

We want everyone 2 Be Safe!

It is important to take 2 minutes to consider what hazards or risks could be associated with the task you are about to complete.

Have you:

- ✓ Completed a safety brief?
 - Is everyone clear on how to undertake the task safely?
- ✓ Completed your induction?
- ✓ Completed the relevant training for the task?
- ✓ Reviewed all required documentation?
- ✓ Located the correct PPE?
- ✓ Considered any environmental factors?
 - Is everyone fit and healthy?
 - Are there any injuries that might impact anyone performing the task safely?
 - Are there any distractions such as noise, lighting, or time of day?

If not, please discuss with your supervisor/tutor and complete all requirements prior to starting the task.
