Summary of the Course

Subject Area: Media, Culture and Technology

This course draws on contemporary theoretical and empirical work from the fields of media and social semiotics to explore new media practices across social media platforms. A central focus is understanding the new forms of sociality that are emerging in relation to these new technologies. We will investigate how identities are performed and communities are formed through close analysis of the communicative patterns observable in both small and large sets of social media texts. Of particular interest is how opinion and sentiment are construed in these texts. Students will reflect on their own social media practices as well as engaging with a range of case studies.

Course Learning Outcomes

1. Critically engage with theories of media audiences and media consumption/interaction
2. Communicate theoretical ideas, both in written and spoken form.
3. Collaborate with your peers in undertaking an ethnographic research project.
4. Engage in independent and reflective learning, towards an analysis of your own media use.

Teaching Strategies

One cannot understand social media without understanding audiences. This course aims to give students a detailed knowledge and appreciation of social media in the context of 20th and 21st century audience theory. From ethnography to fandom, pornography to culture jamming, this course will look at how a diverse range of audience consumption practices have been theorised. Grounded in analysis of social media platforms and practices, we will explore theorisations of audience passivity and agency; the politics of participation and the cultural significance of consumption. We will also explore how recent social and technological changes have reconfigured the power of the audience, with a specific focus on the role of Internet communities and social media in facilitating political change.

The assessment tasks will require students to demonstrate both knowledge of audience theory, and an ability to apply its key concepts self-reflexively to offer insight into their own lives and practices of social media use.
Assessment

Here, you’ll only find very basic information regarding your Assessment. You can find detailed information on Moodle, in the "Assessments" section. In addition, you'll be briefed on the Assessments in specific lectures during semester, which are identified in the weekly outlines on Moodle.

Please first raise questions in your tutorial, as others may have the same question. Discussion forums for each Assessment will be created on Moodle, so you will also be able to raise questions there too. Email should only be used if your question relates to a personal matter, such as an extension.

Resources

Prescribed Resources

This course uses a textbook and other readings.

The textbook is:

It is available in the UNSW bookshop and the library.

All other readings can be accessed via the Leganto system on Moodle.

Recommended Resources

Any further resources will be provided in the week by week modules on Moodle.

Course Evaluation and Development

This course undergoes continual development, via MyExperience feedback and collegial review. We therefore take your feedback very seriously. There will also be opportunities in the tutorials during semester for you to discuss your experiences of the course.
Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
