

Co-op Scholarship Program

What is Co-op?

A strategic initiative between industry and the University to attract, train and develop the best young professionals.

The Program develops the 'complete' graduate, offering a cohort of high potential students an opportunity to combine academic excellence; challenging, real world experience; leadership and professional development training; mentoring and networking opportunities; all by the time they graduate.

Students are selected by panels of industry sponsors and UNSW staff on the basis of academic excellence, demonstrated leadership, communication skills and motivation.

The role of a sponsor:

- Provide a \$22,000* p.a. scholarship (4 years), invoiced annually;
- Involvement in scholar selection;
- 3 highly challenging industry training experiences in your organisation;
- Share feedback on Program and academic course content;
- Participate in specific recruitment functions and professional development training for Co-op scholars.

The benefits for sponsors include:

- Early access to exceptional students with excellent technical and soft skills, who can be directly recruited at the end of their Program;
- Seeing some of these students at work in your company for up to 18 months full-time (no additional cost, no permanent head count);
- Enhancing the education and professional development of the industry's talent pool;
- Raising your organisation's profile and building networks/partnerships with UNSW;
- Engage with the University on various levels as a VIP industry partner;
- Opportunity to sponsor 5th year Honours students, in some programs, to complete an industry-linked thesis.

Early access to the nation's best & brightest

- Recruitment
- Networking & Mentoring
- Leadership Training
- Industry Experience
- Professional Development
- Financial Support

Sponsorship is available in:

Business

- Accounting & Business Management

"We consider the UNSW Co-op Program to be world class and are proud to be a sponsor. We are confident in the calibre of the scholars to operate and perform well in global markets and have purposefully incorporated an international placement for our allocated scholars. Going forward, Arowana expects to be hiring more UNSW Co-op scholars and offer them a pathway to impact orientated entrepreneurial careers in Australia and globally."

Kevin Chin,
Founder and Chairman, **Arowana**
