**What does the future  
of health look like?**

Bachelor of

**Nutrition/**

Master of

**Dietetics & Food  
Innovation**

Australia's first and only program to combine nutrition, dietetics and food innovation expanding career outcomes to clinical and non-clinical settings

**>100 days of placements**

**Duration: 5 years | Intake: Term 1**

# Careers within health systems and food systems

This unique degree combination **transforms** the boundaries of traditional dietetics, **unlocking** a wide **range of career possibilities** across the health and food sectors.

Traditional and non-traditional roles for dietitians.

# What we're not

We're not just clinicians sitting in hospitals and health centres creating diet plans...

**Evolving with industry  
and community needs**

Thinking about your career....

An onion or a leek...?

# The Future of Dietetics - What we are.

Innovative and  
entrepreneurial

Experts in  
communication

Curious... and  
work-ready
