SUMMARY OF THE COURSE

This course is designed to increase a student's pedagogical content knowledge for Modern History teaching. The key elements of pedagogy and History content knowledge are examined and developed. Students will critically address how these elements can then be combined into effective classroom practice for addressing the requirements and philosophy of the NSW History syllabuses. The main focus in Semester 1 is on History in Stages 4 and 5 and the links to the K-6 curriculum.

THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:

- Modified teaching schedule to ensure no overlap with other Ancient History methods courses at UNSW.
- Include more online and collaborative activities across the course.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

This subject aims to develop in each student the ability to effectively teach History to secondary school students according to the philosophy and requirements of the NSW *K-10 History Syllabus* documents. During the course students will develop their knowledge of New South Wales syllabus documents.

Lectures, tutorials and assignments will cover a variety of approaches to teaching and learning in the History classroom. Emphasis will be given to the relationship between History, literacy and numeracy and the role and value of History in the curriculum and the community.

Student-centred activities will form the basis of the course. These activities will draw on the prior knowledge of the students and will allow them to engage in relevant and challenging experiences that mirror those they will be expected to design for the secondary students they will later teach, including embedding Aboriginal and Torres Strait Islander histories and cultures.

5. TEACHING STRATEGIES

- Explicit teaching, including lectures, to demonstrate an understanding of students' different approaches to learning and the use of a range of teaching strategies to foster interest and support learning.
- Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals.
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice.
- Online learning from readings on the Moodle website.
- Online discussions.
- Peer teaching in a simulated classroom setting.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Assessment details

Assessment Task 1: Lesson Plan

Plan and design one 60-minute lesson for a mixed-ability Stage 4 or 5 class. The lesson plan must follow a standard SED format and be presented using the template provided.

Plan your lesson for a class in a comprehensive high school which would typically include EAL/D students, Indigenous students and students with various religious and cultural backgrounds. Some students may have low levels of literacy. Differentiation to cater for some students is therefore required. Appropriate differentiation strategies are scaffolding, group work and/or an alternative task or mode of presentation.

1. Write a rationale for your lesson plan (600-800 words). Your rationale should address the questions:
What do I want the students to learn?
Why is it important?
What strategies will I use?
What assessment for learning strategies will I use to monitor progress?
2. Prepare the lesson plan to demonstrate how you will use appropriate structure, activities, strategies and formative assessment to develop understanding of the material.

In your lesson plan, make sure you:

- choose an appropriate topic for the year group^[1]_{SEP}
- support your rationale using references indicating your professional reading^[1]_{SEP}
- choose appropriate outcomes and lesson content^[1]_{SEP}
- demonstrate knowledge of effective teaching and learning strategies
- use appropriate format and provide sufficient detail for an effective lesson plan^[1]_{SEP}
- include an aspect of literacy/numeracy which integrates with the lesson focus
- provide in full one activity (which may be ICT-based)
- express yourself in clear, standard Australian English.

Assessment Task 2: Stage Five (5) unit of work outline

Prepare an outline for a unit of work for a Stage 5 class. The unit of work should cover the first five lessons; however, you are not preparing full lesson plans.

Note: If your lesson plan for Assessment 1 was for Year 9, you should use Year 10 for this assessment.

You must write a rationale for the unit (600-800 words) in which you:

- provide a brief outline of the school and class context
- state precisely what you want the students to learn and why it is important
- justify your choice of topic/text to suit the needs and abilities of this class
- justify your teaching strategies by referring to readings, research and material presented in lectures and the Quality Teaching framework
- demonstrate how differentiation will support a diverse range of learners
- state the prior knowledge students have to begin this unit and discuss how you would assess and build on this prior knowledge.

The unit must include the following across the five lessons:

- one full activity for formative assessment (not an essay)
- one ICT-based activity (not watching a video or PowerPoint presentation)
- one group-work task with a focus on literacy/numeracy (not a mind-map)
- one incursion/excursion/performance/product activity
- outlines only for the other teaching materials required.

HURDLE REQUIREMENT

ASSESSMENT TASK 3 - MICROTEACHING

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a 10-minute mini-lesson). It is a critical aspect of method as it provides students with the opportunity to demonstrate key competencies that must be achieved before student teachers are permitted to undertake Professional Experience 1, at the same time observing other student teachers and engaging in peer review. It is recommended that students read widely on effective classroom strategies and practise aspects of their mini-lesson with a small group of peers prior to assessment.

The assessment process will consist of the following two components:

1. A detailed **lesson plan using the prescribed template**, including a statement of expected learning outcomes (see assessment 1 on page 10)
2. A 10-minute mini-lesson.

Microteaching presentation

Students should choose a 10-minute segment from one lesson plan to present to their peer group.

At some stage in your microteaching lesson, and in its subsequent presentation, **you must demonstrate the use of a literacy or numeracy strategy**, relevant to the subject content and the needs and abilities of the students you have identified in your rationale.

1. Initial Lesson Plan: All students must submit their proposed lesson **plan as Assessment task 1 in Week 5**. The feedback will be designed to help facilitate a successful microteaching experience.

Notes

1. **Component TWO: Microteaching will not proceed unless Component ONE: Lesson Plan is satisfactorily completed.**
2. **Micro-teaching:** This will be assessed according to the attached criteria and will be graded as **Satisfactory or Unsatisfactory**. Any student whose first microteaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.

A student who is assessed as unsatisfactory in microteaching will automatically fail Method 1 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.
