

## Arc Scene Windows Quickstart Guide - MAC

#### Open Arc Scene for the first time

After logging into myAccess, applications will be available to you to add to your Citrix Receiver from the Apps button.

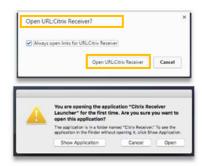

Click on **Apps** and select **Arc Scene** to open the application

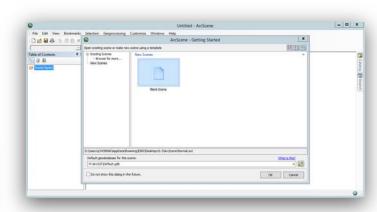

**TIP:** When launching your applications through Chrome, you may receive a one-off request to **Open URL Citrix Receiver.** Click **Always Open** followed by **Open URL: Citrix Receiver**.

You may also receive a one-off request to download and save a **.ica** file. Ensure to click on the small down arrow next to the .ica file and select **Always Open Files of This Type**.

Note: The following image is what Google Chrome will display, other browsers could vary in the message displayed.

You have successfully opened Arc Scene

### 2. Creating a new document in Arc Scene

On the homescreen click on **OK** OR navigate to **File > New** to create a new document

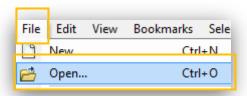

# 3. Opening an existing document in Arc Scene

The following steps assume that you will save your data to the Cloud H:drive, if you have saved elsewhere you will need to follow the same steps but look for the drive where your files are saved – see section 3

**TIP:** Larger file sizes will take up more time to load the data set (possibly 20 minutes to open a 100MB file). It is highly recommended that when loading larger datasets you save the dataset onto 'Cloud H: Drive' while on campus — this is the drive that starts with your zID.

Refer to <u>Downloading files from Moodle</u> guide for more information.

Navigate to File > Open

**TIP:** You may be asked to let Citrix access the Local Drives. Ensure you click on **Don't ask me again** and click on **Read and Write.** 

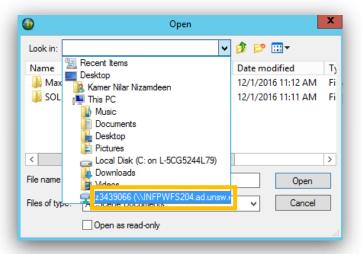

**TIP:** Remember to always save downloaded files straight to your **Cloud H:drive** 

#### Arc Scene Windows Quickstart Guide - MAC

 From the drop down menu find your Cloud H:drive

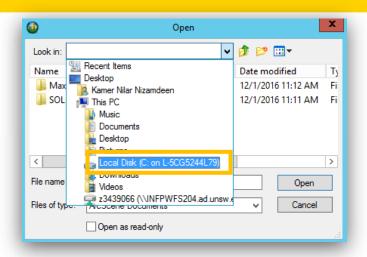

**TIP:** If you can't find the Cloud H: Drive call the IT Service Centre on (02) 9385 1333

#### 4. Manually locating your files

Navigate to File > Open

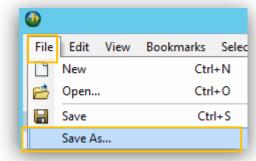

- If prompted, select Permit all access when the Citrix Receiver- Security Warning appears.
- Select your Local C:drive from the drop down menu

Once you find your data files in the C:drive, double click on them OR click Open and Arc Scene will open your data files.

#### 5. Saving your data set

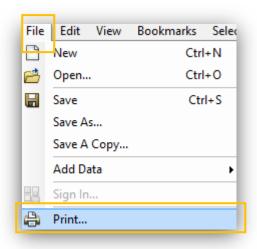

To save navigate to File > Save As

Arc Scene will automatically save to your Cloud H:drive. Please ensure you do not save to the Temporary Storage D:drive as your data will be lost if you do so

#### 6. Printing from Arc Scene

Navigate to File > Print

Choose the printer you want to print to in the Print window then click OK to print your work
