### SUMMARY OF COURSE

This course examines the professional issues commonly faced by first year teachers in their area of specialisation. Using Action Research and professional inquiry, teachers learned to use Action Research to inform their practice.

### THE MAIN WAYS IN WHICH THE COURSE HAS CHANGES SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:

- More interactive Moodle activities will be implemented
- Adjusting some topics for online discussions
- Reducing the workload

## STUDENT LEARNING OUTCOMES

Outcome		Assessment/s
1	Identify and analyse the nature and scope of the multiple challenges facing teachers in their area of specialisation in the first year of professional practice	1, 2
2	Identify practices that contribute positively to the professional trajectories of new teachers, including for example, mentoring, peer support, group problem-solving, collaborative planning, shared narratives, dialogue, and critical reflection	1, 2
3	Implement strategies for addressing particular issues arising in the first years of professional practice by completing a professional Action Research / Action Learning project	1, 2

## AUSTRALIAN PROFESSIONAL STANDARDS FOR TEACHERS

Standard		Assessment/s
2.1.1	Demonstrate knowledge and understanding of the concepts, substance and structure of the content and teaching strategies of the teaching area	1, 2
6.1.1	Demonstrate an understanding of the role of the Australian Professional Standards for Teachers in identifying professional learning needs.	1, 2
6.2.1	Understand the relevant and appropriate sources of professional learning for teachers.	1, 2
6.3.1	Seek and apply constructive feedback from supervisors and teachers to improve teaching practices.	1, 2
6.4.1	Demonstrate an understanding of the rationale for continued professional learning and the implications for improved student learning.	1, 2
7.2.1	Understand the relevant legislative, administrative, and organisational policies and processes required for teachers according to school stage.	1,2
7.4.1	Understand the role of external professionals and community representatives in broadening teachers' professional knowledge and practice.	2

## NATIONAL PRIORITY AREA ELABORATIONS

Priority area		Assessment/s
C. Information and Communication Technologies	3, 4, 8, 14	1, 2

#### **4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH**

New teachers are faced with multiple challenges and often find themselves ill-prepared and under-supported in facing the intellectual, social, emotional, and physical challenges of first year teaching. The course identifies and examines the multiple challenges faced by new teachers in their area of specialisation and supports them in developing and implementing strategies to address these challenges. In so doing, it also aims to provide novice teachers with the conceptual models and the practical tools, including Action Research and Action Learning/Reflective Learning, to consolidate and extend the developmental trajectory of their careers as teachers in their area of specialization. This course examines how the action research process can be used to inform decision making and examines how practice can be informed through critically engagement with research literature and reflection on their practice. The teaching approach is premised on the belief that students learn best when they are engaged and given an appropriate level of challenge; when their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers.

#### **5. TEACHING STRATEGIES**

This course will involve a range of modes of engagement including teacher-student and student- student discussions, readings, videos, online seminars, and online discussion forums. The concept is to make this course as relevant as possible to your emerging needs by providing a framework for thinking about professional issues, whilst at the same time establishing collaborative communities for ongoing professional support and peer mentoring as a means of assisting you in working through the professional issues you confront in novice teaching in your area of specialisation.

<b>Assessment Task 1:</b> A reflective narrative	1000 words	35%	1,2	6.2, 7.2	C3, 4, 8, 14	Monday 27 <sup>th</sup> February 2023 by 5pm via Moodle
<b>Assessment Task 2:</b> Action research	2500 words	65%	1,3	6.1, 6.3, 6.4, 7.4	C3, 4, 8, 14	Thursday 27 <sup>th</sup> April 2023 by 5pm

### **Submission of assessments**

All assessments must be passed to pass the course. Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Assessment task 1 and assessment task 2 will be submitted online via Moodle (Turnitin) by 5pm. Students are also required to keep all drafts, original data, and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties, and hurdle requirements etc. <https://education.arts.unsw.edu.au/students/courses/course-outlines/>

### **Assessment Details**

#### **Online participation**

This course is offered fully online. You are required to participate in the weekly guided discussion on a Moodle discussion forum (at least two hours each week). See Moodle for further information.

#### **Assessment 1: A reflective narrative (1000 words)**

You are required to write a reflective narrative of ongoing issues focused on a particular aspect of, or issue in, professional practice in your area of specialisation, using the Reflective Thinking Tool as a scaffold / structure, and with links to the literature on reflective practices as appropriate and weekly guided discussion on a Moodle discussion forum. The Reflective Thinking Tool will be available as a resource on Moodle.

In crafting your response, you will need to consider:

- Definition of the problem or issue
- Contextual issues, underlying factors or other dilemmas framing the problem or issue
- Relevant personal core qualities (beliefs, identities, ideals) and disciplinary content knowledge that you can draw on – or may need to modify – to influence the situation
- Potential solutions to the problem or issue and evaluation of the potential solution including the pros and cons
- Lessons learned and/or implications for the future

## **Assessment 2: Action research (2500 words excluding references)**

Using action research as a professional learning activity to support your professional learning. You are required to choose and complete one of the following:

1. A detailed proposal for an AR project based on the planning stage of the AR cycle (theoretical), or
2. A mini AR project where all stages of the AR cycle are implemented and documented (empirical).

The issue explored through the research will relate to your current or prior experience in school.

In planning your action research project, you will need to address the following contents

- Introduction
- Statement of the problem(s)
- Need/importance of the study (the need should arise primarily from classroom practice/observations, but also be linked to the literature)
- Review of Literature (definitions of terms and review of relevant studies)
- Methodology
  - Objective/objectives of the study
  - Research Questions
  - Participants
  - Action research procedure (including AR steps, possible intervention, materials used)
  - Data collection techniques (including a justification for the methods used and data collection instruments)
  - Data collection analysis and/or interpretation (including a justification for the methods used)
  - Results / expected results and discussion of results. Limitation of research must be detailed
- Conclusion and areas for further development
- References
- Appendices
