1. Information about the Course			
<b>FACULTY</b>	Science		
<b>SCHOOL OR DEPARTMENT</b>	Psychology		
<b>COURSE CODE</b>	PSYC1022		
<b>COURSE NAME</b>	Psychology of Addiction		
<b>SEMESTER</b>	Semester 2	<b>YEAR</b>	2018
<b>UNITS OF CREDIT</b>	6	<b>LEVEL OF COURSE</b>	General/1
<b>ASSUMED KNOWLEDGE, PREREQUISITES OR CO-REQUISITES</b>	None		
<b>SUMMARY OF THE COURSE</b>	<p>This course deals with transdisciplinary issues pertinent to the understanding and treatment of drug addiction. Topics include: historic origins of drugs; manufacture, global distribution and black market economics; epidemiology of population uptake; biomedical harms; neuropharmacological actions; effects on learning, motivation, cognition and behaviour; psychiatric comorbidity; individual differences in vulnerability; brain mechanisms of reward and impaired cognitive control; treatment by behavioural interventions and pharmacotherapy; prevention by education; prohibition by criminal justice; and the role of scientific evidence in government policy. The course will provide a broad understanding of drug use and the systems in place to counteract it. The course is taught online using the e-learning Moodle site [<a href="https://moodle.telt.unsw.edu.au">https://moodle.telt.unsw.edu.au</a>].</p>		

2. Staff Involved in the Course				
<b>COURSE COORDINATOR</b>				
<b>Name</b>	<b>Phone</b>	<b>Email</b>	<b>Office</b>	<b>Contact Time &amp; Availability</b>
Phillip Green	N/A	<a href="mailto:p.green@unsw.edu.au">p.green@unsw.edu.au</a>	N/A	Mon-Fri 9am-5pm via email. Available for consultations by request
<b>LECTURERS</b>				
<b>Name</b>	<b>Phone</b>	<b>Email</b>	<b>Office</b>	<b>Contact Time &amp; Availability</b>
Dr. Lee Hogarth Dr. Marios Panayi Helena Pacitti	N/A	N/A	N/A	All questions regarding the course content should be directed to Phillip Green

<b>3. Course Timetable</b>				
<b>Component</b>	<b>Class Number</b>	<b>Day</b>	<b>Time</b>	<b>Location</b>
Topic 1	1	Available week starting 23/07/18	Monday 9am AEST	Online (Moodle)
Topic 2 & 3	2	Available week starting 30/07/18	Monday 9am AEST	Online (Moodle)
Topic 4 & 5	3	Available week starting 6/08/18	Monday 9am AEST	Online (Moodle)
Topic 6	4	Available week starting 13/08/18	Monday 9am AEST	Online (Moodle)
Topic 7 & Research and Writing Skills	5	Available week starting 20/08/18	Monday 9am AEST	Online (Moodle)
Topic 8	6	Available week starting 27/08/18	Monday 9am AEST	Online (Moodle)
Topic 9 & 10	7	Available week starting 03/09/18	Monday 9am AEST	Online (Moodle)
Topic 11	8	Available week starting 10/09/18	Monday 9am AEST	Online (Moodle)
Topic 12	9	Available week starting 17/09/18	Monday 9am AEST	Online (Moodle)
Topic 13	10	Available week starting 01/10/18	Monday 9am AEST	Online (Moodle)
Topic 14	11	Available week starting 08/10/18	Monday 9am AEDT	Online (Moodle)
Topic 15 & 16	12	Available week starting 15/10/18	Monday 9am AEDT	Online (Moodle)
<i>NB. Course timetables are subject to change without notice. Students are advised to check regularly for updates on the Moodle course site.</i>				

<b>4. Aims of the Course</b>
<p>This course deals with transdisciplinary issues pertinent to the understanding and treatment of drug addiction. Topics include: historic origins of drugs; manufacture, global distribution and black market economics; epidemiology of population uptake; biomedical harms; neuropharmacological actions; effects on learning, motivation, cognition and behaviour; psychiatric comorbidity; individual differences in vulnerability; brain mechanisms of reward and impaired cognitive control; treatment by behavioural interventions and pharmacotherapy; prevention by education; prohibition by criminal justice; and the role of scientific evidence in government policy. The course will provide a broad understanding of drug use and the systems in place to counteract it.</p>

## 5. Student Learning Outcomes

By the end of this course you will be able to:

1. A knowledge and understanding of psychology at an advanced level with regard to:	<ul style="list-style-type: none"><li>1.1. Transdisciplinary domains of psychology and their major objectives in addiction research and theory.</li><li>1.2. Major focus on themes in physiological psychology and psychopharmacology relating to the behavioural vs. neural underpinnings of motivation</li><li>1.3. The ability to explain psychological phenomena using concepts, language and major theories drawn from transdisciplinary domains of psychology.</li></ul>
2. An advanced knowledge of research methods in psychology, enabling you to:	<ul style="list-style-type: none"><li>2.1. Describe, apply and evaluate different research methods used in psychology.</li><li>2.2. Use basic web-search programs to locate and evaluate scholarly material relevant to the course content.</li><li>2.3. Interpret numerical data in relation to broader theoretical issues</li></ul>
3. Developed advanced critical thinking skills in Psychology, enabling you to:	<ul style="list-style-type: none"><li>3.1. Question claims that arise from myth, stereotype, pseudo-science or untested assumptions.</li><li>3.2. Demonstrate an attitude of critical thinking that includes persistence, open- mindedness, and intellectual engagement.</li><li>3.3. Evaluate the quality of information, including differentiating empirical evidence from speculation.</li><li>3.4. Recognise and defend against the major fallacies of human thinking.</li><li>3.5. Evaluate issues using different theoretical and methodological approaches.</li><li>3.6. Use reasoning and evidence to recognise, develop, defend, and criticise arguments and persuasive appeals.</li></ul>
4. Developed an advanced appreciation of values in Psychology, including the ability to:	<ul style="list-style-type: none"><li>4.1. Use information in an ethical manner.</li><li>4.2. Consider how prejudicial attitudes and discriminatory behaviours might exist in oneself and in others.</li><li>4.3. Exhibit a scientific attitude in critically thinking about, and learning about, behaviour, creative and pragmatic problem solving.</li><li>4.4. Promote evidence-based approaches to understanding and changing human behaviour.</li></ul>
5. Developed effective communication skills in Psychology, including the ability to:	<ul style="list-style-type: none"><li>5.1. Write effectively in essay format for the purpose of informing and arguing.</li></ul>
6. Come to understand and apply psychological principles derived from an understanding of physiological psychology in a broader framework, including the ability to:	<ul style="list-style-type: none"><li>6.1. Apply psychological concepts, theories, and research findings to solve problems in everyday life and in society – including issues of human mental health.</li><li>6.2. Demonstrate insightful awareness of one's feelings, motives, and cognitions based on principles of physiological psychology</li></ul>

<b>6. Graduate Attributes</b>		
<b>Science Graduate Attributes*</b>	<b>Level of Focus</b> 0 = No focus 1 = Minimal 2 = Minor 3 = Major	<b>Activities/Assessment</b>
<b>1. Research, inquiry and analytical thinking abilities</b>	3	Acquire knowledge of abnormal psychology, biological bases of behaviour, cognition, individual differences, learning, lifespan development, motivation and emotion, historical psychology, clinical service delivery, social policy, epidemiology
<b>2. Capability and motivation for intellectual development</b>	2	Understand science of psychology, apply and evaluate different research methods, critically analyse theoretical and empirical studies
<b>3. Ethical, social and professional understanding</b>	3	Apply knowledge of psychology, society, clinical practice and government policy
<b>4. Communication</b>	2	Write a standard essay using American Psychological Association (APA) structure and formatting conventions.
<b>5. Teamwork, collaborative and management skills</b>	0	
<b>6. Information literacy</b>	1	Course is delivered online

### **7. Rationale for the Inclusion of Content and Teaching Approach**

This course provides a broad understanding of scientific perspectives on addiction and its treatment. It is both complementary and serves as a primer for biological, clinical and applied courses in psychology.

### **8. Teaching Strategies**

The course is taught entirely online using the e-learning Moodle site

\* The *Graduate Attributes of the Australian Undergraduate Psychology Program* was produced as part of the Carrick Associate Fellowship project, "Sustainable and evidence-based learning and teaching approaches to the undergraduate psychology curriculum", and "Designing a diverse and future-oriented vision for undergraduate psychology in Australia", a Discipline-based Initiative funded by the Carrick Institute for Learning and Teaching in Higher Education (see Appendix II), and supported by the Australian Psychological Society, and the University of New South Wales (School of Psychology; Learning and Teaching @UNSW).

<b>9. Course Schedule</b>			
<b>Week</b>	<b>Lecture Topic &amp; Lecturer</b>	<b>Tutorial/Lab Content</b>	<b>Suggested Readings</b>
1	Topic 1: Origins of drugs	2 Lectures	
2	Topic 2: Manufacture	1 Lecture	
	Topic 3: Epidemiology	2 Lectures	
3	Topic 4: Harms of drug use	1 Lecture	
	Topic 5: Associative Learning	1 Lecture	
4	Topic 6: Neuropharmacology	3 Lectures	
5	Topic 7: Withdrawal and Tolerance	1 Lecture	Wise, R.A. & Koob, G.F.(2014). The development and maintenance of drug addiction. <i>Neuropsychopharmacology</i> , 39, 254-262.
6	Topic 8: Positive Reinforcement, Craving and Economic Choice	1 Lecture	
7	Topic 9: Biological Mechanisms of Reward	1 Lecture	
	Topic 10: Cognitive impairments and comorbidity	1 Lecture	
8	Topic 11: Brain mechanisms of impaired behavioural control	1 Lecture	
9	Topic 12: Individual differences in vulnerability	1 Lecture	Ahmed, S.H.(2012). The science of making drug-addicted animals. <i>Neuroscience</i> , 211, 107-125
10	Topic 13: Behavioural interventions	1 Lecture	
11	Topic 14: Pharmacotherapy	1 Lecture	
12	Topic 15: Prevention	1 Lecture	
	Topic 16: Prohibition	1 Lecture	

## 10. Assessment

Assessment Task	Weight	Learning Outcomes Assessed	Graduate Attributes Assessed	Date of		Feedback		
				Release	Submission	Who	When	How
Mid-Semester Exam	20%	1-4	1-3,6	20/08/18	20/08/18	Green	21/08/18	Moodle
Essay	40%	1-5	1-4,6	07/09/18	15/10/18	Green	30/10/18	Moodle
Final Exam	40%	1-4	1-3	Exam Period	Exam Period	N/A	N/A	N/A

All assessments in this course have been designed and implemented in accordance with UNSW Assessment Policy

1. Mid-session exam (20%): On the **Monday of Week 5 (20/08/18; 12am. AEDT)** a 20 question multiple-choice quiz (MCQ) will be made available online via Moodle for **24 hours**. The exam will close and will no longer be available at **12am Tuesday 21/08/18**. Students will be able to sit the examination once. The exam is worth 20% of the total course mark. Students will have 17 minutes to complete the exam, allowing for 51s per question. The time limit on this MCQ means that the exam should not be attempted “open book” with reference material nearby, as there is not enough time to consult any reference material to answer these questions. The time limit will provide ample opportunity for students to read and answer all the questions. Details about the delivery of the online quiz will be made available to students via Moodle. The material assessed in this exam will cover all material presented in weeks 1-4 (i.e. topics 1-6).

2. Essay (40%): A written assignment in essay format will be required for submission in **Week 12 (Monday 15/10/18; 11:59pm AEST)**. You will be required to produce a researched written piece to be submitted online via Turnitin. The question and instructions for this assignment will be **released on 07/09/18**. The essay will be worth 40% of the total course mark. Brief researching and writing skills workshops will be made available on Moodle to provide further help to students on how to approach this essay. Marks and feedback will be returned to students on 04/06/18 and no submissions will be accepted after this date – **any essay submitted after 9am AEST on 30/10/18 will not be marked and will receive a grade of 0**.

3. Final exam (40%): There will be a 2-hour examination held **on campus** [i.e. NOT on Moodle] during the University examination period (time and location TBA). The examination will include 80 multiple choice questions covering lecture and reading material from Weeks 1-12. **No student should organise travel during this period until the final examination schedule has been released** and the date of the exam is known. The final exam will be worth 40% of the total course mark. Further details regarding the exact time and location of the exam will be released on myUNSW as they become available

Special Consideration: Students who are unable to complete an assessment task by the assigned due date can apply for special consideration. Special consideration applications must be submitted to Student Central **within 3 working days** of the assessment due date along with a **physical copy** of the supporting documentation. Students who have experienced significant illness or misadventure **during the assessment period** may be eligible. Only circumstances deemed to be **outside of the student's control** are eligible for special consideration (see - <https://student.unsw.edu.au/special-consideration>). In the case of take-home assessment tasks, misadventure must occur for at least 3 consecutive days during the assessment period. If approved, students may be given an extended due date to complete take-home assessments, or an alternative assessment may be set. Alternative examinations will be subject to approval and implemented in accordance with UNSW Assessment Implementation Procedure. In the case of exams, a supplementary examination will be made available for students with approved special consideration applications. Only one supplementary exam will be set for each examination. Supplementary assessments will be offered and implemented in accordance with UNSW Assessment Implementation Procedure.

11. Expected Resources for Students	
<b>TEXTBOOKS</b>	Nil
<b>COURSE MANUAL</b>	Available at course website
<b>REQUIRED READINGS</b>	Will be released on Moodle on Monday at 9 am on designated weeks.
<b>RECOMMENDED INTERNET SITES</b>	You should be aware of policies regarding your behaviour at the university. Familiarize yourself with the following: Student Code of Conduct, <a href="https://www.gs.unsw.edu.au/policy/documents/studentcodepolicy.pdf">https://www.gs.unsw.edu.au/policy/documents/studentcodepolicy.pdf</a> Policy concerning academic honesty, <a href="http://www.lc.unsw.edu.au/academic-integrity-plagiarism">http://www.lc.unsw.edu.au/academic-integrity-plagiarism</a> Email policy, <a href="https://student.unsw.edu.au/email-rules">https://student.unsw.edu.au/email-rules</a> UNSW Anti-racism policy statement, <a href="https://student.unsw.edu.au/racism">https://student.unsw.edu.au/racism</a> UNSW Equity and Diversity policy statement, <a href="https://www.gs.unsw.edu.au/policy/documents/equitystatement.pdf">https://www.gs.unsw.edu.au/policy/documents/equitystatement.pdf</a> UNSW Equal opportunity in education policy statement, <a href="https://www.gs.unsw.edu.au/policy/archives/equaleducationpolicy1.1.pdf">https://www.gs.unsw.edu.au/policy/archives/equaleducationpolicy1.1.pdf</a>

## 12. Course Evaluation & Development

Courses are periodically reviewed and students' feedback is used to improve them. Feedback is gathered using various means including UNSW's myExperience digital survey.

## 13. Plagiarism & Academic Integrity

### What is plagiarism?

Plagiarism is presenting someone else's thoughts or work as your own. It can take many forms, from not having appropriate academic referencing to deliberate cheating.

UNSW groups plagiarism into the following categories:

- **Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.
- **Inappropriate paraphrasing:** changing a few words and phrases while mostly retaining the original structure and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit. It also applies to piecing together quotes and paraphrases into a new whole, without referencing and a student's own analysis to bring the material together.
- **Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
- **Duplication:** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

### Where can I find out more information?

In many cases plagiarism is the result of inexperience about academic conventions. The University has resources and information to assist you to avoid plagiarism. The first place you can look is the section about referencing and plagiarism in each Course Guide, as this will also include information specific to the discipline the course is from. There are also other sources of assistance at UNSW:

- **How can the Learning Centre help me?**

The Learning Centre assists students with understanding academic integrity and how to not plagiarise. Information is available on their website: <http://www.lc.unsw.edu.au/academic-integrity-plagiarism>. They also hold workshops and can help students one-on-one.

- **How can Elise help me?**

ELISE (Enabling Library & Information Skills for Everyone) is an online tutorial to help you understand how to find and use information for your assignments or research. It will help you to search databases, identify good quality information and write assignments. It will also help you understand plagiarism and how to avoid it. All undergraduate students have to review the ELISE tutorial in their first semester and complete the quiz, but any student can review it to improve their knowledge: <http://subjectguides.library.unsw.edu.au/elise>.

- **What is Turnitin?**

Turnitin is a checking database which reviews your work and compares it to an international collection of books, journals, Internet pages and other student's assignments. The database checks referencing and whether you have copied something from another student, resource, or off the Internet. Sometimes students submit their work into Turnitin when they hand it in, but academics can also use it to check a student's work when they are marking it. You can find out more about Turnitin here: <https://teaching.unsw.edu.au/elearning>.

**What if plagiarism is found in my work?**

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student's work or paying someone to do your work, may be investigated under the Student Misconduct Procedures.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in a honours thesis) even suspension from the university. The Student Misconduct Procedures are available here

<https://www.gs.unsw.edu.au/policy/documents/studentmisconductprocedures.pdf>

**Examples of plagiarism****Using the internet appropriately**

A first year student handed in an assignment where she had copied from a website. Her lecturer realised she didn't understand you have to reference websites in the same way you reference books and journal articles. The lecturer explained how to reference and sent her to a workshop at the Learning Centre to help her improve her skills.

**Working together on a math assignment**

A group of Mathematics students worked together on an assignment when they had been told this was not allowed. All questions where the students had worked together were given zero, and this led to some student failing the assessment.

**No referencing in an assessment**

A third year student submitted a major assessment that included material from a journal article published in Canada. When his essay was submitted into Turnitin, it let the academic know that the student didn't reference the material. The student was given zero for the essay, and because it was worth 50 per cent he failed the course.

**Copying design work**

A final year design student used images of someone else's designs in her work and he said the designs were his own. The matter was formally investigated by his Faculty and he was found to have committed academic misconduct and failed the course.

**Further information and assistance**

If you would like further information or assistance with avoiding plagiarism, you can contact the Learning Centre. The Learning Centre at The University of New South Wales has two locations:

**UNSW Learning Centre**

Lower Ground Floor, North Wing, Chancellery Building  
(C22 Kensington Campus – near Student Central)

<http://www.lc.unsw.edu.au/>

Phone: 9385 2060

Email: [learningcentre@unsw.edu.au](mailto:learningcentre@unsw.edu.au)

Opening Hours:

Monday to Thursday: 9am - 5pm and

Friday: 9am - 2.30pm

**UNSW Art & Design Learning Centre**

G Block, Room G112

**Phone:** 9385 0739

<https://www.artdesign.unsw.edu.au/current-students/student-services/learning-centre>

#### **14. Administrative Matters**

The *School of Psychology Student Guide*, available on <http://www.psy.unsw.edu.au/current-students/student-guide>, contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses, such as:

- Attendance requirements;
- Assignment submissions and returns;
- Assessments;
- Special consideration in the event of illness or misadventure;
- Student Code of Conduct;
- Student complaints and grievances;
- Student Equity and Disability Unit; and
- Health & Safety.

Students should familiarise themselves with the information contained in this *Guide*.
