Summary of the Course

This course provides you with an understanding of the purpose of the literature review and conducting a quality literature review in education. The course will be conducted seminar style and is designed to help you to analyse, synthesise and evaluate literature to provide a theoretical or conceptual framework for a small research project in education.

Note: This course is available only to EdPrDoc students.

Course Learning Outcomes

1. Analyse and evaluate theory and research in the academic literature related to a research topic in education.
2. Identify gaps in theory and research in the academic literature related to a research topic in education.
3. Synthesise related theory and research in the academic literature to support a theoretical or conceptual framework to guide a small research project in education.
4. Articulate key findings from a comprehensive review of theory and research from literature related to a research topic in education.

Teaching Strategies

Rationale: This course provides students with the opportunity to undertake and construct a literature review on a research topic of interest in education. The teaching approach attempts to actively engage students as they discuss current theory and practice, and learn new information and skills. Students will be required to take responsibility for their own learning in this course.

Teaching strategies: This course will be largely self-directed learning for the students as they work towards the building of an extensive literature review. This will be undertaken with the guidance of an academic supervisor.

Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying: Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment without appropriate acknowledgement.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion: Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.

Inappropriate citation: Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

Duplication ("self-plagiarism"): Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Correct referencing practices

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study. Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library
