Summary of the Course

Subject Area: *Sociology and Anthropology*

This course can also be studied in the following specialisation: *Asian Studies*

How do individuals experience the process of growing older? Considering a range of Asian societies, this course examines how the biological language of ageing relates to the cultural language of maturation, youth, adulthood, and old age. Through an investigation of sociological and anthropological theories of the life-course, you will examine the social and political processes whereby personhood is acquired and challenged, and with which biographical lives are shaped. Sub-topics are likely to include: childhood and youth; birth and death; embodiment and technology; old age and ageing; temporality and intergenerationality; gender and sexuality.

Course Learning Outcomes

1. Solid grasp of key sociological and anthropological theories of the life-course.
2. Insight into scholarly debates surrounding the sociological and anthropological study of adulthood and old age.
3. Enhanced capacity for independent research, analysis, and writing
4. Enhanced oral communication, facilitation, and presentation skills
5. Ability to work collaboratively and respectfully with other students through participation in class discussions and small group exercises
6. Capacity to reflect on one's own learning and to chart steps for further growth

Teaching Strategies

Seminar topics are used to address major themes and ideas about the anthropological and sociological study of the life-course, building up the theoretical context for exploration of the implications of the main issues. The teaching style in the 3-hour seminar is interactive. This interactive model focuses on developing students' understanding of the subject matter with the goal of helping them develop their own views.

Assessment Details

Assessment 1: 1 Class Presentation and Discussion Facilitation

Start date: Not Applicable

Length: 45 minutes

Details: Presentations will start in Week 3 and will continue until Week 11. Groups will receive a feedback sheet on which the instructor assesses them on a range of criteria such as: the group had clear goals for the facilitation, managed time well, prepared discussion questions and tasks that facilitated the learning of the week's readings. This feedback sheet will be given to all group members in the week following their facilitation.

Additional details:

The aim of this assessment is to develop skills in working collaboratively with other students in order to give engaging presentations.

Discussion Facilitation In weeks 3 - 10, there will be a student - led facilitation on the themes and arguments that emerge in the week's readings. Each group will conduct a 45- minute facilitation. Small groups will be formed in the seminars in Week 1 and finalised in Week 2. The groups will range in size from 3 - 4 people. Facilitating discussion entails working in groups and involves the following:

- Reading the course texts (or viewing the film) ahead of time
- Preparing and distributing discussion questions/topics to the rest of the seminar
- Gathering and presenting additional materials in order to contextualize the work at the beginning of the class session. The materials can be journal articles on the topic, items of popular culture, news media, or material artifacts, which highlight important points about the week's topic.

Facilitators will work in teams and meet outside of class to prepare the facilitation.

Every group member must contribute to both these meetings and the class facilitation. All group members receive the same mark, if they have attended and contributed to all group activities and facilitations. Facilitators will prepare discussions questions and use these questions to stimulate

discussion. These discussion questions are intended to generate creative thinking and active discussion in the classroom. The aim of the facilitation is not simply to display your own knowledge but also to help the whole class develop an informed appreciation of the issues arising from that week's discussion.

Rehearse your discussion facilitation plans, to get a sense of how well they will work for your audience: check that your questions are both answerable and stimulating. The facilitation will be evaluated in terms of how interesting and engaging it is, and how helpful it is to the learning of other students.

Marking criteria: clarity of presentation, depth of engagement with concepts in the week's readings, independent research of outside materials, teamwork skills, skillful discussion facilitation, discussion questions that stimulate dialogue and reflection.

Turnitin setting: This is not a Turnitin assignment

Assessment 2: Essay

Start date: Not Applicable

Length: up to 2500 words

Details: This essay requires that students undertake independent research. Students will receive written feedback on the essay at the end of the course. This is the final assessment in the course.

Additional details:

Essay questions will be distributed in class. Students may wish to consult the UNSW librarians for individualised support on finding references for their essays. They are here to help.

Marking criteria:

1. Evidence of putting ideas to work in a creative way.
2. Rigour: attention to detail, pushing points as far as possible, drawing out implications.
3. Independent research: Drawing on ideas from beyond the course reader.
4. Development of clear arguments with a strong sense of structure.

Assessment 3: Workbook

Start date: Not Applicable

Length: Weekly entries of 300 words

Details: Students will receive initial feedback on their workbook entries in Week 3. They will receive feedback again on their entries in Week 13.

Additional details:

Response papers are designed to encourage careful reading and reflection on the week's readings. They are opportunities for you to formulate intellectual viewpoints on the week's material and grapple with ideas that emerge in the readings. In undertaking the response papers, you must demonstrate critical thinking skills by engaging the ideas and debates in a focused manner. It is expected that students will upload their written response on Moodle before attending the seminar.

A total of five response papers is due in the course of the term.

The first response paper must be submitted by Week 3's class. This response paper will be marked.

The final portfolio of entries (a total of your best 4 entries) is to be submitted in the final week of classes.

Marking criteria: critical engagement with concepts and arguments in the week's texts, evidence of close reading and of development of your ideas as the class progresses, good writing skills, logical argument, accurate referencing.

Attendance Requirements

Please note that lecture recordings are not available for this course. Students are strongly encouraged to attend all classes and contact the Course Authority to make alternative arrangements for classes missed.

Recommended Resources

Libraries, Learning Centre, and Health Services

Students may wish to consult the UNSW librarians for individualised support on finding references for their essays.

Those students requiring support for essay writing can contact me and/or make an appointment with Learning Centre staff.

The University of New South Wales is committed to advancing the mental health and well-being of its students. If you or someone you know is feeling overwhelmed, depressed, and/or in need of support, services are available. You can learn more about the broad range of confidential mental health services available on campus. Information is available at <http://www.healthservices.unsw.edu.au/content/mental-health>

Course Evaluation and Development

Student feedback from previous years has been incorporated into the design of the course. Student feedback is gathered periodically, using among other means, UNSW's Student My Experience survey. Informal feedback and class-generated feedback are also important. Student feedback is taken seriously, and improvements will be made to the course based in part on such feedback.

Submission of Assessment Tasks

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course's Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: <https://student.unsw.edu.au/how-submit-assignment-moodle>

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices:

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials including text, images, formulae and concepts.

Individual assistance is available on request from The Learning Centre (<http://www.lc.unsw.edu.au/>). Students are also reminded that careful time management is an important part of study and one of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library also has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study.

Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time

- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library

Some of these areas will be familiar to you, others will be new. Gaining a solid understanding of all the related aspects of ELISE will help you make the most of your studies at UNSW.
