

CPHCE Bi-monthly Newsletter

September – October 2021

Highlights

- CPHCE Annual Forum was successfully held on Wednesday 13th October 2021 at 9am, thank you all for attending the forum. For more information please scroll down this email to the 'Events' section.
- **EquityFest 2021: The Future of Health Equity – Learning from a pandemic.**
EquityFest is an annual event to progress the equity agenda in Sydney Local Health District where we reflect, engage and explore, enable action, and celebrate. This year, EquityFest will be held online over three sessions on Thursday 18 November, Thursday 25 November and Thursday 9 December in partnership with communities, consumers, government and non-government organisations. HERDU have been leading the planning of EquityFest, in partnership with an Advisory Committee consisting of over 40 consumer, community, government and non-government representatives.
 - Session 1: What have we done? - Thursday 18 November 12pm - 2pm**
Invited speakers will present examples of what has been built and learned in Sydney Local Health District in response to the pandemic, including new structures, new relationships, new services and programs, new ways of working, or new ideas. This will be followed by open discussion.
 - Session 2: What have we learned? - Thursday 25 November 12pm - 2pm**
Invited speakers will reflect and build on the previous week, and present views on what to maintain, how can we strengthen our gains, and what else is needed. This will be followed by open discussion.
 - Session 3: What do we need to do? - Thursday 9 December 12pm - 2pm (a workshop event)**
The session will be an opportunity to collaboratively identify what we need to do to help shape and action the future of health equity in Sydney Local Health District.

EquityFest is a free event. Registration is now at this [link](#)

Projects

- **Bilingual Community Navigator (BCN) in general practices of Sydney** has been kicked off in Healthpac Medical Centre Hurstville on 26th October 2021. It is first time this intervention is happening in general practice setting of Australia where a BCN is placed in the practice helping the patients from the culturally and linguistically diverse background suffering from chronic illnesses smoothly access health and social care services. The intervention will also start in other two general practices of Sydney in next week.

- **Mindgardens Clinical Pathways** is part of the larger Mindgardens Health Pathways project in the Eastern Sydney region. The project focuses on the shared care between mental health services and GPs of people with severe mental illness who have been prescribed Clozapine. It is a trial of a web based shared-care plan that is accessible to the GP, mental health providers and the patient that is designed to improve communication and ensure that patients don't miss out. The care plan and other guides have been developed and we hope to commence recruitment of participants before the end of November. Please contact Jane Taggart j.taggart@unsw.edu.au for more information.
