Summary of the Course

This course is concerned with the skills required to produce and critically analyse the longer, more in-depth forms of journalism known by such labels as “feature” and “documentary”. The course will focus on these longer forms as they operate in newspapers, magazines, radio and online, and how they vary according to subject matter – i.e. according to whether they are concerned with current affairs and social issues, or with arts and entertainment or lifestyle and leisure topics. The course will also provide students with an understanding of what is typically involved in the preparation of features and documentaries – e.g. how they are conceived, how they may require the cultivation of appropriate “contacts”, and the types of research and interviewing usually employed. In the process of developing these practical skills, students will also explore concepts and theoretical frameworks for critically analyzing how these texts work communicatively.

Course Learning Outcomes

1. produce in-depth journalistic texts across a range of different media contexts
2. support writing process through relevant research, ethical engagement and quality processes
3. demonstrate ability to successfully write across a range of genres and styles
4. relate writing to related process of text production, including placement within multimedia contexts

Teaching Strategies

The lecture time will be devoted to outlining and discussing the various stages of the news reporting and feature writing process and to a detailed exploration of the different types of feature article and their stylistic and text compositional properties. The tutorials will be devoted to exercises and discussion designed to develop the students' practical skills in conceiving, researching and writing news and more extended feature articles, and in critically evaluating and deconstructing their own and other's work.

This course uses face-to-face classroom teaching, with a lecture and a tutorial each week, including collaborative and individual work. Students prepare readings, discussion points and exercises in advance of each tutorial. For the most part, materials required for tutorial preparation and for assessment tasks will be made available via the course's Moodle website.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of
  UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the
related aspects of ELISE will help you make the most of your studies at UNSW.
