

# CALL FOR STUDENTS!

## ***If you:***

- are passionate about science;
- want to make a difference in cancer research;
- are keen to learn new technologies;
- have a curiosity-driven mind.

## ***THEN YOU HAVE TO JOIN THE CHEMICAL BIOLOGY AND TARGET-BASED DRUG DESIGN LAB***

*at the Children's Cancer Institute*

*Project: An integrated platform of computational chemistry and chemoproteomics for identification of novel oncogenic drivers in childhood cancer.*

*Interested?*

*Follow the link in the description and have a chat with Dr. Jean Bertoldo.*
