Summary of the Course

Subject Area: Music

In this course you will learn some key methods of musical transformation. We will begin with orchestration, which transforms music for a single instrument into music that involves a stage full of performers. Orchestration also requires careful decisions about adding new materials, removing old material, adapting, multiplying, and spatialising musical ideas, all of which will be discussed in terms of historical models (including Mozart, Brahms, Wagner, and Adès, for example). The second part of the course revolves around a question: how have composers used old music to make new music? In answering this question we will focus on transformation itself, and we will examine in detail a wide range of recent re-compositions of earlier music (including Halvorsen, Ives, Berio, Schnittke, Nyman and Adams, for example). These will form models for your own re-compositions.

Course Learning Outcomes

1. Transform music by adapting musical materials to a new situation
2. Compose music by creatively transforming existing musical ideas
3. Accurately prepare a musical score

Teaching Strategies

Rationale:

The content of this course enables students to develop detailed musical-analytical skills that will enhance creative musical practice whilst integrating the skills acquired in the musicianship stream of the program. This course reflects the view that professional practice within the field of music requires an advanced level of detailed understanding (gained through aural and score-based study), and so the course develops those skills at the same time that it enables students to work with existing musical materials in insightful and creative ways.

Teaching strategies:

Multiple teaching strategies will be used including listening, discussion, study and analysis of aural and musical scores, as well as composition tasks.

Assessment Details

Assessment 1: Transformation I

Start date: Not Applicable

Details: This assignment begins with an existing piece, and your task is creatively to transform this piece. The length depends on the manner of transformation. Students will receive written feedback and a numerical grade.

Submission notes: Moodle

Turnitin setting: This is not a Turnitin assignment

Assessment 2: Transformation II

Start date: Not Applicable

Details: This assignment begins with an existing piece, and your task is creatively to transform this piece. The length depends on the manner of transformation. Students will receive written feedback and a numerical grade.

Turnitin setting: This is not a Turnitin assignment

Course Evaluation and Development

Feel free to talk to me about the course throughout the term. There will be a MyExperience survey at the end, but in my experience the most useful feedback takes the form of a conversation.
Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: https://student.unsw.edu.au/how-submit-assignment-moodle
Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of
  UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the
related aspects of ELISE will help you make the most of your studies at UNSW.
