instruments, the anatomy and physiology of the eye, eye diseases and the psychophysics of vision and neuroscience.

### Master of Clinical Optometry

This component is your pathway to becoming a registered optometrist in Australia, New Zealand and parts of Asia. Gain practical experience in UNSW's Optometry Clinic and through external placements as well as connect with industry-leading research institutes including the Centre for Eye Health. You will gain broad experience in optometric eye care and training on how to work and communicate with patients and other practitioners.

### Career opportunities

You can pursue a career as an optometrist, and develop interest and experience in paediatric optometry, contact lenses, public health, sports vision or low vision rehabilitation. You can also seek careers in eye and vision research or as a consultant to ophthalmic industries.

### Professional accreditation

Graduates of this program can apply to register with the Optometry Board of Australia (OBA), the Optometrists and Dispensing Opticians Board (ODOB) New Zealand and other registration boards in Asia where our program is recognised.

Contact the relevant Registration Board to enquire if the program is registered in your country.

# Science

Think big and form deeper connections with our world. Allow your curiosity to be inspired as you discover your own path, exploring areas of science to acquire the skills needed for tomorrow's workforce.

Tailor your degree at one of the largest and most diverse science faculties in Australia, where your choices include flexible double degrees and cross-disciplinary options.

With eight subjects ranked in the top 50 globally,\* join a community of world-leading researchers and inspiring educators who are using science to improve lives and communities around the world.

Reach your career goals with industry relevant skills and training. Tap into our network of 400+ industry and research partners to start building your own professional connections.

For more information, visit <u>unsw.to/science</u>

\*QS World University Rankings by Subject 2023

### Embrace a career with impact

UNSW Science is where bright minds come together to learn, explore and discover. Join a vibrant and welcoming community that prepares you for real-world challenges and future leadership opportunities. In our technology-centric world, there's increased demand for skilled scientists in a range of careers. Benefit from our leading industry partners and be equipped to achieve your career goals and make an impact.

### Learn from world-class teachers

Study with innovative, passionate and pioneering educators, including quantum physicist and former Australian of the Year Professor Michelle Simmons AO, Nobel Laureate Sir Fraser Stoddart and ground-breaking recycling scientist and 2022 NSW Australian of the Year Professor Veena Sahajwalla.

### Make profound scientific discoveries

Collaborate, explore and achieve with world-class laboratories, clinics and simulators giving you the tools to explore new frontiers and make meaningful scientific discoveries to benefit society.

### **Industry experience**

### Work Integrated Learning

Gain real-world experience and industry connections as part of your degree. Work Integrated Learning (WIL) courses give you the opportunity to gain hands-on experience in a professional setting through external work placements.

All UNSW Science students have the opportunity to complete work integrated learning as part of their degree.

Previous students have interned with a range of organisations including Qantas, MaxiMinds, Surf Life Saving Australia, the Atlas of Living Australia, AbbVie and the Science, Economics and Insights Division of the Department of Planning and Environment.

### STEM Career Launchpad

At UNSW Science, your career development starts from day one. The STEM Career Launchpad is a program that you can complete while you study. It offers personalised career development guidance, support and opportunities to help you make informed choices about your future. You'll have the opportunity to explore different STEM careers, gain industry experience and expand your professional network.

### Co-op Program

Co-op is a scholarship program that combines a single degree with three to five industry placements. A Co-op scholarship provides financial support to the value of \$19,600 (tax-free) per annum to fund your studies. Gain 15-18 months of relevant industry insights, career networks and benefit from professional leadership and development in this highly regarded degree program.

### Lead your learning with SciConnect

SciConnect is a digital platform that supports students in our Bachelor of Science and Bachelor of Advanced Science (Honours) programs. This tool will help you settle into university, track your professional development and showcase your skills to future employers.

SciConnect focuses on four key areas to help you get the most out of your student experience:

### 1. Orientation

Find out everything you need to know about life as a UNSW Science student, from answering questions to helping find your place in the UNSW Science community. Learn about the different areas of study, be guided on choosing your major and making important decisions in your program to gain the skills you need for your future career.

### 2. Co-curricular involvement

Complement your studies with experiences beyond the classroom. Through our diverse student cohorts and industry connections, you'll have access to a range of co-curricular opportunities.

### 3. Career development

Track, plan and visualise the development of your professional skills throughout your degree. See your skills grow and identify additional learning areas and opportunities.

### 4. Graduate portfolio

Develop a portfolio of your knowledge, skills and professional experiences. The graduate portfolio demonstrates to future employers how your time at university prepared you for career success.

SciConnect is reimagining science education with a greater focus on learning, personal development and career-readiness. It ensures you gain a holistic education that values employability alongside academic success.

Non-Science Courses

### Structure

Aviation Flying Core Courses General Education

Explore the science behind aviation, earn your flying licences and get ready to take on global opportunities within the aviation sector. This degree not only educates and trains pilots to the highest commercial standards, it also develops future industry leaders and managers. You will combine the study of theory with up to 200 hours of flight training and about 30 hours of simulator training.

### Career opportunities

This degree will provide you with the skills and accreditation to work as a pilot for regional or major commercial airlines, training centres, charter flights or as an aerial surveyor.

### Professional recognition

This degree is professionally recognised.

### Important information

You will need to pay for the flight training costs portion of this degree. In 2024, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot License (CPL). Instrument Rating - Multi Engine Aeroplane, and ATPL (Frozen) is \$145,500 (some elective fees and extra flying fees may apply). Additional flying costs are incurred depending on your choice of third year flying practicum and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.

### Additional selection criteria

In addition to your ATAR (or equivalent), Aviation (Flying) requires an internal application submitted directly to the UNSW School of Aviation to arrange an interview. If eligible, you will receive an invite to an interview around 2 weeks after your internal application form is submitted. If successful in gaining admission to the program, you will need to obtain a Class 1 Civil Aviation Authority (CASA) medical examination before flying training commences in your second year.

### Bachelor of Aviation (Management)

Program code 3981

CRICOS code 018567B

**Duration** 3 years

Entry February, May and September

Estimated first year tuition AUD\$47,425

General Education Courses outside of Science and

To create metals, ceramics, polymers and composites, you need a solid background in Materials Science. In this degree, you will learn about developing highperformance materials that are lighter, greener and stronger - for use in every aspect of technology. You will develop the theoretical and practical skills to improve materials for aerospace, automotive, biomedical and information technologybased industries.

### Career opportunities

You can work in areas such as fundamental scientific research, manufacturing and materials processing, quality control, safety, the environmental impact of materials and the commercialisation of materials technologies. In Australia and around the world, graduates work in fields of nanotechnology, biomedical materials and electronic materials.

### Majors

- · Ceramic Engineering
- · Functional Materials
- · Materials Engineering
- Physical Metallurgy Process Metallurgy

### Double degree options

- Commerce
- Engineering Science in Chemical Engineering
- Master of Biomedical Engineering

### Professional accreditation

This degree is accredited by Engineers Australia.

### Bachelor of Medical Science

Program code 3991

CRICOS code 030459E

**Duration** 3 years (+ 1 year Honours option)

**Entry** February

Estimated first year tuition AUD\$48,085

Units of credit (per year/ total) 48/144

Assumed knowledge

Mathematics and Chemistry

General Education

Medical Science is the foundation that the practice of medicine is built on. It incorporates facets of several scientific disciplines to uncover how the body functions - reactions to disease, drugs, treatments, and the role of genetics. This degree can prepare you for a career in biomedical research and graduate

### Career opportunities

medical or paramedical studies.

You can work in fields such as medical research, paramedical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

### Majors

- · Human Anatomy
- Human Pathology · Medical Immunology
- · Medical Microbiology · Medical Pharmacology
- Medical Physiology
- · Molecular Biology
- Molecular Genetics
- Neurobiology

### Bachelor of Medicinal Chemistry (Honours)

Program code 3999

CRICOS code 088848B

Non-Science Courses +

1 Year Honours

Explore biology, biochemistry, pharmacology and essential chemistry techniques in this multidisciplinary degree. Your study will encompass all aspects of new drug design, through the many steps from the design and synthesis of novel drug candidates, to their biochemical effects, testing regimes, and regulatory and ethical considerations. In your honours year, you will complete a supervised research project.

### Career opportunities

You will have skills in modern molecular biology and pharmacology, supported by a comprehensive background in chemistry, with relevant synthetic skills necessary for synthesising complex drug candidates. You will be needed in local and global pharmaceutical companies involved in modern drug design, as well as in research, government and education sectors.

### Double degree options

• Law

### Bachelor of Psychological Science

Optional Complementary Major

Free Electives (from any faculty at UNSW)

General Education Non-Science Courses

If completing a complementary major outside of the Faculty of Science, students are deemed to have met their general education requirements.

Psychology has rapidly become one of the most relevant fields of study for clinicians and corporate professionals. Explore the mind and enhance your career prospects by combining an accredited three-year degree in psychology with a complementary major in related areas including marketing, human resource management, criminology, linguistics, philosophy, vision science and neuroscience.

### Career opportunities

Psychologists are employed in a broad range of areas including advertising, counselling, developmental care, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management, statistical and data analysis.

### Majors

- Criminology
- · Human Resource Management
- Linguistics
- Marketing
- NeurosciencePhilosophy
- Vision Science

### Double degree options

• Law

### Professional accreditation

This is an Australian Psychology Accreditation Council (APAC) accredited three-year undergraduate sequence in Psychology. This program is the first step on the six-year pathway to becoming a registered professional psychologist.

### Bachelor of Psychology (Honours)

Program code 3632

CRICOS code 088874M

1 Year Honours

Understand the inner working of our minds and behaviour with a degree in Psychology. Your study will include memory, learning, cognition, perception, neuroscience, and developmental, forensic, social, and abnormal psychology. Gain an integrated and comprehensive understanding of the main discipline areas of psychology while developing strong research, analytical and communication skills

### Career opportunities

You can work in a range of organisations as a psychologist within the public and private sector, such as counselling, developmental care, public, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management and statistical and data analysis.

### **Professional accreditation**

This is an Australian Psychology Accreditation Council (APAC) accredited four-year undergraduate sequence in Psychology. This degree is the first step on the six-year pathway to becoming a registered professional psychologist.

### Progression requirements

Entry into the fourth year Honours program is competitive and subject to academic performance, based on your Psychology Average (Distinction minimum) within your degree. Students may exit the program after three years with a B Psychological Science award if they are unsuccessful in applying for entry into Honours.

### Double degree options

Law

1 Year Honours

Are you a high achiever with a keen mind wanting to specialise in mathematics? If you are interested in the increasing range of quantitative careers in areas such as finance and environmental modelling, this degree offers a strong foundation. The four-year degree combines advanced coursework with an honours-level research project.

### Career opportunities

You will be able to pursue professional opportunities in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education and research.

### Majors

- Advanced StatisticsApplied Mathematics
- Pure Mathematics

### Double degree options

- Actuarial Studies
- ArtsCommerce
- Computer Science
   Economics
- Engineering (Hons)
- Law

# Entry requirements

To gain entry to UNSW, you will need to meet both the academic entry requirements and the English language requirements.

### Academic entry requirements

### High school studies

Direct entry applicants to UNSW must hold acceptable high school qualifications for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on pages 93-96. If your qualification is not listed, contact us to check whether it is recognised, enquiry.unsw.edu.au

### **UNSW College pathway programs**

UNSW College offers pathway programs for international students who do not meet the entry requirements for a UNSW degree program, or whose high school qualifications are not recognised by UNSW. After completing a UNSW Foundation Studies Program in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. after successfully completing your Diploma you will enter 2nd year (except Business Diploma which has a requirement of an average grade of 60%). You can enrol directly into the second year of the selected degree program. Students who complete the Diploma as well as their undergraduate degree will graduate with two UNSW qualifications. For further information about UNSW College pathway programs, see pages 98-102 or visit unswcollege.edu.au

### Recognised prior study

Prior study can be recognised for applicants with diplomas from recognised institutions. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, we recommend you confirm accreditation before committing to a program. To confirm whether your study can be recognised, visit <a href="mailto:enquiry.unsw.edu.au">enquiry.unsw.edu.au</a>

### University transfer

To transfer from your current university to UNSW you must have completed at least one year (full-time equivalent) of tertiary study at a recognised university. Entry will be based on academic results during these studies. Your high school results may also be taken into consideration for your admission to UNSW.

To confirm the admission and whether your studies can be recognised, visit <a href="mailto:enquiry.unsw.edu.au">enquiry.unsw.edu.au</a>

### English language entry requirements

If English is not your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an acceptable English language test taken in the last two years prior to starting your studies at UNSW.

The following table outlines some common English qualifications. UNSW also accepts a number of English language tests and English preparation courses which can be undertaken to meet the university's English language requirements.

For further information about UNSW's English language requirement policy, visit <a href="mailto:unsw.edu.au/elp">unsw.edu.au/elp</a>

### \*Entry requirements to Bachelor's and Diploma programs may not appear equivalent across INT ATAR and GCE AL. This is due to different assessment rubrics used by UNSW Sydney and UNSW College

### Direct entry table key and notes

### Entry guide key

- This degree can be combined with other degrees. Refer to the UNSW Degree Finder for double degree combinations Admission is determined at the higher entry requirement of the two programs
- There are limited places available in this program. While offers will be made progressively on receipt of application applicants should be aware that strict quotas apply for this program and early submission of application is advised. Score indicated are a guide to the minimum
- Special program notes

### Aviation (Flying)

In addition to UAC or direct admission applications, all applicants must complete the application form available from the School website at unsw.to/  $a \verb|viationflyinginternalapplication|\\$ Interviews will be arranged with applicants after receipt of the application form

Students will need to obtain a CASA beginning flying training.

The Music specialisation in this program has additional selection criteria. All applicants must pass the UNSW Musicianship test and if successful, submit a performance auditio for consideration by the School of the Arts & Media. Find further details at unsw.to/music auditions

All international applicants are required to sit ISAT or UCAT ANZ. Applicants must also submit an online registration form available from unsw.to/medhowtoapply and read the faculty admissions information carefully

### **UNSW Diplomas**

UNSW Diplomas in Architecture, Business, Computer Science, Engineering, Media and Science are a pathway into the second year of a UNSW Bachelor of Architectura Studies, Bachelor of Commerce, Bachelor of Engineering (Honours), Bachelor of Interior Architecture (Honours), Bachelor of Landscape Architecture (Honours), Bachelor of Media, Bachelor of Science (Computer Science) and Bachelor of Science.

### Honours Year programs

A number of options are available. For further details refer to unsw.to/degrees

### **Program information**

**Indian School Certificate** 

examined subjects.

Awarded by ICSE, overall average from

English and the best three externally

Secondary School Certificate)

Indian State Boards (Indian Higher

Average of English and the 3 best subjects in the Higher Secondary School Certificate

(HSSC) in the states of Maharashtra, Tami

Nadu, Karnataka, India HSSC issued by

### Other accepted qualifications oundation Year programs of all Australian

Group of Eight universities. NCUK International Foundation Year Entry requirements are based on he aggregate of 3 subject modules ompleted in the NCUK International oundation program, EAP/EAPPU/RCS are excluded. Total score is calculated using ollowing values:

x\*=6, A=5, B=4, C=3, D=2 and E=1.

General Certificate of Education (GCE) Advanced Level (A2) subjects only: Comparable qualifications include the Pearson-Edexcel International dvanced Levels and the University f Malta Matriculation Certificate

ternational Baccalaureate (IB) iploma: Completion of the IB Diploma r Bilingual Diploma.

### Forecast or Predicted results

orecast or predicted results will be onsidered from applicants sitting the A evels or the IB Diploma. Results mus e printed on official school letterhead nd include the institution stamp and ignature of the Principal Registrar or cademic Director, Results should be dated after 1 January for entry in Term 3 September intake), and after June for Term 1 (February intake)

he total predicted aggregate must be 2 oints higher than the total final aggregate equired for admission.

hese results are not accepted for Law Medicine and Optometry programs.

### cepted Qualifications Key

- the first year of a Bachelor degree
- first year of a 4-year 2-3 year Bachelor
- Completion of a polytechnic diploma

### Important information regarding UAC

The Universities Admissions Centre (UAC) processes undergraduate program applications r institutions in the Australian states of New South Wales and the Australian Capital Territory

### Do I need to apply through UAC?

International students who are completing one of the following qualifications must apply through

a) an Australian Year 12 qualification in Australia

b) the International Baccalaureate (IB) in Australia OR overseas (optional)

c) the New Zealand National Certificate of Educational Achievement (Level 3)

If you do not fall into the above categories, you must apply directly to UNSW at applyonline.unsw.edu.au

### How do I apply through UAC?

mentioned categories must apply through UAC International uac.edu.au/international The website will guide you through the process and also has a section with frequently

Alternatively, UNSW-authorised agents can assist you with the application process.

During the process, you will receive a UAC application number and UAC PIN. You will need to keep these details to be able to log in to the UAC website to check or change your (should you meet the entry requirements of you chosen program)

### When do I need to apply? Visit the UAC website at uac.edu.au

for information on application dates for study

### What is the cost to apply via UAC?

payable by credit, debit card or via PayPal. This charge covers applications to multiple programs

### How are my results released to UAC?

allow your results to be released directly to UAC ntact your school's IB/HSC coordinator before the UAC deadline to confirm that your school has submitted this request on your behalf.

### Lam an IB student. Can I receive an offer based on my predicted grades?

be considered for admission in Term 3 The total predicted aggregate must be 2 points higher than the total final aggregate equired for admission The statement of predicted grades must

· Be issued on school letterhead and signed by the Principal, School Director, Deputy School Director, or Registrar

· Include the date of issue, expected date of graduation, expected results release date, predicted mark for each subject undertaker and your predicted total aggregate

· Results should be dated after 1 January for entry in Term 3 (September intake).

### When will I receive my offer?

September to January for Term 1

· May for Term 2 (June intake)

· June to August for Term 3 (September intake)

# Your supported pathway to UNSW

# Gain entry to UNSW Sydney with UNSW College

If you do not meet the entry requirements for your preferred degree, you can choose a pathway program that leads you to UNSW Sydney.

UNSW College is wholly owned by UNSW Sydney offering world-leading university pathway programs at the UNSW Sydney campus and international campuses.

### Be university-ready

Pathway programs are designed for international students to prepare you for success at university.

You will gain the academic knowledge and English language skills needed to meet the entry requirements to a university degree. You will receive support from our expert teachers and staff, so you progress to UNSW Sydney with confidence.

Choose from a range of programs that suit your Academic and English language levels, and the degree you plan to study.

Apply to a UNSW College pathway program at <a href="mailto:unswcollege.edu.au">unswcollege.edu.au</a>

### Get the best start to university

UNSW College can prepare you to get the best start to your university studies. 87% of UNSW Diploma students progress to second year at UNSW and over 85% of students from our Foundation Studies Programs progress to study a degree.

### 1st

Foundation Program in Australia founded in 1989.

### 50%

of UNSW international students study at UNSW College.

### Over 40,000

**UNSW College Graduates** 

### Small classes

with an average of 20 students per class so you receive individual attention and support.

### 50+ years

of experience supporting students with English language skills.

UNSW College provides students with a supportive learning experience through:

### Assisted learning

Small classes

Personalised learning

English language support

### Academic support

Continuous feedback

### Social support

Social clubs and societies

### **Scholarships**

Be rewarded for your ambition. Scholarships of up to AUD\$7,500 are available for high achieving students entering a Diploma or Foundation Studies Program.

For more information, visit unswcollege.edu.au

# Progress to UNSW Sydney

### A pathway program will get you there

Progress to first year in any of UNSW's bachelor's degrees when you successfully complete a Foundation Studies or Transition Program and meet UNSW's entry requirements.

For more information, visit <a href="mailto:unswcollege.edu.au/study/foundation-studies-overview">unswcollege.edu.au/study/foundation-studies-overview</a>

### **Progress with a Diploma Program**

As a Diploma student, you will take equivalent courses and assessments to UNSW first-year students, so you are ready for your degree program. Successfully complete a Diploma and progress to second year of a UNSW degree in:

- Architecture
- Commerce
- Computer Science
- Engineering
- Media and Communication
- Science

For a full list of specialisations and for more information, visit unswcollege.edu.au/study/diplomas-overview

"The Diploma Program is very helpful for international students like me. It helped me to adapt and understand a system I am new to through more engagement in the classroom and more face-to-face time with teachers. I have learnt to interact with my peers, teachers, and authorities."

English Course

UNSW Sydney Undergraduate or Postgraduate Degree

\*An English pathway may be required prior to commencing your program.

For more information, see page 102. Students are required to meet minimum entry requirements for progression to UNSW Sydney. For more information, visit <a href="unswcollege.edu.au">unswcollege.edu.au</a>. Open Learning Global Pty Ltd (trading as OpenLearning) proudly delivers the UNSW Transition Program Online under licence from UNSW and UNSW Global Pty Limited. The UNSW and UNSW Global trademarks are owned by UNSW and are used by OpenLearning under limited licence.

Note: Diploma in Business (102394F) students must achieve a Satisfactory Grade (equivalent to IELTS 7.0) for the Communication and Academic Literacy course and a minimum pass for all Diploma academic courses (with an overall average of 60%) to be guaranteed entry into second year at UNSW.

Students studying a Diploma in Architecture (107826E), Computer Science (102393G), Engineering (095863M), Media and Communication (107827A) or Science (095862A) must achieve a Satisfactory Grade (equivalent to IELTS 6.5) for the Communication and Academic Literacy course and a minimum pass for all Diploma academic courses to be guaranteed entry into second year at UNSW.

# Improve your English language skills

# Prepare for success at UNSW and for your future career

UNSW College's Academic English Programs are designed to help you improve your skills so you can meet the English language requirements for a UNSW degree. You will learn English language skills for success at university and in your global career. If you want to study an undergraduate or postgraduate degree, there is an English pathway for you.

For more information, visit unswcollege.edu.au/english

# Why study an English pathway at UNSW College?

- Flexibility with a range of courses at different levels, and durations to suit your needs.
- Study at Australia's first university language centre.
- Learn from over 50 years of experience in language teaching.
- Access world-class university facilities and social surroundings and study on UNSW Sydney campus.

# Academic English Program options

### **University English Entry Course (UEEC)**

UNSW College's University English Entry Course will help you meet the UNSW English language entry requirements. Depending on your current level of English, you may need to complete a 10, 15 or 20-week course.

For more information, visit unswcollege.edu.au/ueec

### Tertiary Orientation Program (TOP)

UNSW College's Tertiary Orientation Program (TOP) is a 5-week course that helps you prepare for Australian university culture, understand university requirements and develop academic English skills for success at university. You need to have achieved an IELTS 6.5 or equivalent, and have a full offer from UNSW to be eligible for this course.

For more information, visit unswcollege.edu.au/top

For more information on how to apply, visit <u>unswcollege.unsw.edu.au/apply</u> or contact UNSW College's admission office, <u>admissions@unswcollege.edu.au</u>

Academic English Program CRICOS Provider code 01020K, University English Entry Course CRICOS course code 080692D, Tertiary Orientation Program CRICOS course code 084609E UNSW College CRICOS Provider Code 01020K

# How to apply

### > Step 1

### Choose your program

Choose your program at <u>unsw.to/degrees</u> or from the pages of this guide and make a note of the program code.

### > Step 2

### Check your entry requirements

You need to meet your chosen program's entry requirements (see from page 92 for the requirements specific to your program). You also need to meet UNSW's English language requirements (see page 92-93 or visit <a href="mailto:unsw.edu.au/elp">unsw.edu.au/elp</a>).

### > Step 3

### Submit your application online

Submit your application at UNSW Apply Online, <a href="mailto:apply.unsw.edu.au">apply.unsw.edu.au</a>. Click 'Register now' and fill out your details. Upload your supporting documents and pay your application fee.

### > Step 4

### Track your application

Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.

### > Step 5

### We will send you a letter of offer

We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

### > Step 6

### Accept your offer

If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic Confirmation of Enrolment (eCoE).

### > Step 7

### **Enrol online**

Once enrolment for your degree is available, you can enrol in your degree and courses online at Accept Online, acceptonline.unsw.edu.au

### Need help?

If you have any questions regarding your application, go to <a href="mailto:enquiry.unsw.edu.au">enquiry.unsw.edu.au</a>

### Other ways to apply

You can also apply to UNSW at a conference or event where we're attending, or through a UNSW agent located in your country. Find out more at unsw.edu.au/study/international-students

### Application deadline

You should submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs such as Engineering, and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to <a href="mailto:applyonline.unsw.edu.au">applyonline.unsw.edu.au</a>

2024 Dates	Commencement intake: Term 1	Commencement intake: Term 2	Commencement intake: Term 3

# How to apply for a scholarship

A wide range of scholarships are available for international students.

### **UNSW** undergraduate scholarships

UNSW scholarships for international students provide financial support to cover some of the costs associated with your study. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community. To be considered for a scholarship, you must submit a separate application in addition to your admission application.

### Other scholarship providers

There are many scholarships offered by organisations other than UNSW including the Australian Government, industry partners and organisations in your home country.

### Australian Government scholarships

Australia Awards are international scholarships and short courses funded by the Australian Government offering the next generation of global leaders an opportunity to undertake study, research and professional development. For more information, visit australiaawards.gov.au

### > Step 1

### Search

Visit <u>scholarships.unsw.edu.au</u>. Make sure you select 'International' in the residency search box to see the list of scholarships available to you.

### > Step 2

### Register

Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

### > Step 3

### Apply

To apply, log in using your registered login and password. Double check the requirements as some scholarships may have specific questions or require supporting documentation.

### > Step 4

### Submit

Submit your application by the due date. Do not forget to check the website regularly for application deadlines and updates.

Please check our website regularly for any new scholarships that may become available. For more information about UNSW Scholarships, visit <a href="mailto:scholarships.unsw.edu.au">scholarships.unsw.edu.au</a>

# Tuition fees for undergraduate degrees

Each degree is different and so are the costs. This guide gives you an idea of potential fees.

Faculty	2023 p/UOC	2024 p/UOC*
Arts, Design & Architecture		
Arts	\$815	\$840
Design	\$825	\$850
Architecture	\$910	\$935
Built Environment	\$905	\$930
Education	\$855	\$880
Engineering	\$1,055	\$1,085
Law and Justice	\$990	\$1,020
Criminology	\$820	\$845
Medicine and Health		
Medicine	\$1,685	\$1,735
Medicine General Education	\$1,070	\$1,100
Public Health & Community Medicine	\$620	\$640
Vision Science	\$1,070	\$1,100
Science	\$1,055	\$1,085
Business	\$995	\$1,025

<sup>\*</sup> Indicative fee only.

Because each student's study choices are different, it is impossible to provide a definitive cost of studying at UNSW. Here are a few things to consider when calculating your expected fees.

### Fees are course-based

Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course and are calculated per unit of credit (UOC). For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

### Fees vary each year

Fees for courses (subjects) change from year to year. The tuition fees provided are for students commencing in 2023. The fees for 2024 are indicative only; fees are subject to change. Actual fees for 2024 wil be released in late 2023.

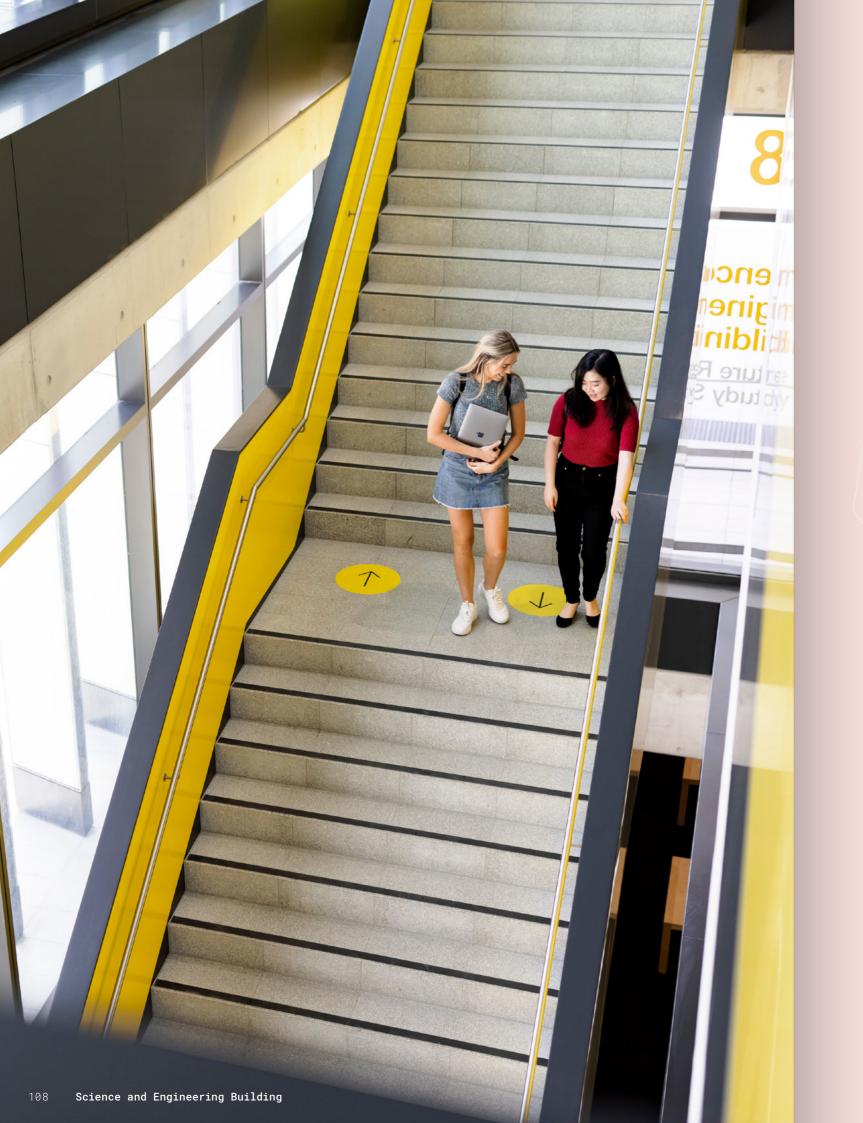

### Fees are charged based on the year of commencement

For example, if you start in Term 3 (September) 2023, the fees for the first term will be calculated at 2023 rates. Your second term (i.e. Term 1 2024) will be calculated at 2024 rates. If you are required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

### Estimating your tuition fees

While it is not possible to give a fixed annual fee for each program, it is possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 106. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC. General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT0803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts, Design & Architecture – Arts rate.

For more information about UNSW fees, including refund of fees and overpayments, visit student.unsw.edu.au/fees/international

Other study costs per year	Other	study	costs	per v	vear
----------------------------	-------	-------	-------	-------	------

Compulsory non-tuition costs (approximate per year)\$1,000Indicative living costs (including set-up costs)\$31,400OSHC 1 year (2023 for single cover)\$600Total expected first year costs\$33,000

### Other study-related costs

Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around AUD\$1,000 per year. An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

### Living costs

Living costs vary depending on each student's requirements. We estimate a single international student will need a minimum AUD\$28,000 per year to cover general living expenses. This does not include the costs of large non-essential items like electrical equipment or a car. In addition, you will need at least AUD\$3,400 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit <u>studyinaustralia.gov.au/global/live-in-australia/living-costs</u>

### Overseas student health cover

If you are in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program. It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium,
Norway, and Sweden who are covered by CSN or
Kammarkollegiet. These students will need to provide
proof of official health insurance cover from their home
government provider.

AUD\$

### There are five registered providers of OSHC

The five registered providers are Medibank Private (UNSW's preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, NIB Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services. Some services are not covered by Medibank's policies. These include optical, physiotherapy, dental and some pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

### United States financial aid

We are authorised by the United States (Department of Education to administer Federal Direct Loans for eligible students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit unsw.edu.au/study/how-to-apply/fees/financial-aid

### International student loans

If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au

For more information, visit <a href="mailto:unsw.edu.au/study/how-to-apply/fees/financial-aid">unsw.edu.au/study/how-to-apply/fees/financial-aid</a>

# Supporting you in times of change Deferrals

If you have a UNSW offer and need to defer to an alternative commencing term, please let us know as soon as you can, and we will support you in this process. If this is the case, we encourage you to avoid delaying your studies. Instead, take advantage of our flexible study options and start online to stay on track with your goals. Please note that any deferrals may affect a student visa or visa application.

For more information on deferrals, visit <a href="mailto:student.unsw.edu.au/deferral">student.unsw.edu.au/deferral</a>

## Important information about online/distance learning

UNSW prides itself on being able to offer you flexible study options when you plan your course enrolment. Your student visa places certain limitations on the total number of Units of Credit (UOC) you can undertake online or by distance during your program and during each compulsory study period:

- 67% or more of your total program must be completed in a face-to-face setting
- You must enrol in at least one face-to-face course in each compulsory study period

If you are a US citizen or eligible permanent resident and are planning on using US Federal Direct Loans, you cannot undertake any online or distance courses to remain eligible for federal student aid.

All international students on a student visa, studying in face-to-face degrees, will need to come to Sydney to start their degree in order to be compliant with the ESOS Act and National Code. Under the ESOS Act, international students who hold student visas can complete no more than one third of their degree online and must study at least one course face-to-face each term.
