<b>Policy Statement</b>			
<b>Purpose</b>		The <i>University Medal Policy</i> specifies requirements for the award of a University Medal. The award of a University Medal recognises outstanding academic performance by a bachelor degree student across a program, or a single award when studied in dual award mode, and/or a particular major within a program.	
<b>Scope</b>		This Policy applies to bachelor pass and honours programs, including integrated cross-career dual award programs where the combination of a bachelor degree and a masters (extended) degree lead to a single primary professional qualification.	
<b>Policy Provisions</b>			

## 1. University Medal Committee

On the advice of the Deputy Vice-Chancellor Education and Student Experience , a University Medals Committee appointed by UNSW Council will receive, and approve recommendations for awards of a University Medal. The Committee shall normally comprise:

- The Deputy Vice-Chancellor Education and Student Experience as Presiding Member (and Vice-Chancellor's nominee)
- President, Academic Board
- Deputy President Academic Board, nominated by the President.

## 2. Timing of awards

The award of the University Medal is normally to be determined by the University Medal Committee following the series of Faculty Assessment Review Group (FARG) or equivalent committee meetings which occur at the end of each term. Nominations received may also be considered by the Committee via circulation.

## 3. General principles

The University Medal is awarded to recognise outstanding academic performance by a bachelor degree student across a program and/or a particular major within a program, inclusive of integrated cross-career dual award programs leading to a single primary professional qualification.

On the recommendation of a FARG (or equivalent committee), the University Medal Committee may award a University Medal to a student (in a program leading to the award of a bachelor pass or honours degree or degrees) who has shown highly distinguished merit in completing their program of study.

There will normally be only one Medal recipient per major (where a major exists) per program each term. In exceptional circumstances two recipients may be considered if it is not academically possible to distinguish between the two candidates.

Where a program or major is available at honours-level, it would normally be expected that only students completing at honours-level would be eligible for the award of a University Medal.

The University Medal Committee will take into account the whole undergraduate academic record of the student. This includes performance in the bachelor-level pass degree (at UNSW or elsewhere) on which admission to the honours was based and the honours year itself (where this is a separate program) or the entire program where honours is embedded.

In order to be considered eligible for the award of a Medal, students will normally have completed at least 48 UOC of Level III courses (or above) at UNSW. For students who have completed part of their

studies at another university, such studies will be considered in awarding Medals and the FARG (or equivalent committee) should ensure comparability with UNSW students.

Students enrolled in a dual award program leading to the award of two bachelor degrees may be considered eligible for the award of a Medal in both awards.

#### 4. Honours

In honours award programs it is expected that a student would have performed at a level significantly above the minimum required for award at Class 1, in comparison with their peers in the major.

It is likely that the recommended student will have achieved the highest (or equal highest) WAM for the honours component of the program, with a cumulative WAM that is the highest, or amongst the highest, of the graduating cohort for their program. In making their recommendation(s), Faculties are required to advise the criteria used in determining cut-offs.

Students who complete an honours award program that includes more than one major may be considered eligible for the award of a Medal in one or more of the majors.

#### 5. Award of more than one Medal

Only in exceptional circumstances may more than one Medal be awarded for a particular major in a particular degree program. In such circumstances, Schools will be expected to make a compelling argument for additional awards at the time of the recommendation.

Students enrolled in a dual bachelor degree award program may be considered eligible for the award of a Medal in both degrees.

#### 6. Non-award of a Medal

The University Medal Committee is the final authority for the awarding of a University Medal.

#### 7. Appeals

Appeals can only be made on the basis that the University Medal Committee did not follow due process. Appeals are decided by the President and Vice-Chancellor.

In cases where recommendations have been made on the basis of incorrect or missing data, such as late results, Faculties should submit the correct information, together with an explanatory note, to the Presiding Member, as soon as practicable after the data has been rectified.

#### 8. Presentation of Medals

Graduands or graduates who have been awarded a University Medal shall receive a congratulatory letter from the Deputy Vice-Chancellor Education and Student Experience and be invited to receive their Medal at an appropriate Graduation Ceremony.

Notification of the award of a University Medal shall be recorded on the University Testamur. In the case of an integrated cross-career dual award program, the Program Authority may elect to record the award of the University Medal on the testamur for the higher-level qualification i.e. on the testamur for the masters award.

<b>Definitions and Acronyms</b>	
<b><u>Bachelor</u> degree</b>	The formal award received on successful completion of an undergraduate university degree program, ordinarily of three or more years duration. Bachelor degrees provide initial preparation for careers and postgraduate study.
<b>Cohort</b>	The group of students expected to complete their program of study within the same term.
<b>Dual award program</b>	The concurrent or sequential study of two (or more) awards under one integrated and coherent program leading to two (or more) awards and two (or more) testamurs (one for each award). Dual award programs can be within a career or cross-career.
<b>Embedded honours</b>	A program where the honours components are studied as part of an integrated program along with the pass degree requirements.
<b>Graduand</b>	A student who has completed all the requirements for their program but has not had the degree formally conferred.
<b>Graduate</b>	A student who has completed all the requirements for their program, and had the degree formally conferred.
<b>Honours</b>	The highest level of learning in an undergraduate program. It typically includes a research component. Honours is available in two modes: separate year honours; and embedded honours.
<b>Integrated cross-career dual award program</b>	A dual award program leading to a single primary professional qualification (such as Medicine) where a bachelor and masters (extended) award are studied as part of an integrated sequence and the awards are only conferred on completion of the full program.
<b>Major</b>	A specified stream or sequence of study in a discipline or sub-discipline area within a program. Majors require students to take an approved set of courses at different levels and units of credit. The term is generally synonymous with "plan" or "specialisation". More than one major may be completed in a program.
<b>Program</b>	An approved set of requirements, courses and/or supervised research into which a student is admitted. In some cases, this will lead to an award of UNSW.
<b>Separate year honours</b>	An additional, distinct year of study that follows the completion of an undergraduate degree in a cognate discipline, whether at UNSW or elsewhere. All components of the honours program contribute to the honours-level qualification. These honours programs require completion of 48 UoC of study typically undertaken over one calendar year (or part-time equivalent).
<b>Term</b>	Term is the collective noun for all types of academic calendar periods of study at UNSW, (e.g. Term, Semester, Hexamester)
<b>Undergraduate</b>	A program of study that leads to the award of a diploma, advanced diploma, associate degree or a bachelor degree (pass or honours).
<b>Units of credit</b>	The value assigned to programs and courses indicating duration and workload. For a course, UOC indicates the student workload expectations and the contribution of the course to meeting program requirements.

<b>WAM</b>	A Weighted Average Mark (WAM) is calculated by multiplying the mark obtained for each relevant result by the units of credit of the course, adding up the products and dividing by the total number of units of credit for the relevant courses. A 'Cumulative WAM' is calculated for relevant results over the student's entire program.
