Course Details

Credit Points 6

Summary of the Course

This course will enable you to investigate the nature of bilingualism by focusing on how it evolves and how it is maintained in an increasingly globalised world. It will enable you to understand that bilingualism can be studied at an individual level (focusing on psycholinguistic, neurolinguistic, and cognitive aspects), but also at a societal level (focusing on sociological, intercultural, and ideological domains). You will have the opportunity to explore a range of topics within the study of bilingualism, including: how communities and individuals make language choices, how bilingualism develops the brain, the advantages of bilingualism for children's development, and the social benefits of supporting minority languages.

Course Learning Outcomes

1. Explain basic conceptual and empirical issues in the study of bilingualism.
2. Critically evaluate current advances in the study of bilingualism with particular reference to linguistic, sociolinguistic, and psycholinguistic aspects.
3. Assess current issues in the analysis of bilingual development.
4. Defend or challenge language policies on bilingual development.

Teaching Strategies

Classes will take a workshop format. While there will be some short introductions to the theories in a lecture format, most time will be spent on interactive group discussions considering key concepts, issues and problems. Students will be expected to do set reading tasks weekly and do a 10 minute class presentation.
Assessment

Students are required to use APA referencing for all their assignments. Word length does not include the list of references.

Assessment Details

Assessment 1: Class test

Details:

Test (1 hr) on topics covered in the course. Delivered online. Individual feedback will be provided.

Assessment 2: Presentation

Start date: Not Applicable

Details:

A class presentation (10 minutes) based on set readings and topics covered in the course. Individual feedback will be provided.

Turnitin setting: This is not a Turnitin assignment

Assessment 3: Research essay

Start date: Not Applicable

Length: 2000 words

Details:

A research essay (approximately 2000 words) on any of the major topics covered in the course. Individual feedback will be provided. This is the final assessment for attendance purposes.

Submission notes: submit online
**Turnitin setting:** This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.
## Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

Course Evaluation and Development

This course is evaluated through the MyExperience survey. The course is updated from student feedback. In the past years students valued the interactive nature of the course and the flexibility for students to choose their focus topic for their essay as well as their presentation topics.
Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externaltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: https://student.unsw.edu.au/how-submit-assignment-moodle
Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
