Credit Points 6

Summary of the Course

This course focuses on syntax – traditionally defined as the study of the grammatical relation between words within the sentence. The course approaches the study of syntax from the perspective of generative linguistics. It explores the methodological foundations of the generative linguistics framework with particular reference to the place of syntax in the study of the human language faculty. The course investigates a number of key theoretical constructs that attempt to account for both universal and language-specific syntactic phenomena. You will have the opportunity to analyse data from English and a wide range of different languages.

Course Learning Outcomes

1. Explain the conceptual and empirical foundations of generative syntax.
2. Apply basic techniques of syntactic analysis.
3. Analyse syntactic data and argue the merits of the analysis.
4. Construct models of syntactic knowledge to investigate and account for data from English and a wide range of different languages.

Teaching Strategies

The teaching strategies involve lectures and tutorials. The tutorials are designed to foster individual problem solving skills as well as engagement in collaborative teamwork.

Assessment Details

Assessment 1: Homework Problem Sets

Start date: Not Applicable

Details:
Short exercises to be completed weekly and submitted online.
In-class general oral and written feedback is provided.

Turnitin setting: This is not a Turnitin assignment

Assessment 2: In-class Test

Details:
60 minute test covering the content of lectures and tutorials.
General and individual written feedback is provided.

Turnitin setting: This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.

Assessment 3: Final Exam

Details:
2 hr exam covering all the major topics of the course.
This is the final assessment for attendance purposes.

Turnitin setting: This assignment is submitted through Turnitin and students do not see Turnitin similarity reports.
Attendance Requirements

Attendance of tutorials is mandatory in this course. Attendance is taken at the tutorials. Unexcused absence from more than 20% of tutorials will result in the award of fail grade. In tutorials, you will actively engage with core course content, enabling you to attain CLO 1 and CLO 3.

Resources

Prescribed Resources

Required textbooks

Recommended Resources

Books:

The Minimalist Program (1995)

Chomsky’s Universal Grammar: an Introduction

Introducing Transformational Grammar (1994)

Transformational Grammar: A First Course (1988)

The Language Instinct (1994)

Lectures on Contemporary Syntactic Theories (1985)

An extensive list of online resources is provided in Moodle. You must consult Moodle regularly for updates.

Course Evaluation and Development

Courses are periodically reviewed and students’ feedback is used to improve them.

Feedback is gathered from students using myExperience. It is encouraged students complete their surveys by accessing the personalised web link via the Moodle course site.
Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: https://student.unsw.edu.au/how-submit-assignment-moodle
Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another’s ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (http://www.lc.unsw.edu.au/). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
• understand your rights and responsibilities as a student at UNSW
• be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
• be aware of the standards of behaviour expected of everyone in the UNSW community
• locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
