## SUMMARY OF THE COURSE

This course is designed to increase a student's pedagogical content knowledge for Drama teaching. The key elements of pedagogy and Drama content knowledge are examined and developed. Students will critically address how these elements can then be combined into effective classroom practice for addressing the requirements and philosophy of the NSW Drama syllabuses.

## THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED AS A RESULT OF STUDENT FEEDBACK

- The hurdle requirement is now held as a component of Week 7, rather than earlier in the course. This change allows students more time to complete and submit the online assessment course and common e-portfolio. NB: The same portfolio covers both methods for which the student is enrolled.
- The course outline was significantly updated to accommodate cross method assessments

## STUDENT LEARNING OUTCOMES

#### 4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

This subject aims to develop in each student the ability to effectively teach Drama to secondary school students with an emphasis on the NSW Drama curriculum. During the course students will develop their knowledge of the New South Wales syllabus documents for stages 4, 5 and 6. Lectures, tutorials and assignments will explore current practices in drama teaching and develop in students, the skills and knowledge required to teach drama effectively to a variety of students. Teaching in this course will be both theoretical and experiential. Emphasis will be given to viewing Drama as an artform with a discrete body of knowledge including conventions, history, skills and methods of working and the role and value of Drama in the curriculum and the community.

Student centred activities will form the basis of the course. These activities will draw on the prior knowledge of the students and will allow them to engage in relevant and challenging experiences that mirror those they will be expected to design for the secondary students they will later teach.

#### 5. TEACHING STRATEGIES

- Pair, small-group and large-group cooperative learning experiences to understand the importance of collaboration in an educational drama context and to demonstrate the use of group structures as appropriate to address teaching and learning goals
- Explicit teaching, including lectures, to demonstrate different approaches to learning, the mandatory components of the drama curriculum and the use of a range of teaching strategies to foster interest and support learning
- A range of drama specific workshops, which model experiential learning through enactment when teaching theoretical components of the course
- Collaborative projects which mirror those in the Drama Syllabus, Year 7-10 and in the Stage 6 Drama Syllabus, e.g. play-building in Years 7-10 and the Group Presentation in Stage 6
- Viewing student samples of work and simulated marking experience especially of Year 9 play-building, Year 10 dramatic form and Year 12 HSC Projects
- Simulations and 'teacher-in-role' experiences
- Keeping a logbook of class experiences mirroring a drama logbook in stage 4, 5 and 6

- Structured occasions for reflections on learning, encouraging critical reflection and improved teaching practice. Also, these allow students opportunities to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and show knowledge and understanding of method content
- Online learning from readings on the Moodle website
- Peer teaching in a simulated classroom setting
- These activities will occur in a classroom climate that is supportive and inclusive of all learners.

### Submission of assessments

Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc. <https://education.arts.unsw.edu.au/students/courses/course-outlines/>

## **Assessment Details**

### **Assessment 1 (2000 wd eq, 40%)**

**PART 1:** Create a scope and sequence, including learning outcomes, covering 10 weeks for a Year 11 preliminary class. The Scope and Sequence should be for a unit on The Elements of Production in Performance and should use A Midsummer Nights Dream as its core text.

**PART 2:** Prepare an assessment task (not an essay) that directly links to the teaching and learning intentions for the term's work. Your scope and sequence must indicate when the task will occur and how the feedback form the summative task can also be used for formative assessment. Make sure your instructions for the task are grammatically correct and communicate effectively for students.

Design a marking rubric, which also includes space for a holistic comment.

Provide an exemplar student answer for the assessment task. Write a feedback comment for this response outlining its strengths and indicating at least one aspect which could be further improved.

### **Assessment 2 (3000 wd eq, 60%)**

Prepare a unit of work for Year 12 which covers approximately half the term. You need to ensure the unit demonstrates you are ready to plan and teach Stage 6 effectively. Make sure you have reflected on the feedback you received for the scope and sequence you prepared for Assessment 1.

The unit of work should indicate a variety of formative assessment strategies which will provide students with feedback about:

- a. what they can already do well
- b. what they still need to improve
- c. how they can effectively close the gap between a and b.

Include all activities and resources to support student learning. There must be at least one literacy activity/resource and one numeracy/ICT resource.

## HURDLE REQUIREMENT FEEDBACK AND REPORTING

Assessment is the process of gathering evidence from a variety of sources about learning outcomes and being able to use that information to improve learning and teaching. Evidence includes not only individual student work samples and test results, but also more global data derived from standardized tests (e.g. NAPLAN, ICAS, HSC etc) as well as more qualitative information generated from student self and peer evaluations, and student-parent conferences.

Feedback is a structured interaction with the student about their current learning: where they are, where they want and /or need to be and how to get there. It may be in oral or written form and may be given by the teacher, by the student's peers or take the form of self-assessment. Feedback needs to indicate learning that has been demonstrated (achieved) as well as what needs more work. For the feedback to also feed forward, comments need to provide students with strategies to guide their improvement. Feedback /reporting to and for parents is also important as they are critical stakeholders and partners in their children's learning.

Moderation is a process used by teachers to compare their judgements about student performance so that assessment is trustworthy. Teachers work together as a group to ensure that the way they use assessment grades is consistent with agreed or published standards. For A to E grades this means the grade a student receives in one school can be fairly compared to the same grade anywhere in NSW. For school-based tasks, it means the work of students in different classes can be assessed using the same success criteria to evaluate progress toward learning outcomes. Watch the series of seven videos to enhance your understanding and knowledge on how to make sound and consistent judgment of student work.

[https://www.youtube.com/watch?v=-QBLZAbhaYc&list=PLgBQxWO\\_rR7ZrIZopD\\_wZvdt6kY8EsfLK](https://www.youtube.com/watch?v=-QBLZAbhaYc&list=PLgBQxWO_rR7ZrIZopD_wZvdt6kY8EsfLK)

It is recommended that students read widely on how to design appropriate assessment tasks, how moderate student samples of work and how to provide effective feedback. Tutorial time will be allocated to discussing this aspect of professional competence and providing experience with the moderation and feedback process

The assessment process consists of two components.

1. A collection of five or six authentic student responses to preferably two assessment tasks. The responses may be written, visual or oral. The number depends on the length of the response. For each text:
  - ensure anonymity by removing student names and destroying the samples at the end of the course.
  - include the instructions that were given for the assessment task and indicate whether the task was intended for formative purposes or summative and formative purposes
  - annotate the task to indicate what worked well and what needs changing if it were to be used again
  - include the assessment criteria and/or marking scheme/rubric for each task
  - provide annotations (with time codes if your sample is audio- or video-based) to indicate what the student has demonstrated as areas of strength and areas that need to be developed further in relation to the task
  - include a key for marking symbols
  - find out what the general expectation and/or current standards of the school/system are in relation to this subject area/topic/skill by consulting published NAPLAN/HSC/other relevant data, as well as talking to teachers, and consider where this student work is in relation to those overall expectations/standards as well in relation to their previous performance
  - provide written feedback for the student which indicates strengths and areas for improvement in relation to this work sample as well as their past performance and overall expectations/standards. Suggest a strategy that will guide the student in his/her learning. (If the task was used summatively you can still use it for formative purposes).
  - indicate what the implications of your evaluation might be for the teacher in terms of future teaching.

2. Write a few lines that could be included in a mid-year report comment to parents. Provide enough detail to indicate to parents, which aspect of the student's performance you are commenting on. Add A, B, C, D or E to align with the advice and work samples provided by NESA and ACARA.

**NOTES:**

**The student work samples must be authentic. They should have been collected during Professional Experience 1 during a normal assessment task and/or provided by the method lecturer. Annotated student work samples, notes and all other written evidence of teacher education students' ability to address Standard 5 to be discussed in class and submitted by the due date.**

**If a student is assessed as Unsatisfactory in the feedback and reporting hurdle requirement, s/he will automatically fail Method 2 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.**
