Procedure Statement				
Purpose	This procedure covers the principles and processes for determining authorship and handling disputes between authors of all forms of research output where one or more of the authors are UNSW staff and/or students.			
Scope	This procedure applies to authors that are UNSW staff and/or students.			
Are Local Documents on this subject permitted?	<input type="checkbox"/> Yes, however Local Documents must be consistent with this University-wide Document			<input checked="" type="checkbox"/> No

ATTACHMENT A..... 6

1. INTRODUCTION

1.1. Information on the criteria for authorship is found in the **UNSW Research Code of Conduct**.

2. AUTHORSHIP

2.1. Authorship Criteria

2.1.1. The minimum requirement for authorship is that an author must have had a substantial intellectual contribution to a paper or research output, where any of the following conditions are met:

- (a) conception and design; and/or
- (b) analysis and interpretation of data; and/or
- (c) drafting the article or revising it critically so as to contribute to the interpretation.

2.1.2. Acquisition of funding, the collection of data, general supervision of the research group, provision of technical assistance or materials by themselves, do not justify authorship.

2.2. UNSW acknowledges that the criteria for authorship (including the order of authors), of research output vary to some extent depending on currently accepted practice in the research discipline.

- 2.3. Authorship of a research output is a matter that should be discussed between researchers at an early stage in a research project, and reviewed whenever there are changes in participation.

2.4. Order of Authorship

- 2.4.1. The accepted practice for the order of authors names appearing on a publication varies from discipline to discipline.
- 2.4.2. It is preferable that the agreed authorship and order of authors be recorded in a signed document.
- 2.4.3. Authors must be able to justify the order in which authors are listed on any publication.

2.5. Corresponding author

- 2.5.1. When there is more than one co-author of a research output, one or more authors must take responsibility for the integrity of the work as a whole, from inception to published article. One UNSW co-author (the “executive author”, or “corresponding author”) should take responsibility for being the point of contact for all correspondence regarding the publication and for record-keeping regarding the research output.
- 2.5.2. Each author must have participated sufficiently in the work to take public responsibility for the entire content.

3. STATEMENT OF AUTHORSHIP

- 3.1. All authors of all types of publication (including web-based publication) must sign a [Statement of Authorship and Location of Data](#) form prior to its submission. All authors must have final approval of the version to be published. The signed statement of authorship must specify that:
 - 3.1.1. the signatories are the only valid authors;
 - 3.1.2. there are no other valid authors;
 - 3.1.3. the order in which the authors’ names appear in the submitted paper is acceptable to all authors;
 - 3.1.4. all authors agree that they have met the minimum requirements listed above;
 - 3.1.5. all authors have approved the submitted version of the paper; and
 - 3.1.6. all authors agree that they are responsible for the content of the paper.
- 3.2. If, for any reason, one or more co-authors are unavailable or otherwise unable to sign the statement of authorship, the executive author may sign on their behalf, noting the reason for their unavailability. Confirmation should be obtained from absentee authors within six months of submission of the paper.

4. PROCEDURE FOR HANDLING DISPUTES BETWEEN AUTHORS

- 4.1. Disputes over the inclusion, exclusion or order of potential authors sometimes arise, especially where an informal approach to authorship has been adopted.
- 4.2. An attempt should be made to resolve any conflicts between authors about authorship of a work at the local level.
- 4.3. Disputes between authors which cannot be resolved by the persons concerned may be referred to a Research Integrity Advisor who will attempt to resolve the dispute through mediation.
- 4.4. If the dispute still cannot be resolved, the Deputy Vice-Chancellor Academic, or their delegate, should be approached for a determination.

4.4.1. In making a determination, the Deputy Vice-Chancellor Academic may ask the for following information:

- (d) A copy of the Statement of Authorship and Location of Data Form if the material has been submitted for publication.
- (e) Copies of any key documentation to show, how each of the authors may have:
 - (i) made a substantial contribution to the conception and design, or acquisition of data, or analysis and interpretation of data; and
 - (ii) had input into drafting the article or reviewing it critically for important intellectual content; and
 - (iii) given final approval of the version to be published.
- (f) A list of all those believed to be valid authors, and why.
- (g) A list of those believed to have contributed to the paper and who should be fully acknowledged (without being an author), and why.

5. OPTIONS FOR DISPUTES BETWEEN AUTHORS

5.1. With any authorship dispute, there are a number of options.

5.1.1. All valid authors agree on the authorship, in which case the paper can be published.

5.1.2. If one or more individuals do not meet the authorship criteria above, they should be removed as authors, and their contribution to the work must be fully acknowledged in the Acknowledgments section of the paper or in the footnotes. Note here that:

- (a) the unpublished data or work of others cannot be used without their explicit permission to do so;
- (b) anybody who provides their data or material for the paper must formally give their permission for this to be used and this must be fully acknowledged in the paper.

5.1.3. If the valid authors can't agree on the content or authorship of the paper, then the paper simply cannot be published in its present form. However, note that:

- (a) if all of the authors can't agree, then it may be possible to break the paper down into sections where there is agreement, or where the contributions of individuals (or subgroups of the authors) might be published separately;
- (b) no person who is a valid author, can be excluded as an author without their explicit permission.

6. AUTHORSHIP DISPUTES AS BREACHES OF THE UNSW RESEARCH CODE OF CONDUCT

6.1. A dispute between authors does not constitute an allegation of research misconduct, unless it is alleged that there has been a serious and intentional breach of the **Research Code of Conduct**.

6.2. The Director, UNSW Conduct and Integrity or the Deputy Vice-Chancellor Academic may determine that an authorship dispute should be dealt with as a breach of the Code, or research misconduct.

6.3. Research misconduct includes the misleading ascription of authorship including the listing of authors without their permission or the inappropriate omission of authors, attributing work to others who have not in fact contributed to the research, and the lack of appropriate acknowledgment of the work of others.

Accountabilities				
Responsible Officer	Deputy Vice-Chancellor Academic			
Contact Officer	Director, UNSW Conduct and Integrity

STATEMENT OF AUTHORSHIP AND LOCATION OF DATA

This form (and any supporting material) must be lodged with the Research Publication Coordinator (ros@unsw.edu.au) or in hard copy to the Manager, Research Reporting Unit, UNSW Library, UNSW.

AUTHORSHIP DECLARATION

The criterion for “authorship” is clearly defined in the *UNSW Research Code of Conduct and the Authorship and Resolving Disputes between Authors Procedure*.

The minimum requirement for authorship is that an author must have had a substantial intellectual contribution to the paper or research output, where any one of the following conditions are met:

1. conception and design; and/or
2. analysis and interpretation of data; and/or
3. drafting the article or revising it critically so as to contribute to the interpretation.

According to this definition, the authors of the paper titled:

submitted/resubmitted

to.....

on.....are the undersigned, and there are no other valid authors. The order in which

the authors’ names appear in the submitted paper is acceptable to all authors. All authors agree that they

have met the minimum requirements listed above and have approved the submitted version of the paper. All

authors agree that they are responsible for the content of the paper.

NAME	SIGNATURE (and other information as necessary) (The UNSW corresponding author on the paper should be marked with an “*”)

More rows may be added as necessary.

If, for any reason, one or more of the co-authors is unavailable or otherwise unable to sign above, a Fax or email from them acknowledging that they are in agreement with the statements must be appended. If this is also not possible the senior School/Centre researcher most related to the work may sign on their behalf, noting the reason for their unavailability in the box above.

LOCATION OF RESEARCH MATERIALS AND DATA DECLARATION

I have read, and agree to comply with the **UNSW Handling Research Material and Data Procedure**.

The primary data on which the paper referred to above is:

- kept in the School;
 elsewhere.

If elsewhere, please indicate where:

Signed:

UNSW Corresponding or Executive author
