

MATERIAL SAFETY DATA SHEET

MOANA Sensor

The battery is neither substance nor mixture but product and having no risk to life and health under normal use or transportation because ingredients of battery is not leaked out by virtue of hermetical sealing with metal case.

This sheet notifies possible risk of our battery under abnormal use but mainly aim to provide information about ingredients, notification of handling and transportation regulations as a useful reference.

*The sensor measures
14.5 cm by 4 cm*

Summary

Saft LS17505

Capacity = 12.96W/Hr

Li metal content = 0.9g

Chemistry = LiSOCl₂

Battery weight = 22g

MATERIAL SAFETY DATA SHEET

ZebraTech Solar Powered Deck Unit

The battery is embedded within the deck unit and cannot be removed for transport. The deck unit should be turned off for air transport. The battery within the deck unit has no risk to life and health under normal use or transportation.

This sheet notifies possible risk of our battery under abnormal use but mainly aim to provide information about ingredients, notification of handling and transportation regulations as a useful reference.

*The deck unit measures
27 cm by 13 cm by 4.375 cm*

*The battery measures
10.1 cm by 6 cm by 1.2 cm*

Summary

LiPol LP1260100

Capacity = 37W/Hr

Li metal content = 3.0g

Chemistry = Lithium Polymer

Battery weight = 200g
