Units of Credit 6

Workload

150 hours including class contact hours, readings, class preparation, assessment, follow up activities, etc.

Summary of the Course

This course will provide an overview of the principles, policies, and philosophies underpinning inclusion. The Universal Design for Learning approach to curriculum design for students with disabilities or diverse needs will be a central focus as well as evidence and research-based approaches to teaching these students in mainstream school settings. The role of teachers, special educators, and the leadership team in promoting the successful inclusion of students with diverse needs will also be highlighted.

Course Learning Outcomes

1. Discuss the prevailing attitudes towards people with disability.
2. Apply knowledge of legislation and government policies related to the education and inclusion of people with disabilities using professional judgment and current research.
3. Explain key terms related to disability and inclusion, and articulate the current issues and trends in the inclusion of students with disability.
4. Adjust curriculum via modification or accommodations to assist students with disability to meet educational outcomes.

Teaching Strategies

Rationale and teaching strategies

Today's classrooms present a diversity of students, including students who are gifted and those who have language barriers, learning difficulties, and disabilities. Thus, teachers must make accommodations and modifications to meet the needs of the diverse range of learners in their classrooms. This course aims to provide not just an overview of inclusion principles and policies but will also provide you with the knowledge of how to make relevant curriculum adjustments and adaptations using Universal Design for Learning Principles, along with a range of teaching strategies to facilitate students' access to the general education curriculum.

Teaching strategies employed in this course include:

- Explicit teaching including reading and/or listening to audio-visual materials to foster interest and support learning.
- Structured occasions for critical reflection on issues raised in the course and on others' ideas.
- Opportunities for peer and instructor interaction via forums, and synchronous chats allowing you the opportunity to demonstrate your capacity to communicate, to question, and to problem solve.
- Completion of online modules and activities to permit flexible interaction with course materials.
- Use of activities within some modules for students get feedback on key capacities/skills required.
in the final assessment task.

These activities will occur in a climate that is supportive and inclusive of all learners.

### Assessment 1: Concept demonstration

**Due date:** 24/06/2022 05:00 PM

Demonstrate understanding of recent UDL theory and research by applying UDL principles in current teaching situation/role/teaching specialisation.

2500 words

Students will receive written/audio feedback within 10 days of submission

**Additional details**

**Universal Design for Learning concept demonstration.**

Students with diverse learning needs in inclusive classrooms require teachers to employ effective teaching methods to ensure the required content is accessible for all students. Using recently published (2012-2022) research literature on Universal Design for Learning: (a) demonstrate your understanding of how this approach accommodates all learners, regardless of disability or special need in mainstream settings, and (b) how you could apply UDL principles in your current teaching situation/role/subject specialisation.

### Assessment 2: UDLised lesson plans

**Due date:** a) 04/07/2022 5:00PM; b) 11/07/2022 5:00PM; c) 04/08/2022 5:00PM

Create a mini-unit idea and two sequenced lesson plans and apply UDL principles and guidelines.

3000 words

Students will receive written feedback within 10 days of submission

**Additional details**

**Task 2a: Mini-unit idea**

You will post your mini-unit idea, that you will later create 2 sequenced lesson plans for in Task 2c, for
peer review and comment. Indicate what grade/learners it will be for. This is a hurdle requirement.

**Assessment 2b: Peer feedback**

You will also need to view 1 other peer’s mini-unit idea and provide one (1) idea and/or resource suggestion (e.g., useful website, Youtube clip). This is a hurdle requirement.

**Assessment 2c: UDLised Lesson plans for Mini-Unit**

You will adapt the first two lessons of a mini-unit of work in one subject area of your choice. Ideally it will be for a class you have taught. Your adaptations/activities/teaching methods must show a clear connection to the needs of your students with sensory, physical, learning, cognitive, or behavioural needs. You must use UDL principles and guidelines, and NSW NESA (BOSTES) Curriculum documents when adapting the mini-unit lessons. Assessment methods (formative and summative) that reflect UDL principles must be included in each lesson: how do you know your students are achieving the intended learning outcomes of the lesson? You will also need to critique, and support with literature, the suitability of four (4) of your chosen teaching methods or activity choices used in your second lesson plan in catering for your students’ diverse learning needs. Refer to Moodle for more information and templates.

Attendance Requirements

School of Education Attendance Requirement

The School of Education (SED) requires students meet a minimum attendance requirement of 80% of all scheduled classes (i.e., lectures, tutorials, workshops, seminars) for all courses. Attendance in person is required for tutorials, seminars, and workshops when courses are delivered in face-to-face mode. It is the responsibility of students to ensure that their attendance is recorded for the face-to-face either by electronic means or via an attendance register. Attendance in online or blended mode will be assessed through digital. Further information can be found here.

Submission of Assessment Tasks

Turnitin Submission

If you encounter a problem when attempting to submit your assignment through Turnitin, please telephone External Support on 9385 3331 or email them on externalteltsupport@unsw.edu.au. Support hours are 8:00am – 10:00pm on weekdays and 9:00am – 5:00pm on weekends (365 days a year). If you are unable to submit your assignment due to a fault with Turnitin you may apply for an extension, but you must retain your ticket number from External Support (along with any other relevant documents) to include as evidence to support your extension application. If you email External Support you will automatically receive a ticket number, but if you telephone you will need to specifically ask for one. Turnitin also provides updates on their system status on Twitter.

Generally, assessment tasks must be submitted electronically via either Turnitin or a Moodle assignment. In instances where this is not possible, it will be stated on your course’s Moodle site with alternative submission details.

For information on how to submit assignments online via Moodle: https://student.unsw.edu.au/how-submit-assignment-moodle
Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

**Copying:** Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person’s assignment without appropriate acknowledgement.

**Inappropriate paraphrasing:** Changing a few words and phrases while mostly retaining the original information, structure and/or progression of ideas of the original without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

**Collusion:** Working with others but passing off the work as a person’s individual work. Collusion also includes providing your work to another student for the purpose of them plagiarising, paying another person to perform an academic task, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work.

**Inappropriate citation:** Citing sources which have not been read, without acknowledging the "secondary" source from which knowledge of them has been obtained.

**Duplication ("self-plagiarism"):** Submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

**Correct referencing practices**

The UNSW Academic Skills support offers resources and individual consultations. Students are also reminded that careful time management is an important part of study. One of the identified causes of plagiarism is poor time management. Students should allow sufficient time for research, drafting and proper referencing of sources in preparing all assessment items.

UNSW Library has the ELISE tool available to assist you with your study at UNSW. ELISE is designed to introduce new students to studying at UNSW but it can also be a great refresher during your study. Completing the ELISE tutorial and quiz will enable you to:

- analyse topics, plan responses and organise research for academic writing and other assessment tasks
- effectively and efficiently find appropriate information sources and evaluate relevance to your needs
- use and manage information effectively to accomplish a specific purpose
- better manage your time
- understand your rights and responsibilities as a student at UNSW
- be aware of plagiarism, copyright, UNSW Student Code of Conduct and Acceptable Use of UNSW ICT Resources Policy
- be aware of the standards of behaviour expected of everyone in the UNSW community
- locate services and information about UNSW and UNSW Library
Academic Information

Due to evolving advice by NSW Health, students must check for updated information regarding online learning for all Arts, Design and Architecture courses this term (via Moodle or course information provided.)
