SUMMARY OF COURSE

This course is designed to inculcate and infuse the student with a theoretical and practical understanding of the current BOSTES Economics curriculum, pedagogy and assessment strategies. Complementing this is recognition of the need to honour the concepts of differentiation, equity, cultural diversity and the various forms of literacy within planning, organising, leading and controlling of classroom practices and activities.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

The course aims to develop and foster a capacity for each student to effectively teach economics that meets the syllabus content and skills outcomes. The lectures and tutorials will emphasise and deliver content knowledge, where the delivery will be demonstrated through a range of strategies where the primacy is on understanding- a capacity to take knowledge and expressed it in different forms or mediums i.e., written, verbal, and or visual. The focus will be on the use and appropriateness of teacher centred and student focused strategies, but these are set against a background of differentiation, equity and social inclusion.

5. TEACHING STRATEGIES

- Explicit teaching- lectures, where content will be delivered
- The use of cooperative or collaborative strategies where the emphasis on teamwork and student-centred learning
- Visual thinking strategies and visual tools
- Formative assessment strategies
- Peer assessment and teaching
- The use of ICT
- Thinking routines
- Peer tutoring and reciprocal peer tutoring
### 6. COURSE CONTENT AND STRUCTURE

<table>
<thead>
<tr>
<th>Module</th>
<th>Lecture Topic</th>
<th>Tutorial Topic</th>
</tr>
</thead>
</table>
| 1      | - Overview of Stage 6 Economics and where Economics fits into the learning continuum.  
        - Quality Teaching Framework and other pedagogical frameworks | - Personal and course Goals  
- Roles and responsibilities of an Economics teacher  
- A closer look at the Quality Teaching Framework  
- Structure of the Economic Syllabus  
- Linking understanding and thinking strategies in relation to syllabus topic areas. |
|        | **Topic: The Nature of Economics** | |
| 2      | **Teaching strategies for Economics**  
- Physical, social, and intellectual development of students and how this affects their engagement in learning  
- Importance of matching teaching strategies to individual needs | - Research on how students learn  
- Workshop to explore and evaluate the suitability of teaching strategies to meet learning goals and outcomes  
- Contextual knowledge |
|        | **Topic: Consumer and Business** | |
| 3      | **Lesson planning**  
- Using outcomes to set learning intentions  
- Setting challenging learning goals in lesson planning | - Setting high expectations for learning  
- Strategies for making learning goals explicit for students  
- Review of sample lesson plans and discussion of strengths and limitations |
|        | **Topic: Markets** | |
| 4      | **Co-operative learning**  
- Promoting inclusive student participation and engagement in the classroom | - Embedding formative assessment:  
  - Thinking strategies  
  - Questioning  
  - Mind/concept maps  
  - Feedback  
- Importance of ethical and respectful behaviour  
- Self and peer assessment in relation to microteaching |
|        | **Demonstration of microteaching** | |
| 5      | **Organisation of classroom activities**  
- Providing clear directions  
- Activities to support learning in Economics | - How to structure instructions, questioning and transitions between activities |
|        | **Topic: Markets (continued)** | |
| 6      | **Planning a unit of work**  
- Sequencing subject content across lessons within a unit of work  
  - Pedagogical framework  
  - Rationale  
  - Goals setting  
  - Differentiation  
  - Strategies for formative assessment | - Programming and the development of a unit of work to meet selected outcomes.  
- Content selection and scope of content for effective lesson sequences for Stage 6  
- **Microteaching**

**Submission of assessments**

Students are required to follow their lecturer’s instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.

Assessment Details

Assessment 1: Lesson plan for mixed ability Year 11 Economics class
(c. 2000 words, weighting 40%)

Plan and design one 60-minute lesson for a mixed-ability Stage 6 Preliminary class. The lesson plan must follow a standard SED format and be presented using the template provided.

Plan your lesson for a class in a comprehensive high school which would typically include EAL/D students, Indigenous students and students with various religious and cultural backgrounds. Some students may have low levels of literacy. Differentiation to cater for some students is therefore required. Appropriate differentiation strategies are scaffolding, group work and/or an alternative task or mode of presentation.

1. Write a rationale for your lesson plan. Your rationale should address the questions: What do I want the students to learn? Why is it important? What strategies will I use? What assessment for learning strategies will I use to monitor progress?
2. Prepare the lesson plan to demonstrate how you will use appropriate structure, activities, strategies and formative assessment to develop understanding of the material.

Make sure you:

- choose an appropriate topic for the year group
- support your rationale using references indicating your professional reading
- choose appropriate outcomes and lesson content
- demonstrate knowledge of effective teaching and learning strategies
- use appropriate format and provide sufficient detail for an effective lesson plan
- include an aspect of literacy/numeracy which integrates with the lesson focus
- provide in full one activity (which may be ICT-based)
- express yourself in clear, standard Australian English.
Assessment 2: Unit of work for HSC Preliminary Economics course
(c. 3500 words, 60% weighting)

This assessment focuses on the programming of ONE (1) of the HSC Preliminary Economics topics (See Stage 6 Economics Syllabus). Note: The unit of work can only be based on topics 3-6. The unit of work should cover the first five lessons; however, you are not preparing full lesson plans.

Context of the unit of instruction

This class is a mixed ability, co-educational group of students in a comprehensive public/private high school. Thirty per cent of the students are from a non-English speaking background. There are several Indigenous Australian students in the class and students from the Pacific Islands.

A diverse range of religious and cultural groups are represented in this class. A small number of students in this class demonstrate challenging behaviours.

You must write a rationale for the unit (600 – 800 words) in which you:

- provide a brief outline of the school and class context
- state precisely what you want the students to learn and why it is important
- justify your choice of topic/text to suit the needs and abilities of this class
- justify your teaching strategies by referring to readings, research and material presented in lectures and the Quality Teaching framework
- demonstrate how differentiation will support a diverse range of learners
- state the prior knowledge students have to begin this unit and discuss how you would assess and build on this prior knowledge.

The unit program is a standard format explained and investigated during lectures and tutorials. You will receive a suggested template for the unit of work in class and this will be available via Moodle.

Include in your unit outline:

- the learning intentions for each lesson
- one full activity for formative assessment (not an essay)
- one ICT-based activity (not watching a video or PowerPoint presentation)
- one group-work task with a focus on literacy/numeracy (not a mind-map)
- one incursion/excursion/performance/product activity
- outlines only for the other teaching materials required.

In the unit you design, you will be assessed on your ability to:

1. Choose appropriate resources for the class
2. Use the appropriate unit plan format, including:
   - A lesson sequence with the key concepts to be taught identified
   - A teaching and learning sequence which identifies key concepts, links to syllabus (students learn about, students learn to), teaching strategies and formative and summative assessment strategies for each lesson.
3. Clearly identify links to the syllabus and syllabus outcomes and identify which outcomes will be assessed in the unit.
4. Include differentiation strategies
# Feedback Sheet

**UNSW SCHOOL OF EDUCATION**  
**FEEDBACK SHEET**  
**EDST6716 ECONOMICS METHOD 1**

**Student Name:**  
**Assessment Task 1:** Lesson planning

## Specific Criteria

### Understanding of the question
- Understanding of the task and its relationship to relevant areas of theory, research and practice.  
- Clarity and accuracy in use of key terms and concepts.  
- Demonstrates knowledge of resources that will engage and extend all students.  
- Shows evidence of critical analysis and reflection.  
- Clear statement of syllabus outcomes.  
- Lesson goal(s) clearly linked to syllabus outcomes and chosen strategies.  
- Effective use of individual and group activities to address teaching and learning goals.

### Depth of analysis and/or critique in response to the task
- Ability to plan and assess for effective learning by designing detailed lesson plans on the given template, using knowledge of the NSW syllabus documents or other curriculum requirements of the Education Act.  
- Rationale linked to outcomes in the syllabus.  
- Reasons for the choice of teaching and learning strategies effectively explained.

### Familiarity with and relevance of professional and/or research literature used to support response
- Reference specifically to material, research and ideas presented in Economics method lectures, readings from the prescribed text and other sources.

### Presentation of response according to appropriate academic and linguistic conventions
- Clarity and appropriateness of sentence structure, vocabulary use, spelling, punctuation, and word length.

## General Comments/Recommendations for Next Time

<table>

<tr>
<td>Weighting:</td>
<td>40%</td>
</tr>
</tbody>
</table>

NB: The ticks in the various boxes are designed to provide feedback to students; they are not given equal weight in determining the recommended grade. Depending on the nature of the assessment task, lecturers may also contextualize and/or amend these specific criteria. The recommended grade is tentative only, subject to standardisation processes and approval by the School of Education Learning and Teaching Committee.
### SPECIFIC CRITERIA

#### Understanding of the question or issue and the key concepts involved
- Understanding of the task and its relationship to relevant areas of theory, research and practice.
- Clarity and accuracy in use of key terms and concepts.
- Demonstrates knowledge of resources that will engage and extend all students.
- Shows evidence of critical analysis and reflection.
- Clear statement of syllabus outcomes.
- Lesson goal(s) clearly linked to syllabus outcomes and chosen strategies.
- Effective use of individual and group activities to address teaching and learning goals.

#### Depth of analysis and/or critique in response to the task
- Ability to plan and assess for effective learning by designing a detailed unit of work on the given proforma, using knowledge of the NSW syllabus documents or other curriculum requirements of the Education Act.
- Rationale linked to outcomes in the syllabus.
- Reasons for the choice of teaching and learning strategies effectively explained.
- Demonstration of knowledge, respect and understanding of the social, ethnic, cultural and religious backgrounds of students and how these factors may affect learning.

#### Familiarity with and relevance of professional and/or research literature used to support response
- Reference specifically to material, research and ideas presented in Economics method lectures, readings from the prescribed text and other sources, relevant lectures from the Combined Method Lecture series and from the Professional Experience lectures on diversity.

#### Structure and organisation of response
- Appropriateness of overall structure.
- Clarity and coherence of organisation, including use of section headings and summaries to enhance readability.

#### Presentation of response according to appropriate academic and linguistic conventions
- Clarity and appropriateness of sentence structure, vocabulary use, spelling, punctuation and word length.
