Summary of the Course

This course provides theoretical and research-driven foundations and principles that underpin the professional practice of translation and interpreting. You will develop a sound understanding of the main theories of translation and interpreting as well as ethical requirements for professional translators and interpreters. It will also introduce you to contemporary interdisciplinary research on translation and interpreting from which you will develop an ability to apply the theories, principles and research findings to your practice, conduct independent enquiry and make informed choices in the process of translation and interpreting. You will need to have advanced bilingual proficiency to enrol in this course.

Course Learning Outcomes

1. critique contemporary translation and interpreting theories, research and professional ethics
2. apply translation and interpreting theories and research to practice by conducting independent enquiry and making informed decisions based on theory and evidence
3. apply theories and research to the development of skills in various interpreting modes
4. devise strategies informed by theories and research to solve translation problems

Teaching Strategies

The course is taught by way of a weekly three-hour lecture and a one-hour tutorial in which contemporary research and theories of translation and interpreting are critically examined, applied, and discussed. The lectures combine foundational theories with interdisciplinary research to inform and justify professional practice. This knowledge is solidified through practical tutorials in which basic translation and interpreting skills are developed. These skills are then refined in a variety of real-world scenarios in which research, theory, and ethical considerations are applied to overcome the linguistic, sociocultural, and cognitive challenges of translation and interpreting. This course serves as a foundation for professional translation and interpreting skills development throughout the translation and/or interpreting programs. While the course is taught in English, an advanced level of bilingual proficiency is necessary.
Assessment

- To prepare for assessments, please attend at least one workshop and one one-on-one consultation on academic writing at the UNSW Learning Centre: [http://www.lc.unsw.edu.au/](http://www.lc.unsw.edu.au/)
- American Psychological Association (APA) referencing is used in all assessments in this course: [http://student.unsw.edu.au/apa](http://student.unsw.edu.au/apa)

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment without appropriate acknowledgement.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study. Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library
Academic Information

Due to evolving advice by NSW Health, students must check for updated information regarding online learning for all Arts, Design and Architecture courses this term (via Moodle or course information provided.)
