- AC9M6M01: Measurement

Meet Jamie, the patisserie chef with a passion for sweet treats.

Jamie has just had a new order come through. The customer needs it as soon as possible! Jamie's usual recipe only bakes 12 cupcakes, and he needs to bake 250 delicious chocolate cupcakes for his customer. He needs your help scaling up the recipe.

Instructions:

Convert the units of measurements so Jamie can complete his order.
