Impact	Outcome	Original Expected Outcome	Alternative Plan and Delay Time	Effect on Thesis
Example: Lab closure not allowing for material X synthesis.	Not able to trial effects of parameter variation on material X properties.	Understanding of material X properties according to synthesis not established leading to... [consequence]	Use material Y instead to understand effects of synthesis parameters. Required extra 3 weeks.	Thesis now not focussed on X class of material leading to... [consequence]
Example: Fieldwork could not be carried out because of travel restrictions	Item P not delivered as per schedule.	Modelling the effect of action Q on leading to an improvement to ...	Fieldwork dropped and plan modified to instead investigate ... taking approach	Thesis goals revised, dropping And instead focussing on
