School Contact Information

School of Humanities and Languages

Location: School Office, Morven Brown Building, Level 2, 258

Opening Hours: Monday - Friday, 9am - 5pm

Phone: +61 2 9385 1681

Fax: +61 2 9385 8705

Email: hal@unsw.edu.au
Course Details

Credit Points 6

Summary of the Course

In this course, you will develop the necessary skills to work effectively with cutting-edge translation technologies, including computer-assisted translation tools and machine translation. You will learn how to use contemporary translation technologies in complex professional projects to meet client needs. You will acquire the necessary contextual knowledge and skills to critically employ translation technologies to a range of real-world individual and group-based scenarios in the language services industry. You will also develop problem-solving and intercultural communication skills in the context of authentic translation project management.

Course Learning Outcomes

1. identify and overcome technological challenges in translation based on research and industry best practice
2. apply practical skills in planning, using, and advising on translation technologies
3. use contextual knowledge to successfully work with translation technology in the language services industry
4. work effectively in a collaborative multilingual team
5. evaluate the role of machine translation in the context of the language services industry

Teaching Strategies

In lectures, students learn about the contextual knowledge of translation technology, professional practice and industry, starting from basic concepts to holistic overview of industry practice and contemporary research. In tutorials, students mainly learn to use translation technologies through hands-on practices in computer labs, starting with basic functions to comprehensive tasks.
Assessment Tasks

Assessment Details

Assessment 1: Quiz

Start date: During lecture time each week

Length: 20 randomised items per week

Details:

Individual multiple-choice quiz containing 40 randomized items from lecture content and required reading.

Individual written feedback is provided on each quiz item.

Additional details:

Quiz containing 20 randomized items from lecture content and required reading. Correct answers will be released after the quiz is completed, and questions might be discussed in lectures or tutorials.

From 2021, this assignment will be managed via MS Teams. Please pay attention to the Teams announcement and instructions.

Submission notes: Please see Moodle for the instructions, resources, and marking criteria for this assessment.

Turnitin setting: This is not a Turnitin assignment

Assessment 2: Translation memory project

Start date: week 4

Length: 2,000-2,500 words

Details:

A practical translation memory project in the form of an individual report (2,000–2,500 words).
Individual written feedback with a rubric is provided on each project with additional individual and group-based discussion provided in class.

**Submission notes:** Please see Moodle for the instructions, resources, and marking criteria for this assessment.

**Turnitin setting:** This assignment is submitted through Turnitin and students can see Turnitin similarity reports.

**Assessment 3: Machine translation project**

**Start date:** week 6

**Length:** 2,000-2,500 words

**Details:**

An empirical machine translation project in the form of an individual report (2,000–2,500 words).

Individual written feedback with a rubric is provided on each project with additional individual and group-based discussion provided in class.

**Submission notes:** Please see Moodle for the instructions, resources, and marking criteria for this assessment.

**Turnitin setting:** This assignment is submitted through Turnitin and students can see Turnitin similarity reports.
Attendance Requirements

Students are strongly encouraged to attend all classes and review lecture recordings.

Resources

Prescribed Resources

All of the following resources are available on Moodle and/or via the UNSW Library:

- Multilingual: Language, tech, business http://dig.multilingual.com/

Recommended Resources

- The Learning Centre at UNSW: http://www.lc.unsw.edu.au/

Course Evaluation and Development

Informal feedback is gathered through the course and in the in-class activities and assessments. Formal feedback is gathered at the end of the course through myExperience. All forms of student feedback are acted upon to improve the student learning experience in this course and its future iterations.
Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: https://student.unsw.edu.au/how-submit-assignment-moodle
Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
