SUMMARY OF COURSE

This course draws on sociocultural theories to introduce the continuum of English learning K-6, with special emphasis on the transitions prior to school to Early Stage 1 and in Stage 1. There will be a focus on literacy concepts students bring to school, as well as the range of developmental understanding and student ability within most classes. The emphasis will be on pedagogical approaches and teaching strategies suitable for

- a) developmental stages
- b) progress in literacy
- c) understanding and application of concepts across modes
- d) formative assessment.

AIMS OF THE COURSE

The course enables students to explore and gain understanding of the role and value of fostering a love of English, language and literature; the power of language to express and evaluate ideas; the importance of effective communication across a range of modes; the role of language in positive interactions with others and the history and diversity of English and other languages. Students will enhance their knowledge, skills and understanding of the importance of English as a key to learning and learn how to apply the literacy continuum across all modes in Early Stage 1 and Stage 1 to assess effectively and formatively and to enhance development of early literacy skills.

THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:

- Course location and time: The weekly lectures were held in Little Bay and started at 3:30pm. It was challenging for the students to be ready for the 3:30 start time after being in their INSTEP placements until the end of the school day. Now that INSTEP includes schools outside of Little Bay, we have moved the class start time to 4pm. The course will now be held on campus as it is a more central location.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

Students need to understand the scope and sequence of the NSW Board of Studies (2015) English K-10 syllabus and use it appropriately to track typical stages of development within and across skill areas. The course has a strong focus on literacy development and the diverse influences and aspects of literacy. Understanding the recursive nature of literacy development is critical. The Literacy Continuum will be used to analyse both concurrent development of aspects of literacy and the cumulative nature of skills across literacy strands.

5. TEACHING STRATEGIES

The course will integrate classroom observations, pedagogical theory for literacy learning and practical development of teaching resources. Students will also teach groups of students in Stages 1-3 to deepen understanding of how literacy develops. A range of teaching strategies will be explored and critically evaluated for their appropriateness and effectiveness for different contexts and for diverse student needs.

Assessment Details

Pre-assessment: Read and reflect on some of the key debates in the media about teaching early literacy, in particular in relation to phonics and whole language. As a teacher, how will you respond to these debates in your choice of classroom strategies? Upload your 500-word response to Moodle before the beginning of the course.

Assessment 1: Lesson Plan. Develop a lesson plan which deals with teaching an early literacy topic, using the lesson plan template provided (see Moodle). Consider how you need to differentiate a range of student needs and the typical diversity of backgrounds, including EAL/D, Indigenous students and those with some delays in critical aspects of language acquisition and processing. Include a rationale explaining how you address such diversity, including how you assess and respond to delays/differences in language and literacy development in the one class.

Assessment 2: Portfolio of English Resources with Assessment Case Study

- **Part One- Resources (2000 words equiv)** – a recording of oral reading to a child (with questions and answers about the text) of an original literary text with illustrations. Other requirements include an original resource to assess prior-to-school literacy, a spelling resource to teach blended sounds, and a selection of annotated student texts showing the writer's current level of development in terms of writing, grammar, spelling and punctuation.
- **Part Two- Assessing Skills in Reading – A Case Study (2000 words).** Evaluate the reading competency of a student in Stage 1 (not Early Stage 1). Consider the relative performance when the text is supported by illustrations and when it is text only. Evaluate the student's ability to read real words compared to made up words. What letter patterns or types of words are most challenging? How would you assess levels of comprehension? What interventions would you recommend? Provide a rationale for your recommendations as well as evidence supporting your diagnostic assessment. Work out what you would say to the student?

Reflection: Student impact, knowledge extensions or gaps

Describe three ways in which you would assess the impact of your teaching in this KLA on your future students. If you have a specialisation in this KLA (e.g., a major in your undergraduate degree), describe how you could build on your advanced knowledge/skills to make improvements in student achievement in this KLA in your current school. If you do not have a specialisation in this KLA, identify three areas of your disciplinary knowledge /skills that require further development, and what strategies you will use to achieve that. Upload your 500-word response to Moodle before the end of the course.
