Course Name: History and Geography (K-6)
Credit Points: 6 units of credit (uoc)
Workload: Includes 150 hours including class contact hours, readings, class preparation, assessment, follow up activities, etc.
Schedule: http://classutil.unsw.edu.au/EDST_T2.html
   Lectures: Tuesdays 4-530pm (10 weeks: 23 July to 24 September)
   Lecture location: Matraville Sports High School (UNSW Annex)
   Online: Required weekly activities (see Moodle for details)

SUMMARY OF COURSE
This course examines the syllabus, curriculum planning, assessment strategies, classroom management and development/selection of activities and resources relevant to the teaching of human society and its environment in the primary school classroom. Students will engage in evaluation and selection/development/evaluation of activities and resources relevant to the teaching of key concepts in human society and its environment, in particular Stages 1-3 of the History K-10 (2012) and Geography K-10 (2015) Syllabuses (NESA), in the primary (K-6) classroom:

- Change and Continuity: personal, family, local, community and colonial history
- Cultures: diverse Australian cultures, including those of Aboriginal and Torres Strait Islander people
- Environments: natural and human features of places on local and global scales; change and sustainability
- Social Systems and Structures: roles, rights and responsibilities of people within societies and development of Australian society and democracy (including economy, education and the arts).

AIMS OF THE COURSE
The aim of the course is to develop knowledge, understandings, skills, values and attitudes relevant to teaching human society and its environment in general and the syllabus. We will look at patterns of human interaction across different times at local, national, regional and global levels. Prospective teachers will be encouraged to think about connections between environments, change, continuity, culture, identity, resources and power over time. They will think critically about the roles and responsibilities of citizenship in a multicultural society and how to develop values of fairness and equity in their future students.

THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:
- The number of assessments has been reduced from three to two tasks.
- The course has been more closely integrated with the INSTEP component through the re-designed assessment tasks that enable students to design, teach and evaluate a series of three history or geography lessons.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

The course structure allows students to explore and understand the content and organisation of the NSW K-6 History and Geography curriculum. Students will develop and demonstrate the skills they need to plan programs, lessons and activities suitable for different learning styles and stages of development.

5. TEACHING STRATEGIES

The course will run as a series of workshops including lecturer input, practical hands-on tasks and structured and collaborative discussions based on the required readings for each week. Students will also plan, teach and evaluate lessons for their INSTEP school students.

Submission of assessments

Students are required to follow their lecturer’s instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc. [https://education.arts.unsw.edu.au/students/courses/course-outlines/](https://education.arts.unsw.edu.au/students/courses/course-outlines/)

Assessment Details

Pre-assessment: Communities as resources for learning

Identify and describe the key demographic, historical and geographical features of the Little Bay community. How has the composition of the community changed over time, and why? In what ways can you draw on this demographic, historical and geographical in your teaching? Upload your 500 word response to Moodle before the beginning of the course.

Assessment 1: Lesson Sequence (40%)

1. Negotiate with your INSTEP teacher(s) to plan a sequence of three lessons during your INSTEP visits in School Term 3. It is very important that you use a topic in History OR Geography from their existing scope and sequence. It is not appropriate to impose a lesson sequence that is not in their school plans.
2. Conduct formative assessment of the History OR Geography knowledge of three students in one class at your INSTEP school.
3. Design a sequence of three lessons for this class of students in your INSTEP school.
4. Annotate your plans to demonstrate where you have met each of the graduate standards listed in the table above for assessment task 1 (footnotes will work).
5. Justify your choice of assessment, teaching and learning activities through reference to the literature, syllabus documents and other credible professional resources. Most importantly, make reference to the existing ability of the students you will be teaching.
Assessment 2: Evaluation of student learning in lesson sequence (60%)

1. Teach the lesson sequence you planned in Assessment 1. You are encouraged to make changes to the lessons sequence as you see fit. Show these changes in your text by using pull out boxes or track changes.

2. Collect evidence of student learning from the three students you focused on in task 1.

3. Modify your lesson plans in response to the student learning evidence you gather from each lesson. Show these changes in your text by using pull out boxes or track changes.

4. Modify your teaching in each lesson in response to student learning needs. Justify these changes in relation to student learning.

5. Write a critical evaluation of the student learning in these three lessons using the evidence you collected, with reference to your teaching practice and planning as well as the literature covered in this course.

6. As a professional it is up to you to decide which method you will use to structure this text. Use the assessment criteria in the rubric to guide the choices you make.

An alternate option is included here if, for some reason, you do not have the opportunity to teach the lessons you planned (in Assessment 1) for History OR Geography during school Term 3:

Alternate Option for Assessment 2

1. Examine the school scope and sequence in History OR Geography.

2. Identify three units of work that integrate connections over time (e.g., with environments, culture, resources, etc.) and citizenship in our multicultural society (e.g., roles, responsibilities).

3. Explain the relationship of these two skills in these units (with reference to peer-reviewed literature).

4. Evaluate the three units and comment (with reference to peer-reviewed literature) on the extent to which the skills are integrated and ways in which this could be strengthened.

5. Modify these three units and justify your changes (with reference to peer-reviewed literature).

Reflection: Student impact, knowledge extensions or gaps

Describe three ways in which you would assess the impact of your teaching in this KLA on your future students. If you have a specialisation in this KLA (e.g., a major in your undergraduate degree), describe how you could build on your advanced knowledge/skills to make improvements in student achievement in this KLA in your current school. If you do not have a specialisation in this KLA, identify three areas of your disciplinary knowledge/skills that require further development, and what strategies you will use to achieve that. Upload your 500-word response to Moodle.

**Understanding of the question or issue and the key concepts involved**
- Plans make reference to the formative assessment of three students prior to the lesson
- Plans cover key ideas in History or Geography

**Depth of analysis and/or critique in response to the task**
- Plans use the literature and the syllabus to justify the choice of learning activities

**Familiarity with and relevance of professional and/or research literature used to support response**
- Appropriate research references to support responses
- Sound range of research references

**Structure and organisation of response**
- Appropriate nature of structural organisation
- Logical and coherent structure
- Clear presentation of ideas to enhance readability
- Accurate annotations of the graduate standards

**Presentation of response according to appropriate academic and linguistic conventions**
- Clarity, consistency and appropriateness of conventions for quoting, paraphrasing, attributing sources and information and listing references (APA style)
- Clarity and appropriateness of sentence structure, vocabulary use, spelling, punctuation and word length
