### 2.1 Course summary

The purpose of this course is to provide a “capstone” experience for students doing a major in psychology. This capstone course offers an opportunity to explicitly integrate material from the entire psychology major.

### 2.2 Course aims

The primary purpose of this course is to provide a “capstone experience” (capping off and bringing together the various learning experiences from your degree) for students undertaking a major in psychology, regardless of their degree program. Psychology graduate attributes/capabilities should lead to the development of psychological literacy, which is useful for any career destination that involves interacting with other human beings (<https://student.unsw.edu.au/psychological-literacy>; psychliteracy.com). For example, the kind of skills you should learn in this course, such as reflecting on your personal and professional knowledge, skills and attitudes (KSAs), are critical to professional development in any field (and should be compulsory for all health professions).

### 2.3 Course learning outcomes (CLO)

| Course Learning Outcomes (and assessment)   |      |  |
|---|------|--|
| By the end of this course you (the student) will be able to:  |      |  |
| 1. Demonstrate the capacity to apply psychological principles in order to engage in career development and to | 1.1. | Psychological principles of career development learning (exams, portfolio)       |
|   | 1.2. | Psychology of self-management, teamwork and leadership (exams, project proposal) |
|   | 1.3. | Psychological practice, research and issues in specific workplaces (exams)       |
|   | 1.4. | Psychological Science in the public interest (project proposal, exams)           |

|   |  |
|---|--|
| integrate and extend knowledge, such as:  | 1.5. Health & Wellbeing (project proposal, exams)  |
| 2. Demonstrate advanced Research Knowledge & Skills, such as:   | 2.1. Capacity to design and plan the evaluation of a project proposal to address societal issues (collaborative & individual project proposal; final examination)  |
| 3. Demonstrate advanced critical & creative thinking skills in addition to advanced written and oral communication skills, such as: | 3.1. Critical and creative thinking regarding research design and program evaluation (collaborative & individual project proposal; portfolio; final examination)<br>3.2. Written communication (portfolio, final exam, slide content for collaborative research presentations)<br>3.3. Oral communication (collaborative research presentations) |
| 4. Demonstrate advanced knowledge regarding values and ethics in psychology   | 4.1. Understand the different moral philosophical frameworks and perspectives, and be able to apply this understanding to ethical dilemmas (final examination)   |

## 2.4 Relationship between course & program learning outcomes, activities and assessments.

| CLO | Program Learning Outcomes  |   |  |   | Assessment   |
|-----|--|---|--|---|--|
|     | 1. Knowledge   | 2. Research Methods   | 3. Critical Thinking Skills, Communication, Interpersonal and Teamwork                 | 4. Values and Ethics                              |  |
| 1.  | Lectures, practicals [final exam, portfolio, collaborative research assignment, quizzes] |   |  |   | Final examination, portfolio, collaborative research assignment, quizzes |
| 2.  |  | Lectures, practicals [collaborative research assignment, final exam, quizzes] |  |   | Collaborative research assignment, quizzes, final examination            |
| 3.  |  |   | Lectures, practicals [collaborative research assignment; portfolio; final examination] |   | Collaborative research assignment; portfolio; final examination          |
| 4.  |  |   |  | Lectures, practicals [final examination, quizzes] | Final examination, quizzes   |

## 3. Strategies and approaches to learning

---

### 3.1 Learning and teaching activities

The content of this course will have 4 foci: applied research and evaluation, applied health and wellbeing (AHW), career development learning (CDL) and history and systems. Lectures will be provided by specialists in their subject areas. Some will constitute core areas (e.g., research, ethics, history) and others will cover applications of psychological principles to solving particular problems (applied health and wellbeing), or integrate psychological principles across disciplinary boundaries (e.g., ethics—which is part of career development learning). One of the key overarching goals of this course is for you to understand where and how theoretical concepts from psychology can be applied to issues in society. The core lectures and readings provide information on a range of issues from misinformation, to mental health; from the welfare of refugees, to ways to improve the teaching of reading and ‘learning-styles’; from general strategies on self-control, to the presentation of evidence in courtrooms. In each case, relevant psychological literature is reviewed and central findings that are “in the public interest” and relevant to societal issues are emphasized. In conjunction with these readings and lectures we have also sought to make connections with United Nations Sustainable Development Goals, in an effort to highlight the broader implications of the research and its potential to tackle these substantive global problems.

**All lectures** will be digitally recorded and made accessible via Moodle.

**Practical Participation:** Interactive practicals will extend lectures and assist in the development of learning outcomes and are an essential and compulsory part of this course. To benefit from and to contribute to practicals, preparation and completion of any set work is critical. Material relevant to the group assignments will be presented and discussed in practicals. Tutorials will occur either online (via Blackboard Collaborate) or in face-to-face tutorials on campus.

### 3.2 Expectations of students

It is expected that students are aware of UNSW Assessment policy and understand how to apply for special consideration if they are unable to complete an assignment/exam due to illness and/or misadventure.

It is expected that students have read through the School of Psychology Student Guide.

Moodle contains lecture and practical materials, assessment materials, and any updated information. You are expected to check Moodle regularly. You are also expected to regularly check your UNSW email.

*You are required to attend all lectures and practicals, and to meet all participation and assessment specifications.*

**It is a course requirement that you attend 100% of the 2-hour weekly practical/tutorial classes** to ensure students are consistently working towards achieving the foundational graduate competencies required by the APAC Accreditation Standards. These Accreditation Standards are incorporated in Program and Course Learning Outcomes. Permission to miss a practical will only be granted in extenuating circumstances and will require documentation (e.g., medical certificate). Inadequate attendance (less than 100% of all sessions) of practical classes may result in failure to pass the course (whether or not you have medical certificates or other documentation). If you are unable to attend practicals because of sickness or other circumstances outside your control, this may be grounds for special consideration to drop the course without failure.

**Your practical session time:** You must attend the practical session to which you have been allocated. It will not be possible to switch or change practical classes once allocations are finalised.

Practical session attendance. Attendance will be recorded at the beginning of every practical. Those not on the class roll for that practical will be asked to leave, and all absences will be recorded.

For every 6-credit-unit course, you are expected to spend an average of **12 hrs per week on that course**—this includes class-time, pre- and post-practical activities, outside class-time group work, and the normal study time necessary to adequately complete assignments and examination study. ***Under no circumstances will employment be accepted as an excuse not to meet expectations for class participation, group work, or assessments.*** Remember, the term times are very short (final examinations will be upon you before you know it), so it is your responsibility to ensure that you do not fall behind with the ongoing assessment demands of the course.

The final exam for this course will take place online during UNSW examinations period. Students should not arrange travel during the UNSW exam period until the date of the final exam has been released. Students who arrange travel prior to the release of the final exam date will not be granted consideration in the event they are scheduled to be unable to participate when the final exam is to occur. This is especially important for study abroad students – do not arrange travel home until the final exam date has been released. You also need to be aware of the timing for supplementary examinations (see School of Psychology Student Guide) – only one date will be set for the supplementary examination, and again, prior travel arrangements will not be accepted as an excuse not to sit that examination. Moreover, there is a time-limit on late submission of the Career Development Portfolio, and there are no extensions for group work.

Students registered with Disability Services must contact the course co-ordinator immediately if they intend to request any special arrangements for later in the course, or if any special arrangements need to be made regarding access to the course material. Letters of support must be emailed to the course coordinator as soon as they are made available.

## 4. Course schedule and structure-

PLEASE READ THIS INFORMATION CAREFULLY IN CONJUNCTION WITH THE TABLES BELOW:

**WEEK 1 (Lecture 1):** This will be a live-online lecture delivered by the course convenor Professor Ben Newell. He will provide detailed information on the structure and aims of the course, how to approach studying and how to do well in the course.

**WEEK 1 (Lecture 2) to WEEK 7:** The core lectures in these weeks comprise a pre-recorded lecture (available on-demand) which presents a core reading, and a live-online Q&A session in the timeslot for the lecture between the Convenor Professor Ben Newell and the relevant Guest Lecturer\*. *We recommend that you watch the pre-recorded lecture and read the paper in advance of attending the Q&A session so that you can come armed with questions for discussion in the Q&A session.*

**WEEK 8:** The core lectures in this week are on the topics of Ethics and CV writing. There are no online Q&A sessions for these lectures.

**WEEK 9-10:** The core lectures in this week are on historical perspectives to the study of Psychology. These are delivered by Professor Branka Spehar. There will be a live online Q&A session between Professor Spehar and Professor Newell in the final lecture of Week 10.

Note that each week this course typically consists of 2 hours of lecture/Q&A material, 0-2 hours of tutorials, and 0-1 hours of online modules. Students are expected to take an additional 6-8 hours each week of self-determined study to complete assessments, core readings, and exam preparation.

All lectures and Q&A sessions will be recorded and available on Moodle but we strongly encourage you to attend the Q&A sessions live so you can join in with discussion and be part of the learning community.

\* With the exception of Week 4, Lecture 2.

| Week                 | Lecture 1<br>(Tues 1-2pm)                   | Lecture 2<br>(Fri 11-12pm)                  | Tutorial topics   | Online modules  | Self-determined activities                               |

## Lecture Topics For Weeks 1-7(\*all readings on Moodle/\*\*see SDG Toolkit on Moodle)

The aim with each of these core lectures is to introduce you to a topic of psychology that is “in the public interest” and tie it to one of the UN Sustainable Development Goals. To this end, guest lecturers have recorded lectures introducing key papers on topics that are within their areas of expertise. You should watch the lectures in conjunction with reading the papers and attending the live Q&A sessions. The Q&A sessions will be moderated by the course convenor Professor Ben Newell and will give you an opportunity to discuss questions and issues that arise from your reading of the papers and watching of the lectures.

| Lecturer & Topic  | Assigned Reading*   | Primary Sustainable Development Goal** |
|---|---|--|
| Sci Prof Richard Bryant<br><i>“PTSD &amp; Mental Health”</i>      | Foa, E.B., Gillihan, S.J., & Bryant, R.A. ## 5. Assessment

---

### 5.1 Assessment tasks

All assessments in this course have been designed and implemented in accordance with UNSW Assessment Policy.

| Assessment task                                   | Length     | Weight | Mark | Due date  |
|---|------------|--------|------|---|
| <b>Assessment 1</b>                               |            |        |      |   |
| a) Completion of Online Quizzes for Readings      | N/A        | 10%    | /10  | Ongoing, Complete by Week 10 Friday 11.59PM                   |
| b) Reflection/Opinion on SDGs and Psychology      | 500 words  | 10%    | /10  |   |
| <b>Assessment 2:</b>                              |            |        |      |   |
| a) Project Proposal (Group Presentation)          | 15 min     | 15%    | /15  | In tutes (Wk 5) plus slides uploaded by Week 5 Friday 11.59PM |
| b) Project Proposal (Individual Write-Up)         | 1500 words | 30%    | /30  | Week 8 Friday 11.59PM   |
| <b>Assessment 3:</b> Career Development Portfolio | ~750 words | 10%    | /10  | Week 10 Friday 11.59PM  |
| <b>Assessment 4:</b> Final exam (MCQ)             | 30 minutes | 25%    | /25  | Exam period   |

#### **Assessment 1: Online Quizzes for Core Readings and Reflection/Opinion of SDGs and Psychology.**

The aim of this assessment is (a) to assess your knowledge of the core readings, and (b) to give you an opportunity to reflect and provide your opinion on which SDG psychological science should tackle most urgently and why. For part (a), online quizzes for 10 of the core readings have been set up on Moodle and you will receive 1% for completion of each quiz. All ten quizzes need to be completed by the end of Week 10. For (b) we will provide a sample answer in the handout for this assessment which will be distributed at the start of the course.

#### **Assessment 2: Group Presentation and Individual Written Project Proposal.**

The aim of this assessment is to: (1) familiarise you with the process of designing research in applied settings, (2) familiarise you with a particular reporting style, and help you acquire the basics of effective and efficient scientific communication, (3) emphasise the development of your information literacy skills, as well as promoting critical thinking, and (4) provide you with a supported collaborative learning experience. Throughout the first part of the semester you will collaborate as a group to design an intervention to address a specific psychological issue that is tied to one or more UN Sustainable Development Goals. You will propose to test your hypothesis by investigating the needs of the target population, developing an intervention, and a means for evaluating the effectiveness of the intervention. Each group will present their research proposal to the class in Week 5. Normally, all

group members will receive the same mark. Peer evaluation of your group members' contributions will be used to moderate individual marks for this assignment.

After receiving feedback on your group presentation, you will prepare an individual write-up of your project which is due by the end of Week 8.

The assignment handout will be distributed in Week 2 and will contain more details.

### **Assessment 3: Career Development Portfolio.**

You will be asked to:

- identify a desired career pathway
- write a CV, cover letter, and interview preparation notes to apply for that job

See the assignment handout for more detail.

### **Assessment 4: Final Examination.**

This will be held in the final examination period and will be 30mins in duration. The exam will be held online via Moodle. The examination will be multiple choice and will focus on the History & Systems, Ethics, and CV Writing Lectures. It will also include some general questions on the UN SDGs. More information will follow during the course.

**UNSW grading system:** <https://student.unsw.edu.au/grades>

**UNSW assessment policy:** <https://student.unsw.edu.au/assessment>

## **5.2 Assessment criteria and standards**

Further details and marking criteria for each assessment will be provided to students closer to the assessment release date (see 4.1: UNSW Assessment Design Procedure).

## **5.3 Submission of assessment tasks**

**Written assessments:** In accordance with UNSW Assessment Policy written pieces of assessment must be submitted online via Turnitin. No paper or emailed copies will be accepted.

**Late penalties:** deduction of marks for late submissions will be in accordance with School policy (see: [Psychology Student Guide](#)).

**Special Consideration:** Students who are unable to complete an assessment task by the assigned due date can apply for special consideration. Students should also note that UNSW has a Fit to Sit/Submit rule for all assessments. If a student wishes to submit an application for special consideration for an exam or assessment, the application must be submitted prior to the start of the exam or before an assessment is submitted. If a student sits the exam/submits an assignment, they are declaring themselves well enough to do so and are unable to subsequently apply for special consideration. If a student becomes ill on the day of the exam, they must provide evidence dated within 24 hours of the exam, with their application.

Special consideration applications must be submitted to the online portal along with Third Party supporting documentation. Students who have experienced significant illness or misadventure during the assessment period may be eligible. Only circumstances deemed to be outside of the student's control are eligible for special consideration. Except in unusual circumstances, the duration of circumstances impacting academic work must be more than 3 consecutive days, or a total of 5 days within the teaching period. If the special consideration application is approved, students may be given an extended due date, or an alternative assessment/supplementary examination may be set. For more information see <https://student.unsw.edu.au/special-consideration>.

**Alternative assessments:** will be subject to approval and implemented in accordance with UNSW Assessment Implementation Procedure.

**Supplementary examinations:** will be made available for students with approved special consideration application and implemented in accordance with UNSW Assessment Policy

## 5.4 Feedback on assessment.

Feedback on all pieces of assessment in this course will be provided in accordance with UNSW Assessment Policy.

| Assessment                           | When                          | Who                          | Where                      | How                                |
|--------------------------------------|-------------------------------|------------------------------|----------------------------|------------------------------------|
| Online Quizzes on Readings           | Ongoing                       | Self-assessed via completion | Moodle                     | Moodle                             |

## 6. Academic integrity, referencing and plagiarism

The APA (7<sup>th</sup> edition) referencing style is to be adopted in this course. Students should consult the publication manual itself (rather than third party interpretations of it) in order to properly adhere to APA style conventions. Students do not need to purchase a copy of the manual, it is available in the library or online. This resource is used by assessment markers and should be the only resource used by students to ensure they adopt this style appropriately:

[APA 7th edition.](#)

**Referencing** is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism.

Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

**Academic integrity** is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage.<sup>1</sup> At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity and **plagiarism** can be located at:

- The *Current Students* site <https://student.unsw.edu.au/plagiarism>, and
- The *ELISE* training site <http://subjectguides.library.unsw.edu.au/elise/presenting>

<sup>1</sup> International Center for Academic Integrity, 'The Fundamental Values of Academic Integrity', T. Fishman (ed), Clemson University, 2013.

The *Conduct and Integrity Unit* provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>.

## 7. Readings and resources

|                                   |   |

| <b>Course information</b>         | Available on Moodle   |
| <b>Required readings</b>          | <a href="#">School of Psychology Student Guide</a> .  |
| <b>Recommended internet sites</b> | <a href="#">UNSW Library</a><br><a href="#">UNSW Learning centre</a><br><a href="#">ELISE</a><br><a href="#">Turnitin</a><br><a href="#">Student Code of Conduct</a><br><a href="#">Policy concerning academic honesty</a><br><a href="#">Email policy</a><br><a href="#">UNSW Anti-racism policy statement</a><br><a href="#">UNSW Equity and Diversity policy statement</a><br><a href="#">UNSW Equal opportunity in education policy statement</a> |

## 8. Administrative matters

The [School of Psychology Student Guide](#) contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses, such as:

- Attendance requirements
- Assignment submissions and returns
- Assessments
- Special consideration
- Student code of conduct
- Student complaints and grievances
- Disability Services
- Health and safety

It is expected that students familiarise themselves with the information contained in this guide.
